Well, a good many things have taken place since 53 years, and things are different now.

Proper Food for Weak Stomachs.

The proper food for one man may be all wrong for another. Every one should adopt a diet suited to his age and occupation. Those who have weak stomachs need to be especially careful and should eat slowly and masticate their food thoroughly. It is also important that they keep their bowels regular. When they become constipated or when they feel dull and stupid, after eating they should take Chamberlain's Tablets to strengthen the stomach and move the bowels. They are easy to take and pleasant in effect.

A Community Club.

The citizens of the town are urged to attend a mass meeting at the school house to-night, at about 7:30, for the purpose of considering the advisability of forming a Community Club. The objects of the club are quite commendable and, if attained in the right way ought to meet with the approbation of all good citizens. They are, the advocacy of good roads, a clean town and the community uplift, socially, morally, intellectually and otherwise.

All are invited to come out and take part in the meeting and aid by word and deed so far as each thinks best.

Clear Away the Waste.

Bowel regularity is the secret of good health. Bright eyes, clear complexions, and Dr. King's New Life Pills are a mild and gentle laxative that regulates the bowels and relieves the congested intestines by removing the accumulated wastes without griping. Take a pill before retiring and that heavy head, that dull spring fever feeling disappears. Get Dr. King's New Life Pills at your druggists, 25c.

Swallowed Live Fish With Probable Fatal Results.

This fish story, and it is a fish story unusual, is from the Boone Democrat and The Watchman gives that paper full responsibility for it.

A young fellow from Tennessee (name unknown to us) was fishing in the Watauga one day last week. Just as he landed a 4-inch fish, a passer-by suggested that he must throw it back, as it was under size. The boy's reply was 'I'll eat this fish if I have to eat it raw!' Fifty cents was offered him to swallow it alive. He accepted the coin, swallowed the wriggling trout bit a lizard in twain with which to re-bate his hook and continued to fish. Not thinking what fearful results would follow his rash act. He was soon taken violently ill, and in spite of fine medical aid he grew worse, and as a last resort his body was opened by Dr. Harlin and Perry and the fish removed but his condition was considered most critical when last heard from.

An Exciting Runaway.

Last year the Catawba river ran amuck and swept about everything before it, the river Jordan has done the same thing, but Jordan the mule, the mule that Col. Lucky Freeze operates, is entirely a different proposition, but none the less destructive when he goes on a rampage. Now there may not be anything in a name but if Lucky's mule was known as Maude most any one would know that about a half mile should intervene between a person and it to feel really safe. But when the good old Biblical name of Jordan is given a mule it might be said to be taking advantage of our peaceful citizenship. It was only the other day when Jordan took a notion to give a very realistic exhibition of his ability to create a disturbance on a public highway. Col. Lucky Freeze, owner of the beast, and James E. Correll were engaged in loading and hauling a lot of rubbish, old boxes, tin cans, etc., and merely because Mr. Correll struck the said Jordan with a box he proceeded to speed the limit with the gentlemen aboard named hollering, whoa!d—you, whoa! And do you know that mule just ran away regardless and scattered tin cans, rubbish and such like with the greatest glee ever.

Best Remedy for Whooping Cough.

'Last winter when my little boy had the whooping cough I gave him Chamberlain's Cough Remedy,' writes Mrs. J. B. Roberts, East St. Louis, Ill. It kept his cough loose and relieved him of those dreadful coughing spells. It is the only cough medicine I keep in the house because I have the most confidence in it. This remedy is also good for colds and croup.

Good Progress on St. Mark's.

The walls of St. Mark's E. L. Church are complete and the work of putting on the roof is now in progress. This new edifice is now beginning to take on the appearance it will present when complete and indicates a handsome building of which the town and especially the members of the congregation will have reason to be proud.

Mill Bridge Boy Killed by a Falling Tree.

Everett, the 14-year-old son of Mr. and Mrs. Sam A. Carrigan of near Mill Bridge, met with a serious accident Monday afternoon when a tree on his father's place fell on him, causing his death that night. The little fellow was rushed to a sanatorium, in Salisbury but his injuries were such that death followed within a few hours. His back was badly mashed and he was otherwise injured. The remains were prepared for burial here and taken to the home of his parents and the funeral took place at Thyatira Presbyterian church yesterday afternoon and the interment being in the church cemetery.

A fire had originated in a piece of woods on his father's place when he, in company with several men, were at work endeavoring to put out the fire. The boy attempted to push over a tree that had partly burned at the base and when the tree fell it caught the little fellow beneath the force of which seriously injured his back. He was extricated immediately and, seeing that he was seriously hurt, he was hurried to the sanatorium.

The affair was a most distressing one and the parents, who are among Western Rowan's best people, have the sympathy of a host of friends. The boy was well liked by all who knew him.

Road to Happiness.

Be aimable, cheerful and good natured and you are much more likely to be happy. You will find this difficult, if not impossible, however, when you are constantly troubled with constipation. Take Chamberlain's Tablets and get rid of that and it will be easy. These tablets not only move the bowels, but improve the appetite and strengthen the digestion.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. A Felonious Homicide in Salisbury.

What seems to have been a felonious homicide took place in Mowery's hall on East Fisher Street Wednesday afternoon. Here quite a number of Negroes were engaged in a dance, among them Lula Allison and Annie McCulloh, women who came here from Statesville to join in the celebration of memorial day. There does not seem to have been any row, but an old grudge existed between the women and they continued to bump against one another and finally the Allison woman, it is alleged, drew a knife and stabbed her enemy just above the left breast, cutting a large artery, from which, after being taken to the Union drug store beneath the hall, Annie Allison died in about fifteen minutes. Immediately following the stabbing the Allison woman, in company with several companions, got into an automobile and left; the car returning later empty and then left again. Up to this morning Lula has not been captured.

Wednesday night Coroner D. L. Sides summoned a jury and held an inquest at Kelsey's undertaking establishment, but nothing definite was learned, except that some one said the dead woman claimed that Sallie Eccles, a married sister of Lula's, did the stabbing, while others persisted that Lula was the guilty party. Sallie Eccles and several others were arrested and are being held for another hearing by the coroner to take place Saturday. In the mean time efforts will be made to capture the Allison woman.
