## THE ROWAN RECORD HISTORY OF 400 YEARS AGO RECALLED IN AIR VOYAGE

as Columbus.

STORY OF THE MISTORIC TRIP. With a Kitten For a Mascot Six Brave Men in a Big Airship Be-

tween Sky and Sea Attempted a Dangerous Trip.

New York.-Walter Wellman and his five companions were landed here by the steamship Trent, which picked them up at sea after they had abandoned their dirigible balloon America and failed in the first attempt ever made to cross the Atlantic through the air. A bruised right hand which Wellman carried in a sling was the only physical injury that resulted from their long voyage of approximately 900 miles and a rescue the like of which is unknown to all history.

The America was abandoned where the rescue occurred in latitude 35.43, longitude 68.18. This brings to a climax one of the most remarkable flights by an airship ever undertaken. That the climax was not accompanied by a tragedy is considered a matter of exceptionally good fortune.

None of the aeronauts expressed regret for the loss of the America. They agreed that it had served its purpose and taught its lesson. All stand ready to renew the attempt east of Sandy Hook.

Standing on the deck of the Trent Wellman made this statement: "We thought we could not get along without the equilibrator. Now we find we could not get along with til the skin was rubbed of his it. Our plans for the future are indefinite until we find something feet and nearly dragged overboard. equilibrator would do."

by a long rope. the supply of gasoline, which had his airship until the lifeboat susto be thrown out to save the ship. Whe nthe crew abandoned the ship, only enough was left to last about

ica's crew said they felt as well as was launched this struck her and ever, and they looked it. They are: Melvin Vaniman, the engineer: J. Murray Simons, the navigator; J. K. Irwin, the wireless operator, and Albert T. Loud and John Auburt,

the air sailors. There was also the gray kitten, which was taken in charge after the flight by Mr. Vaniman and christen-

ed Trent. The Trent was forced to anchor off Sandy Hook and there she remained until the fog lifted to make it safe for her to come up the

Meanwhile a party of those nearest and dearest to the shipwrecked aeronauts had taken a tug and gone as far as the quarantine station to meet them. In this party were Mrs. Wellman, Mrs. Vaniman, Mrs. Leroy Chamberlain, Wellman's married daughter, and his two unmarried daughters, and Mrs. Sarah Loud, mother of Mrs. Vaniman and

of Albert L. Loud. With tears in her eyes Mrs. Wellman embraced her husband and kissed him on both cheeks. The aged Mrs. Loud stood weeping, with one arm around the neck of her son and the other about her son-in-law. joy, hung on her husband's arm.

It was the Morse lamp winking its message through the darkness that just preceded the dawn of Tuesday morning and not the wireless that we were happy a slittle gods. Nofirst attracted the attention of those body felt any fear at any time. When on board the Royal Mail steamer we quit it was because we were run-Trent to the distressed airship. Stan- ning out of gasoline."

Wellman and Crew as Daring ley Angel, an ordinary seaman of 18 years, and George Sangster, an able seaman, had the early morning watch. Angel saw ahead of him, high up in the northeast, a faint light. "At first," said the boy m narrating his experience, "I thought it was the morning star. Then I saw two faint red lights beside the white one and next made out a dark blur against the sky. The white light kept a-winking and then I knew that t was a signal and reported it to G. J. Fitzgerald, the fourth officer,

in charge of the watch." Fitzgerald notified W. H. Lanison, the chief officer. By this time the outline of the airship had been made out against the sky and Lanison called Captain Down out of his

"When I came on deck," Captain Down, "the airship was plainly visible. In the light of the full moon she looked enormous. hanging low in the northeast and clase at hand. In reply to our signale she told us her name and that she was in distress and as sed us to sim d by."

Then the wireless was called inte use and between I buis M. Gingh rg, operator on the Trent, and Jack K. Irwin, the operator in the trichest suspenced below the gas chamber of the America, passed a series of messages that will stand in history as the first wireless communication between a ship at sea and a ship in

"At this time," said Captain Down of the Trent, "we were in speaking distance of the America. She was only 12 feet above our forestays and moving about 12 knots an hour. We as soon as Wellman and his engi- kept beneath her with great diffineers find a way to conquer the dif- culty, for she swung to and fro in ficulties that brought their first trip the air currents and sometimes we to its thrilling end 400 miles south- were forced to go full speed astern so as not to lose her.

"Then," continued Captain Down, "the crew of the airship began traiting wire ropes. Lanison, our chief officer, grabbed one and held on unhands and he was lifted from his that will do what we thought the After half an hour of this we deided that this method of rescue was The "equilibrator," to which Well- hopeless and much too risky. ### SOUTHERN LABOR LAWS, RALEIGH AND THE STATE.

United States Government Testing Validity of Contract Labor Laws Before Supreme Court.

Washington. — Believing that ing upon the specified scope of his hundreds of Southern negroes are report as required in the act createing deprived of their liberty by ing his department, Commissioner the Federal government will endeavor to induce the Supreme Sourt man is adding to his 1910 report a of the United State to strike a tell- feature showing the general coning blow at the alleged evil. This dition affecting wage earners in a it will do by asking the court to broad sense of the term as shown declare unconstitutional the socalled Alabama "labor contract" law. Similar laws have been passand the decision is expected to apply to them all.

The treatment of negro farm hands under this law is interpreted by the Department of Justice as a state of peonage. Compulsory service in satisfaction of debt is taken by Attorney General Wick-ersham as the object to be accomplished by the legislation. The State of Alabama will appear

in court to defend its enactment. The case comes to the court on the appeal of a negro, Alonzo Bailcy, from the decision of the Supreme Court of Alabama, which held the law constitutional and punished Bailey for violating it by assessing a fine equivalent to 136 days' hard labor for the county. Attorney General Wickersham lays stress particularly upon the argument that the natural and reasonable effect of the statute was to impose compulsory services on negroes, who made up the bulk of faction of debt.

STORM IN FLORIDA AND CUBA.

Fruit Damaged-Waves Leap Over Morro Castle-Wreck Oufit Gone. Tampa, Fla.-With communication with all points south of here cut off, wireless stations out of

WAGE EARNERS' CONDITION.

Commissioner Shipman Makes Publie Some Interesting Facts. Reporting from or rather enlargplanters under forms of law, of Labor and Printing' M. L. Shipthrough reports from correspon-

dents in every section of the State, ed by several of the Southern States | themselves engaged in the "trades," this instead of confining the report to relations of labor and capital, hours of labor, earnings of laboring men and women, their education, the reduction of these laborers to moral and financial condition and the best means of promoting their mental, material, social and moral prosperity." Commenting on the leductions from the reports from his correspondents among the trades people, Commissioner Shipman says in the introduction to the labor chapter of his forthcoming

port: "The wage-earners have not yet been able to recover the favorable conditions which prevailed for some years prior to 1907. A sense of depression, probably, affects this class of the citizens' citizenship more than any other, in that it forces them out of permanent employment and brings about the necessity of searching for positions or renot to stop fraudulent practices but maining in enforced idleness. It may be suggested truthfully, however, that these avocations commonfarm labor in the State, in satis- ly termed the "trades" and embracing representatives possessing experience and ability have afforded employment more regularly, if at reduced wages, than the daily wageworker in many of the mill distracts, lumber plants and other injustrial centers, where the more efficient class of labor is not in denand. But while general conditions are vet unafavorable there are comparatively few skilled laborers, villing to work for a reasonable wage, out of employment in any

section of the State. The commissioner states the following as the average wages for the different trades: Barbers, \$1.50; blacksmiths, \$1.58; brick-masons, \$2.75; boiler-makers, \$3.24; cabinetnakers, \$1:75; carpenters, \$1.95; conductors, \$3.35; engineers, \$1; carriers, \$2.65; linetype operators, 33.31; machinists, \$2.10; molders, \$2.50; motormen, \$2; painters, \$1.80; patterns-makers, \$2; plasterers, \$3; pressmen, \$2.40; printers, men, \$1.85; stone masons, \$2.25;

The summary sets out that increase in wages is reported from 34 per cent of the correspondents with 16 per cent working by the day, 14

per cent by the hour. Other percentages show that are especially interesting: 53 per cent make full time and 29 per cent work overtime; 91 per cent report cost of living increased; 20 per cent favor ten-hour day, 59 per cent eight-hour day, 16 per cent ninehour day and one per cent a sixhour day; 86 per cent favor fixing per cent report financial conditions improving; 90 per cent report educational condition improving, and and 23 per cent no imprevement.

Dynamiter, Himself a Married Man, Knew What Awaited Forgetful Husband.

The business man was sitting in his office, thinking of starting for home, when a suspicious looking person came in with a leather bag in his hand.

"If you don't give me \$25," said the visitor, coming at once to the point, "I will drop this on the floor." The business man was cool. "What is in it?" he asked.

"Dynamite," was the brief reply. "What will it do if you drop it?" "Blow you up." "Drop it!" was the instant command, "My wife told me when I left home this morning to be sure and send up a bag of flour, and I forgot it. I guess it will take just about as much dynamite as you have there to prepare me for the blowing up I'll get

He threw himself back in his chair and walted for the explosion, but it did not come. "I'm a married man myself," said the dynamiter, and quietly slipped out.

-Illustrated Bits. "Thank You's." The man who is not thankkful for the lessons he learned in adversity didn't learn any. There must be plenty of thankfulness in the world if those who have loved and lost could know just what

hey have lost. "Why are you giving thanks? They took \$10,000 from you in Wall street a little while ago, didn't they?" "Yes; but I got out with \$20 they didn't know I had."-Judge.

Just Quessed. "Mrs. Wadsworth, I am very glad, indeed, to meet you. But, haven't I had the honor of being introduced to you before? What was your name formerly, if I may ask?"

"My maiden name?" "No; your name before you were divorced. "How did you know I had been d vorced?" "Why, hasn't everybody?"

An Admission. Fred-I proposed to Miss Dingley ast night. Joe-Don't believe I know her. I she well off? Fred-Yes, I guess so. She refused

COFFEE WAS IT. People Slowly Learn the Pacts.

"All my life I have been such slave to coffee that the very aroma of it was enough to set my nerves quivering. I kept gradually losing my tealth but I used to say Nonsense, it don't hurt me.'

Slowly I was forced to admit the truth and the final result was that my whole nervous force was shattered. "My heart became weak and uncertain in its action and that frightened me. Finally my physician told me, about a year ago, that I must stop drinking coffee or I could never expect to be well again.

"I was in despair, for the very thought of the medicines I had tried so many times naussated me. I ring myself to give up the coffee. "Finally I concluded that I owed it to myself to give Postum a trial. So I got a package and carefully followed the directions, and what a delicious, nourishing, rich drink it was! Do you know I found it very easy to shift from coffee to Postum and not mind

the change at all?

"Almost immediately after I made
the change I found myself better, and
as the days went by I kept on improvand well-balanced all the time. "Now I am completely cured, with the old nervousness and sickness all

gone. In every way I am well once
