 Six papers only 1.25

Entered as second class under January 15, 1908, at the post office at China Grove, N. C., under the act of March 3, 1879.

China Grove, N. C., June 15, 1917

Money in Raising and Advertising Improved Seeds.

There has been this year a great scarcity of improved farm seeds, and this presents another opportunity for co-operative work, cooperation in breeding and advertising improved seeds. The advertising, of course, is essential to profitable sale.

Even if all the farmers in the community will not agree to grow the same variety of corn or cotton, it is always possible to get a number of leading farmers to do so. And then this group of farmers who trust one another may join together in advertising the variety that grow. Anywhere from two to ten brothers, cousins, or neighbors may do the same thing. The advertising may be done in the name of an individual or in the name of a company. There is a splendid opportunity here for building up a profitable trade in seeds, provided care is exercised in selection, shipping and advertising.—The Progressive Farmer.

Croup, Whooping-Cough Relieved.

Children's diseases demand preparedness. When the child wakes you at night, gasping and struggling for breath, how thankful you are to have Dr Bell's Pine-Tar-Honey at hand. This effective remedy loosens the mucous and permits free and natural breathing. Its soothing balsams heal the irritated membrane and arrests further inflammation. Pleasant to take. Keep Dr Bell's Pine-Tar-Honey in the house for all colds and bronchial troubles. At your druggist, 25c.

German Reserve Down to 315,000 Fighters.

With the French Armies in the field, June 6.—Germany has only 21 divisions of troops on the western front, approximately 315,000 men which she has not yet flung into the fighting line.

The 107 divisions (1,605,000 men) with which the British and French offensive have been engaged in recent weeks have losses averaging between two and three thousand per division or from 214,000 to 321,000 men.

These figures are those of French headquarters. They give not only a clear idea of the tremendous efforts which Germany is making to stop the French and British advance, but also the terrible toll which the Allies have taken in the fighting.

The French estimates are that Germany has a total of 156 divisions of all kinds of troops now on the western front. (This would be about 2,340,000 men.) Of these 156 only 128 are divisions of real fighting men, the others being auxiliary corps. One hundred and seven identified as opposed to the French and British forces at some time during the offensives.

Ever since Field Marshall von Hindenburg's visit to the Aisne and Champagne fronts early in May the Germans have given indications of no other plan of campaign than to resist and counter-attack desperately while feverishly constructing at the rear a successive series of retreat lines similar to the boasted "Hindenburg line."

Whooping Cough.

In this disease it is important that the cough be kept loose and expectoration easy, which can be done by giving Chamberlain's Cough Remedy. Mrs. P. H. Martin, Peru, Ind., writes, "My two daughters had the whooping cough. I gave them Chamberlain's Cough Remedy and it worked like a charm."

Prepare now to Produce Pork Cheaply.

This year's hog crop is not large, hence every pig should be saved if possible. Cholera, the great scourge of the hog industry, should not be allowed to destroy the hog crop of 1917, for we have a means of protecting it through the use of the anti-cholera serum. Every herd where cholera breaks out and every herd within a mile of every case of cholera should be treated. Every other effort should also be made to keep cholera out of our herds.

Another important duty of the hog owner is to grow this summer all the feeds necessary to fatten the hogs this fall. These feeds should be largely catch crops such as peanuts velvet beans soy beans and cowpeas harvested by the hogs. Enough of these can be grown in the corn fields to fatten every hog in the South without lessening the yields of corn. Other such foods and feed supplies should also be grown after the small crops of oats and wheat are harvested. This should be done for two reasons: First, they are the best and cheapest feeds for hogs, and second, their growth will save thousands of bushels of corn and release it for much needed human food.—The Progressive Farmer.

Food Value of Soybeans and Soybean Products.

Soybeans as an article of diet, is becoming more valuable year by year the world over. Mr. C. B. Williams of the Division of Agronomy states that he has recently found that products of the beans are an important article of French Indo-Chinese and the Colonies, in Cochinchina, China and Japan. The beans contain from seventeen to twentyone per cent of oil or fat and thirtysix to forty per cent of protein. Ordinary field peas contain about 17-10 per cent fat and twenty five to twenty six per cent protein, while lima beans contain one half per cent fat and about eighteen per cent protein and four to five per cent of fat. In order to appreciate the value of soy bean meal and flour potentially as a food product, a comparison with wheat might be made. Wheat flour contains about eleven per cent protein and about one per cent of fat. The nutritive value of soybean flour has led to its being used to some considerable extent in the military rations of the French Army.

Cholera Morbus.

This is a very painful and dangerous disease. In almost every neighborhood some one has died from it before medicine could be obtained or a physician summoned. The right way is to have a bottle of Chamberlain's Colic Diarrhoea Remedy in the house so as to be prepared for it. Mrs. Charles Eneyart, Huntington, Ind., writes: "During the summer of 1911 two of my children were taken sick with cholera morbus. I used Chamberlain's Colic and Diarrhoea Remedy and it gave them immediate relief."

IRON GIVES YOU THAT GRAND OLD HAPPY FEELING.

Be Sure You Take Right Kind of Iron—Acid Iron Mineral. Nature's Remedy The Best.

Don't Take Alcohol It Injures Kidneys.

"I climb into my clothes these mornings with a hearty appetite speeding me to the breakfast table. Your little old nerves, all smoothed out by Acid Iron Mineral, seem to shout their happiness at the return of the old vitality and reserve energy. It is common sense too, when you recall the solid, substantial meals eaten a few years ago and compare them day after day with what we now eat it is no wonder a fellow begins to get pale around the gills, and sort of loses interest in things.

"A cold drink of 'coke' or dope will now and then put you back for an hour or so, but to take good old medical iron in big quantities gives you the 'stay-there' feeling. In Acid Iron Mineral, you get the most iron per dollar. In fact a dollar bottle lasts from two to ten times as long as other and weaker, iron remedies which often as not contain alcohol which everyone knows has only a temporary effect and always a dangerous reaction when taken in excessive quantities.

GIVE YOUR BLOOD A REAL CLEANING.

Start taking a teaspoonful of Acid Mineral (natural iron) after each meal for a week or ten days. Get out in the air and draw in a few great big mouthfuls of ozone, set the alarm for early and see how sound the sleep gets, and how refreshed and full of vim you feel on getting up. Everybody needs iron. Here it is. Non-alcoholic, non-injurious, helpful and beneficial to blood, kidneys, stomach and bladder, it is death to germs, uric acid, and other blood poisons. Begin by phoning or calling at the nearest druggist this very day. A large bottle of Acid Iron Mineral will be sent anywhere prepaid upon receipt of one dollar. Ferrodine Chemical Corp. Roanoke, Va.

Chas L. Murphy, son of Mrs. John A. Murphy of Salisbury, has passed an examination before the State board of examiners and was given a license to practice pharmacy. Mr. Murphy stood well in his class and won the Beard prize. Mr. Murphy has accepted a position with the North Wilkesboro Drug Co.

The National Council of the Junior Order United American Mechanics will meet in Asheville next Tuesday. C. B. Webb of Winston Council, Salisbury, is National Councilor.

The registration list from Rowan has been completed and contain 3503 names, three lists of which, alphabetically arranged, were made, one to be posted in the clerk's office, 1 to be put on file in the clerk's office of Rowan County and one for use by the press. The Record recognizes the justice to these young men in publishing this list, but regret that its space will not permit it to do so. Being on file in the Clerk's office however will guarantee to future generations their identity.

List Your Poll and Property for Taxation.

All poll's and property must be listed for taxation during the month of May, 1917.

Any person, firm or corporation not listing within the prescribed time will be subject to the fines and penalties provided by law.

By order Board of Commissioners.
 E. B. NEAVE,
 County Auditor.

Doughton Wants Appraisers Sent.

Washington, D. C., June 13.—The farm loan bureau told Representative Doughton today that it would send appraisers into his district as soon as possible to pass upon requests for loans under the rural credits law. Mr. Doughton told members of the board that many of his people are waiting to take advantage of this government opportunity. Special attention was directed by him to Iredell county where people have made preliminary plans. The delay it was explained has been caused largely by the war.

"A lot of people are expecting to get money under this act in my section," Mr. Doughton said. "Many applications have already been made."

There is no religion in self-denial, but it comes a close second.

Ride an unbridled horse rather than be led by an unruly tongue.

There is more education in example than all the theories of the world.

A man's religion is what he learns at his mother's knee.

Our ideals of life represent our own true inner selves.

Life is a dream in this world that is continued in the next.

Truth today is the same old truth of yesterday, only older.

The true shield in life's battles is to be armed with the Right.

Senator Overman Visits War Department in Interest of North Carolina.

Washington D. C., June 13.—Senator Overman on a visit to the war department to day in regard to the establishment of cantonments and national guard sites in North Carolina, ascertained that three cantonments will be established in General Wood's division and there will be nine national guard camps established in the eastern states. The senator hopes that either one of the cantonments or one of the national guard camps will be established in North Carolina. Each of these camps will have about 20,000 men.

The only difference between the cantonments and national guard camps is that frame buildings will be erected for the cantonments and canvas tents will be erected for the national guard camps. "There is practically no difference so far as the benefits flowing there from to the states and community in which they are established and are concerned."

A lengthy tongue is the root of all evil.

COMING TO SALISBURY ASSOCIATED SPECIALISTS

Will be at Empire Hotel for One Day Only, Wednesday, June 27, 1917, From 9 A. M., to 4 P. M.

Offer Their Services Free of Charge.

The Associated Doctors, Offices and Laboratories, Philadelphia, Pa., licensed by the State of North Carolina, are experts in the treatment of diseases of blood, liver, lungs, stomach, intestines, skin, nerves, heart, spleen, kidney, or bladder, bed-wetting, rheumatism, sciatica, tapeworm, leg ulcers, appendicitis, gall stones, goitre, etc., without operation, and they offer their services free to sufferers on their first visit.

THE SOUTHERN RAILWAY COMPANY

An Ambition and a Record

THE needs of the South are identical with the needs of the Southern Railway; the growth and success of one means the upbuilding of the other.

The Southern Railway asks no favors—no special privileges not accorded to others.

The ambition of the Southern Railway Company is to see that unity of interest that is born of co-operation between the public and the railroads; to see perfected that fair and frank policy in the management of railroads which invites the confidence of governmental agencies; to realize that liberality of treatment which will enable it to obtain the additional capital needed for the acquisition of better and enlarged facilities incident to the demand for increased and better service; and, finally—

To take its place in the body politic of the South alongside of other great industries, with no more, but with equal liberties, equal rights and equal opportunities.

"The Southern Serves the South."

Southern Railway System
