Dogs have been playing havoc with the flocks of sheep in the western part of the Georgia county in which Lyerly is situated, near Menlo, for some time. J. D. Blalock, J. N. Hammett and J. W. O'Rear report that dogs got into their herds and killed about fifty sheep. This is the first time in years that dogs have made a raid on the herds of sheep.

Of seven hundred revenue licenses held in Memphis, Tenn., 575 were surrendered to County Attorney General Z. N. Estes when the "nuisance act," passed at the last session of the state legislature, became operative, ending the open saloon in Tennessee. number of the saloons, transformed into "soft drink" establishments, reopened to serve non-alcoholic and other beverages coming in the requirement of the state prohibition laws of less than two per cent. alcohol.

Developing suddenly in southwestern Georgia, a storm swept through south Georgia in a northeasterly direction. It continued its course up the Atlantic coast. The first news of the storm's approach was received by the Savanmah weather bureau in a telegram from the central bureau in Washington: "Hoist northeast storm warnings, '8 p. m., Fort Monroe to Savannah. Storm central in southwest Georgia, moving northeastward and increasing in intensity. Will give strong winds along south Atlantic coast, shifting to northwest."

One of the worst storms in Philadelphia in years raged in that city and vicinity, paralyzing wire communication to eastern points and bringing train service between that city and New York to a standstill.

A northeast storm, swerving to the northwest which first brought rain, then snow, raged over New York and vicinity, cutting the city almost completely off from telegraph and telephone communication. Reports showed its effects to be widespread. Three deaths due to the storm occurred there, two together when a roof collapsed. under the weight of wet snow, crushing a man and a boy. ## COMMITTEE HEARS ISSUES

Advocates Present Argument and Many Threats-Also Hinting That in 1917 Woman Suffrage Will Become the Paramount leave.

Washington .- All phases of the woman suffrage question were presented to the House Judiciary Committee, accompanied by cheers, jeers, hisses and applause. Deserting sentimental phases of the suffrage argument, Mrs. Crystal Eastman Benedict and Mrs. Mary Beard, New York lawyers threw dow nthe gauntlet to the Democratic party in no uncertain terms, warning the committee that the political wrath of the 4,000,000 women in suffrage states would be visited upon the of theparty, unless favorable consid-

eration were given the constitutional amendment for woman suffrage. Anti-suffragists told the committee that woman suffrage would be harmful, "not only to women but to the country." At the conclusion of the hearings, Doctor Walker, trousered and silk-hatted, presented to the committee what she called "the crowning constitutional argument" to show that women already have the right to vote under the Constitution.

In the meanwhile debate on the suffrage amendment was continuing in the Senate.

ente, Vergara, an American ranch, man, was shot to death while in the custody of Mexican federal troops, ostensibly en route from the jail at Hidalgo to federal headquarters at Piedras Negras, Mexico. Governor Colquitt telegraphed Secretary of State Bryan asking what method should be followed in an effort to apprehend those responsible for the killing of Vergara. Texans are wrought up over the murder, and much bitterness is evinced against Mexicans.

The Georgia rate cases, involving injunctions secured by the Atlantic Coast Line, the Southern railway and the Central of Georgia against freight rate reduction ordered by the Georgia railroad commission, were set by the United States court of appeals in session at New Orleans for hearing in April before court in session in Atlanta, Ga.

Governor Slaton of Georgia has appointed William Stanley West of Valdosta, one of the best known men in the state, to fill the unexpired term of the late Senator A. O. Bacon, whose death occurred in Washington February 14. Governor Slaton did not write any formal announcement. He merely walked out into the reception room, saw that the newspapers were all represented and spoke on word: "West!" In an instant the news traveled throughout the capitol and wash flashed to all parts of the city and state. Senator West was born in Marion county, Georgia.

Miss Maud McLure Kelly of Birmingham, Ala., was admitted to practice before the Supreme court on motion of Secretary of State Bryan, but to do so she had to take off her head dress. Miss Kelly was anxious to wear her academic cap and gown upon being admitted. The court marshal gently reminded her, however, that members of the bar must remove their hats in addressing the court and that the rule applied alike to men and women.

DUST BATH IS A NECESSITY All the various species of insects

> Fine Particles Close Pores of Little Insects and Suffocate Them-Any Dry Dirt is Good.

In every poultry house there should be a dust bath, where the hens may get rid of lice. Poultry lice breathe through pores in their sides, and fine dust fills these pores and suffocates the vermin. Road dust, hard coal ashes, or dry dirt of any kind, will accomplish the purpose. Wood ashes, if damp, may stain the feathers and otherwise harm the fowls.

Sometimes, if the hens are badly infested, Persian insect powder may be added to the material in the dust bath. A tight box, three feet by three feet, and one foot deep, is a good re-

ceptacle for the dust. It should be placed where the sun can shine on it, as many hours as possible; for, when scratching for their feed, they will spend a good deal of their time in The hens will not use the bath freely unless the air is warm, for they
