Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. ## SULZER FOUND GUILTY.

Charged, Tried and Found Guilty of Crime by the Same set of Men.

Albany, N. Y., Oct. 16.—Gov. William Sulzer was today found guilty by the high court of impeachment on three of the articles preferred against him. They were articles numbers 1, 2 and 4. He was declared innocent of the charges contained in article 3. Tomorrow he will be removed from office, but not disqualified from holding office in this state in the future unless there is a substantial change in the informal vote reported to have been taken by the court on these questions in secret sessions today.

For the same reason it was expected that he will be found not guilty on the other four articles still remaining to be voted on when the court adjourned tonight.

Lieut. Governor Martin H. Glynn, who has been acting Governor since the impeachment of Sulzer, will become Chief Executive of the State. He is an Albany newspaper owner. Robert F. Wagner, a New York attorney will become Lieutenant Governor. He is the majority leader in the Senate.

The vote on articles 1 and 2 was 39 to 18, a bare two-third majority. The former article charges that the Governor falsified his statement of campaign contributions; the latter charges that he committed perjury in so doing.

The vote on article 3, which charges the Governor bribed witnesses to withhold testimony from the Frawley Investigating Committee, was unanimous in favor of the Governor.

The vote on article 4 was 42 to 14, six members changing their votes on articles 1 and 2 from "not guilty" to "guilty" and two from "guilty" to "not guilty." This article charges that the Governor suppressed evidence by means of threats to keep witnesses from testifying before the Frawley committee. Among these was Duncan W. Peck, State Superintendent of Public Works, who testified at the trial that the Governor had asked him to commit perjury.

Because Governor Sulzer endeavored to serve the people of New York and break up grafting the Tammanyites, a Roman Catholic institution, instigated by Murphy, its leader, preferred charges, tried, convicted and put Sulzer out of office. These things were not accidental discoveries, they were known all the while and were unobjectionable so long as Mr. Sulzer would obey the Tammany chief, turn over the offices and public contracts to the Romanized grafters and play the part of a tool for the bunch, but upon his refusal to do so they set about to throw him out and make Glynn, a Roman Catholic, one whom it was known would do their bidding. Or, perhaps this was a Romish scheme from the start.

## SIDE LIGHTS.

Vance Miller looked like the real thing yesterday while engaged in turning the mellow sod. He had a plow and two good horses and was preparing the soil for a future harvest. Here is hoping he will reap abundantly.

Some of the boys went 'possum hunting again Wednesday night. The moon was shining brightly and they did not get lost nor very greatly frightened. As usual there were just as many opossums in the woods after their visit as before. The opossums do not even take the boys seasonally any longer.

Maj. W. H. Bostian went opossum hunting the other night and made pretty thorough search of the bushes, and was coming home empty handed, but he brought in two. Guess how he got them.

Uncle Pat took a day off Monday, took an excursion trip to Charlotte and visited the Barnum & Baily circuses. As he passed by the elephants he says, "I'll be ding-soused if they haint 'possums for you," again he says, "Ha boys, look at them striped mules." "Gosh haint that a long necked cow?" etc. He then went into the big tent and about the time the three big rings were going, the platforms alive and the clowns busy on all sides, he says loud, sees all could hear, "Why don't they do something." He then stayed to the concert and says "Now boys, they have got down to business. That looks like or show."

thus making one of their gang governor by trickery because it could not have been done openly or fairly. This will have a tremendous effect on New York and national politics in the future.

Our town is just now in a quandary. It is not known whether we have an official head or not since Mayor Gillon has moved to Kannapolis and is making that place his home and refuses to resign. It is said something will be doing in this respect at an early date, but just what the next move is to be it is impossible to predict.

Another topic of discussion among the people is the failure thus far to publish the regular report of the town's financial standing. Some folks are asking "Why the delay?"

Another item concerns our chief of police, M. A. Kimball. He has been serving in this capacity for a month or so, but it is said he has never been sworn in, etc. This is just a little side light on the side for the attention of board of aldermen.

Later, we learn that Mr. Killon expects to make his report and resign Monday.

China Grove is certainly headed to the front and she has the stuff to conquer with. Miles of cement sidewalks, electric lights, water systems being put in, new stores, new factories, a splendid new bank, modern business methods, some have even gone to advertising, and numerous other evidences of pluck, prowess and success are in sight on every hand to substantiate the belief that the old town is taking on new life and will at least walk since crawling so long, yes she will run by-and-by.

Miss Lizzie Barger of Rock Grove Church neighborhood, was in town yesterday shopping.
