

Daily Concord Standard.

PRICE: \$4.00 per year.

CONCORD, N. C. SATURDAY, JUNE 21, 1902.

SINGLE COPY 5 CENTS

REDS MUST LEAVE PATERSON.

Prominent Citizens Form an Organization for the Purpose of Ridding That City of Anarchists.

Paterson, N. J., June 20.—Mayor Hinchliffe seems to-night to be in complete control of the situation here, backed as he is by the entire peace controlling force of the city and a goodly portion of the State militia. The soldiers' presence has had a deterrent effect upon the reds and they are not in evidence in the city.

An organization has been completed composed of 50 wealthy business men of this city to-night, known to the public as the Paterson Vigilance Committee, but the memberships and proceedings are not made public. Private detectives have already been engaged to shadow the leading reds. The anarchists are to be induced to leave Paterson quietly if possible. If they don't go, the committee is said to have its own plan for action. One of the methods to be employed is said to be the keeping of a blacklist and no matter where in Paterson a man on it obtains work his employer will be notified to dismiss him.

If this plan can be carried out it will starve out of the city all anarchists who may come here. It is said the committee has \$250,000 pledged by the men composing it to carry out its purposes.

Death the Reaper.

Mr. William Shive, the afflicted son of Mr. James Shive, died at his home in No. 5 township Friday night. The remains were buried at Ebenezer church this (Saturday) evening at 3 o'clock.

Mr. Shive was 21 years old. About two years ago he was stricken with blindness and was shut out from much of life's enjoyments.

The 2-year-old child of Mr. John L. Fink of No. 7 township, died Friday night. The little body was interred at 5 o'clock today (Saturday) at Mt. Olive church.

Meeting of N. C. E. L. Synod.

The adjourned meeting of the E. L. Synod of North Carolina will be held at St. Marks church, China Grove, on next Tuesday, the 24th.

The following considerations will be before the Synod:

- 1st. Ordination.
- 2nd. Amendments to constitution.
- 3rd. Report on North Carolina College.
- 4th. Election of trustees of Mount Amoena Seminary.
- 5th. Application for beneficiary education.

WANTED—Colored man, sober and trustworthy, to prepare for traveling. Salary to begin. Enclose stamped envelope. JOHN CARD, 352 Dearborn, Chicago.

Why Long Distance Telegraphy is Difficult.

The longer a telegraph line the fewer the signals that can be sent over it in a given time. An analogy will make the reason clear.

If we take 500 feet of rubber garden hose and attach it to a water-tap, the water will not start and stop flowing instantly when the tap is turned on and off. The water will not flow out in sharp jets, as it does with a short hose, but in gradually increasing and decreasing gushes. And if the tap is opened and closed very rapidly, the gushes will not have time to increase and decrease. They will merge into another, and the water will flow out in a steady stream. In other words, if we try to send signals rapidly through a very long garden hose, the signals run into one another and are lost. The reason is that the rubber hose is slightly elastic, and the pressure of the water flowing through it swells it up slightly. When the tap is suddenly closed the hose contracts again to its ordinary size, thus forcing water out at the open end for a moment or two after the tap is closed. When the tap is suddenly opened again the reverse process takes place. The hose is already full of water, but enough extra water has to be forced into it from the tap to swell it up as much as it will stretch before the water will start flowing out of the open end.

A telegraph or telephone wire is exactly like the garden hose. The wire, or rather the ether surrounding the wire, is elastic, and when we pump electricity into the wire it does not instantly start or stop flowing at the other end, unless the wire is very short. We must give the signals time to start and stop, and the longer the wire the slower the rate of signalling. That is why it is impossible to telephone over more than about one thousand miles, and why telegraphing through Atlantic cables is so slow. It follows also that a telegraph system using a large number of signals per letter will not be able to compete over long distances with a system using only a few signals per letter.—Donald Murray, in Everybody's Magazine.

Some Wheat is Fine.

Mr. W. C. Litaker, of No. 4, showed us today (Saturday) a sample of his wheat as fine as the country ever affords. Quite a good quantity of it has four grains abreast and some even five grains. He says his crop of wheat is good, well filled but a little thin and somewhat damaged by the bugs.

Mr. J. H. Barrier, of No. 7, says he has no complaint to make of his wheat crop.

Duel at Elk Park.

Roanoke, Va., June 20.—A special from Bristol, Tenn., to The Roanoke Times says:

"News of a fatal duel between James Ellis, a policeman in the little town of Elk Park, N. C., and William Winters, a mountaineer, has reached here. The men faced each other with revolvers and fired several shots. Ellis was killed, while Winters was seriously, if not fatally, wounded. He was able to ride unaided to a physician across the mountain from the scene of the shooting. Winters, who is one of seven brothers, known as 'Seven Devils,' had a grudge against the officer, who had formerly arrested him for disorderly conduct and handled him roughly, so Winters charges."

Lee Not a Lunatic—To be Tried for Murder.

Atlanta, Ga., June 18.—Millard Lee, who three weeks ago shot Miss Lila Suttles to death in a church on the outskirts of Atlanta, was this afternoon pronounced sane by a jury. His attorneys had put up a plea of lunacy and the first trial was to determine his mental status.

Now that this issue has been settled he will be placed on trial for his life tomorrow. Lee takes the verdict in a very apathetic manner, bearing out lawyers' assertions that he does not realize what is going on around him or the gravity of his position.

Contract Let.

Asheville, N. C., June 20.—The contract for building the Asheville & Rutherfordton Railroad was today let to George T. Canis, of New York, and work will begin at once. It is understood here that the Seaboard Air Line is backing the movement and the road will be extended through the mountains to the Tennessee line.

Dr. Ender, son of a former president of the Aetna Life Insurance Company, has been granted a divorce from his wife because of her cruelty. His little (?) wife weighed only 236 pounds. On their bridal tour he discovered that she had a fondness for drink and a few of the things that the groom escaped were being shot, stabbed, bit, and pitched down stairs. Yet, notwithstanding Dr. Ender's experience, a Newport News policeman will soon wed a girl who calls herself a "pugilistic woman" and boasts that she can easily lift 580 pounds. The foolhardiness of some men!—Raleigh Times.

FOR OVER SIXTY YEARS

Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

Cut Prices Draw Out The Populace.

Straws show which way the wind blows and when Parks & Co. advertise its a well-known fact that they have things in the store to look like they do on paper.

Here are some strong values that you can't get around. Now is a good time to lay in a summer supply of wash goods. The prices are greatly lowered.

Shirting Calico in fast colors, large range of patterns, never sold for less than 5c, cut price 3 1-2 cents

500 yards of 5c Dress Lawn at the matchless price of 2 1-2 cents

25c Foulards, looks like silk, now 15 cents

Beautiful patterns of fine Dimities & Lawns, 10 cents.

Lawns that are ordinarily sold at 10 cents, our price 7 1-2 cents.

Dotted Swiss, fine colored Lawns and Organdies that were sold for 25 yard, our special price 15 cents.

Handkerchiefs.

One lot of ladies fine Handkerchiefs, every one sold for 25c, some slightly wrinkled and some soiled, take your choice for 12 1/2c.

H. L. Parks & Co.

Rug! Rugger! Ruggist!

Chairs—world without end. Another car of 100 dozen chairs to meet the seating capacity of our customers.

STOVES.

Another car of those celebrated Star Leader Cook Stoves, the best Stove for the money on the market—10 year guarantee on fire back.

FURNITURE.

Furniture we sing all day long. Come and see us and we will make you happy.

Bell & Harris Fur. Co.

DR. MOFFETT'S
TEETHINA
(TEETHING POWDERS)

Costs Only 25 cents at Druggists.

Or mail 25 cents to Dr. J. MOFFETT, M. D., ST. LOUIS, MO.

ST. LOUIS, S. C., Nov. 26, 1900.—I was first advised by our family physician in Charleston to use TESTINA with our baby when he was but a very young infant, as a preventive of colic and to warm and soothe. I have since used it in teaching him, and its effect has been found to be so very beneficial and free from danger that are consequently upon the use of drugs and soothing syrups, that we have since used it in other cases with happy results, as one of the necessities when there is a new baby in the house and the teething troubles are over, we take pleasure in recommending it to our friends instead of the horrid stuff that is so commonly used. H. L. PARKS & CO., (Manager Daily Times and Daily Standard)
