## AMAZING JOURNALISM.

The North Carolina Teachers' Assembly meets at Morehead City next Tuesday, the 10th, and in honor of the assembly and the educational movement, the Raleigh News and Observer issued a 36 page number on the 4th. It is a mammoth affair and contains enough cuts of educational characters to make an assembly. It is a fair compendium too of the school conditions and of the grand educational movement over the State. It is an amazing enterprise which the News and Observer has accomplished.

Senator Morgan does not admit that the Sismic disturbances at Martinique furnishes objections to the Nicaragua canal route. He claims too, contrary to the scientific conclusions that we have noted, that the Panama route is equally, possibly more, liable to earthquake damages than the Nicaraguan route. When doctor's differ laymen are enjoined to the silence that says, "I don't know."

First Regiment Band May be Disbanded  
There is a possibility of the First Regiment band disbanding.

C N Webster, the manager, declares that the band is not receiving the necessary encouragement from the city. The aldermen would not furnish a rough stand and lights for concerts at court square hence they have been stopped. The attendance at the auditorium concerts has not been as large as expected. Unless there is a sufficient number of season tickets sold for the concert to make them a financial success, the concert next Thursday night will be the last appearance of the band, as it will be disbanded, the instruments returned to the government, and the First Regiment band of Asheville a thing of the past.

It is up to the citizens whether they wish a band or not. Asheville Gazette.

## ROTATING IN CHICAGO.

Meat Wagons Have to Fight Their Way to Deliver Beef.

The worst of situations exists at Chicago. With the beef men and the rioters. A dozen or more battles were fought between policemen and the rioters on Wednesday. The casualties were not great however.

Probably one man hit with a baseball bat by a rioter may die. Most of the results are bruises. Thirty-six meat wagons succeeded in getting out of the union stock yards and in delivering meat.

## Rev. C A Marks' Discourse.

The Richmond Times of the 2nd says:

The Rev. C A Marks preached Sunday night at the First English Lutheran Church, taking for his subject the disaster at Martinique.

He took this incident as an example of the power of God to visit destruction upon a sinful world and declared that the disaster pointed to the truth of the destruction of the world by fire.

People hoot at the idea that there is a lake of fire and brimstone for the punishment of the wicked, said Mr. Marks, "well, go and look at those people in St. Pierre. See their hands sticking out from under the stones and the lava, as if they were trying to shield their faces from the suffocating atmosphere. If God could fill the air with these sulphurous fumes, rain fire and pour out streams of boiling mud, if he can stir up the waters as they were stirred up around the island of Martinique, how easily can he prepare a lake of fire and brimstone for the destruction of sinners."

Many of our readers recall with pleasure the days when he served Lutheran Chapel and Center Grove churches and the people who could, would follow him from one church to the other that they might not miss a single discourse.

## A Real Friend.

"I suffered from dyspepsia and indigestion for fifteen years," says W S Sturdevant of Merry Oaks, N. C. "After I had tried many doctors and medicines to no avail one of my friends persuaded me to try Kodol. It gave immediate relief. I can eat almost anything I want now and my digestion is good I cheerfully recommend Kodol." Don't try to cure stomach trouble by dieting. That only further weakens the system. You need wholesome, strengthening food. Kodol enables you to assimilate what you eat by digesting it without the stomach's aid.—Gibson Drug Store.

## How to Make Bean Soup.

There are several different ways of preparing this, and that which we like best, says a Boston Globe correspondent, is to first make a stock by boiling salt pork five or six hours, one pound to three quarts of water; renew from time to time. I take the salt pork, cut in strips and fry a golden brown in bottom of soup kettle, then cut an onion very fine and fry in the fat; now add the beans, which have soaked over night, and the water. Let cook slowly for five or six hours; then mash through a hair sieve, also with salt and pepper and serve with little cubes of bread tossed in flour and fried in fat until golden brown. Drain thoroughly before adding to the soup.

## How to Cook Ham a la Savarin.

This is really a delicious way to cook a ham: Wash the ham well in cold water, cover it with cold water and soak for twenty-four hours; then wipe dry. Into a porcelain lined kettle put enough cider or champagne to cover the ham and simmer gently, allowing fifteen minutes to every pound. Remove the skin while yet hot, brush the ham over with beaten egg, sprinkle with dried breadcrumbs and put into the oven to brown and crisp. Serve hot, garnished with "baby sausages" and stewed French prunes.

FLORENCE, S. C., Nov. 26, 1900.—I was stricken by our family physician in Charleston to use TEETHINA with our baby when he was but a very young infant, as a preventive of colic and to warm and sweeten the stomach. Later it was useful in teething troubles, and its effect has been found to be so very beneficial and so free from dangers that are consequent upon the use of drugs and soothing syrups, that we have come to regard it, after use with three children, as one of the necessities when there is a new baby in the house and until the teething troubles are over, and we take pleasure in recommending it to our friends instead of the horrid stuff that so many people use to keep their baby quiet.
