under my personal guarantee that it will clean your sluggish liver better than nasty calomel; it won't make you sick and you can eat anything you want without being salivated. Your druggist guarantees that each spoonful will start your liver, clean your bowels and straighten you up by morning or you can have your money back. Children gladly take Dodson's Liver Tone because it is pleasant tasting and doesn't gripe or cramp or make them sick.

I am selling millions of bottles of Dodson's Liver Tone to people who have found that this pleasant, vegetable, liver medicine takes the place of dangerous calomel. Buy one bottle on my sound, reliable guarantee. Ask your druggist or storekeeper about me. Adv.

Women Drive War Automobiles.

Between 150 and 200 women soon will be driving military motor cars behind the French front.

Women have tried since the beginning of the war to enlist in the automobile service. The Club Feminin Automobile was the center of this group, and it had secured the signatures of several hundred of the thousand women in Paris who hold licenses to drive motor cars. The passive resistance of the different war bureaus held them back until now.

The women are obliged to enlist for three months and to agree to submit scrupulously to military rules and discipline. They will in the beginning replace motor ambulance drivers in the foreign sanitary sections who are transferred to other services. Later on they may replace men in other automobile sections.

For Unruly Window Shades.

When a roller window shade refuses suddenly to remain unrolled at a certain point, a handy kink is to insert a small wooden wedge, such as a match or toothpick, between the unrolled curtain and the roller. This is only an emergency device, and may injure the fabric if repeated often at the same point.

Tennille, Ga.—"I want to tell you how much I have been benefited by Lydia E. Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait awhile. Our druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. On Writing Letters.

"I was told by Capt. Harry Light the other day," writes a Canadian major, "that there is a new style in trench letters. The censor's duties have been reduced by many per cent. The soldier now has the sense of the situation engraved in his thinking. He sees through the need of keeping quiet even on matters that call for some criticism. There is more humor and matter-of-factness about his letters. One of my men who can't write very well, was telling me the other day that one letter a week is all that he can summon up his courage to write, and he gave this as a reason: 'The people at home don't, can't understand life here. We have got to go through it. Why tease them with anxieties—they have enough to put up with in pacifists and political grumblers.' And I think he is right. Don't you?"
