Sour Stomach.

This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or a food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat and none at all for supper, you will more than likely avoid sour stomach without taking any medicine whatever. When you have sour stomach take one of Chamberlain's Tablets to aid digestion.

On June 16th by actual count the following vehicles passed a long north main Street here. 86 cars went north from twelve to seven o'clock and 90 went south, 12 bicycles, seven motorcycles, 13 buggies and one horse-back rider. This indicates that travel is considerable on this road and probably will be much greater when the road between here and Salisbury is completed.

Cholera Morbus.

This is a very painful and dangerous disease. In almost every neighborhood some one has died from it before medicine could be obtained or a physician summoned. The right way is to have a bottle of Chamberlain's Colic Diarrhoea Remedy in the house so as to be prepared for it. Mrs Charles Eneyart, Huntington, Ind., writes: "During the summer of 1911 two of my children were taken sick with cholera morbus. I used Chamberlain's Colic and Diarrhoea Remedy and it gave them immediate relief."

Strike Rather Than Work With a Negro.

Schenectady, New York, June 18.—Two thousand machinists at the plant of the General Electric Company struck to-day as a protest against the employment of a negro. Last week Robert Dixon a negro student at the Union College was given vacation work in the machine shops. The machinists took the position that this was an initial step toward placing negro labor in the shops but this was denied by the company officials. On Saturday the machinists notified the management that unless Dixon was dismissed they would strike to-day. The company refused to comply with the demand, and the workers left the benches this forenoon.

Lady Hails a Wheelbarrow.

Now Venus it is up to you to sit up and take notice. Yesterday Mrs. A L Klutz, who lives near here was in town and had a new wheelbarrow which she had made. It was after the customary pattern of home made barrows, the usual size, neat and strong, having been made from seasoned oak lumber. It was mortised and nailed together. The wheel and brass were of iron, the braces were made by a blacksmith. These are few women who can, or ever attempt to handle tools. Some can mash a finger in an attempt to drive a nail and others can saw a plank within an inch or so of a given line, but to make a real serviceable wheelbarrow, closely fitted joints and really substantial is truly something out of the usual. If women generally could make such a wheelbarrow as Mrs Klutz produced we would become a suffragette at once. Why not make such an exhibition of ability a test for granting the franchise?

Britain's Answer to Russia.

Following the example of the United States Great Britain has replied to the Russian government's demand for a statement of war aims. The reply concerns in Russia's purpose not to dominate other peoples or take from them their national patrimony or forcibly occupy foreign territory. The defiance of countries, the enforcement of respect for international agreements and the "liberating of populations oppressed by alien tyranny" is adhered to in the note. The note says Great Britain joins with Russia in acceptance and approval of the principles laid down by President Wilson in his historic message to Congress.

The Chinese Trouble.

The presidential mandate dissolving the Chinese Parliament has been signed by Ciang Chao Chung, as acting premier, he having accepted the post which Dr. Wu Ting Fang, former ambassador to the United States, resigned. It is believed that the dissolution of Parliament will bring about civil war, as the leaders in the southern provinces have telegraphed to President Li Yuan Hung that they no longer recognize his authority, despite the fact that the president has issued a long mandate attempting to justify his action in issuing the dissolution decree.

Negro Shot to Death at Concord.

Concord, June 15.—As a result of a shooting affair about 11:30 o'clock last night in the negro section of this city, Will Connor is dead, and the police are searching for Baxter Parks, who is suspected of having committed the deed. Both are negroes.

There were no eye-witnesses of the tragedy, so far as can be learned, and it is not definitely known that Parks is guilty. It is known, however, that the two men called on the same woman last night and that Parks left before Connor did. Parks cannot be found by officers this morning.
