Sour Stomach.

Eat slowly, masticate your food thoroughly abstain from meat for a few days and in most cases the sour stomach will disappear. If it does not, take one of Chamberlain's Tablets immediately after supper. Red meats are most likely to cause sour stomach and you may find it best to cut them out.

Federal Court Busy with Liquor Cases.

The term of the Federal court transferred from Statesville got down to work last Wednesday and disposed of a number of cases, mostly for illicit distilling. Judge Boyd who is presiding is very considerate in his sentences and give the violators a square deal every time. Some who were given jail sentences were allowed time to return home and gather their crops and prepare for their absence, while others, who could not pay their fines in full were permitted to make partial payments. There was one case from Caldwell county where a young man was charged with violating the draft act. He was probably under age and his case was docketed and he was dismissed. Bob Freeze of this county, charged with distilling, was fined \$100 and one month in jail.

The court closed Friday and the Salisbury term which was to be held this week was cancelled.

Practical Courses in Agriculture For Farmers.

Dean C B Williams says that active arrangements are being made to put in final shape the short courses in agriculture for farmers that are to start on October 30 at the State College, Raleigh, and continue for sixteen weeks. These courses have been especially designed to give those who come to the College for this short practical instruction, information along different lines of farming practiced in the State that may be put into use on the home farm by those who come. The early farming in North Carolina under pioneer conditions of society was a comparatively simple operation, but in this day and time as farming has become more complex and commercial enterprise and when crops are raised on a large scale for competition in world markets the well informed and alert farmer, other things being equal, is the one who is going to make the most out of his farming operations. The courses, as arranged will no doubt greatly aid those taking them to become more modern and business like in their farming operations than they could otherwise possibly have been.

Gov. Whitman Pays Striking Tribute to President Wilson.

New York, Oct. 14.—Governor hitman, Republican, paid a striking tribute to President Wilson in a patriotic address to the congregation of St Paul's Methodist Episcopal Church. "As we contemplate the solitary figure who is ruling over the destinies of our hundred million people," the governor said, "and consider the tremendous task he has before him, we are no longer democrats, or republicans, or progressives, but Americans all." "A certain persons termed 'apathy' in the attitude of the American people toward the war, he asserted, in reality was 'our national poise.'" "Today the United States leads the whole world in mustering materials and in the sweep of the human mind," he added. "The European nations had the false impression that America is the land of the dollar and thought the Yankees wouldn't fight. All history gives the lie to these slanders. Our dollars have carried food to the hungry, help to the wounded, and health to the sick. Peace is our devotion, but not our obsession."

The next War. (?)

Pro. Paul Eltzbacher writing in the German Newspaper, Das Grossere Deutschland, September 1st 1917.

"Our General Staff and our other authorities, in preparing for the Next War, will see to it that from the outset we are supplied as well as possible with food and raw materials. Our Admiralty Staff will provide us with the submarines with which, in future, we shall be able to conduct the war against the civil population of that State which, for the last three years, has cut off food from our women and children, and thereby paved the way for the new international law, which hence forward will serve as a sure foundation for submarine trade war."

Winand Engel writing in the same newspaper:

"A peace which is concluded before one of the two opponents, England or Germany, is clearly and completely defeated is a sham peace, which, after a few years, must cause the war to revive with redoubled violence."

"German policy also is forced to obtain for itself by all conceivable means domination over the world sea. I deliberately use the expression 'domination over the world sea' and not the expression 'freedom of the seas' which is so common today. The latter expression is either dishonest or stupid. The sea is free for us only if we dominate it."

Men and women of the nation, shall there be another great war? then lead your money to your Government.

To put down a whole people run mad under criminal rulers in whose very blood runs the lust for war and who have fattened and grown powerful as a result of previous wars. The time has come to conquer or submit.

"Everything I ate disagreed with me and I was in such a terrible condition I couldn't walk more than a few steps half the time. My digestion troubled me for seven years and I had tried several doctors but they only gave me temporary relief," declared W. T. Hambrey, who one day reading the papers of his home town about Acid Iron Mineral and since then has sung its praises to the sky.

"I saw Acid Iron Mineral advertised in the papers and after using two large bottles I began to improve and went back to work. I can eat and digest anything now and I recommend it because I know it cured me and I consider it one of the best medicines I ever saw and shall ever have it about the house. It is absolutely great for the troubles I had," continued Mr Hambrey, who like thousands of others at last abandoned weaker and less economical prepared remedies and started taking natural medicinal iron just as it comes from the wonderful deposit controlled by the Ferrodine Chemical Corp., who with up-to-date methods, filter, concentrate, test and bottle this natural remedy, which is cheaper, stronger and goes from two to six times farther.

Ask for a bottle of Acid Iron Mineral (natural medicinal iron, concentrated) at your druggists. Put a teaspoonful into a glass of drinking water after meals and note what a delightful, unusual tonic and invigorator this natural iron is, just as it comes from Mother Nature.

It doesn't hurt the teeth or stomach helps digestion and having no laxative effect does not derange the bowels or liver. Everybody knows, all doctors know what iron will do for weak, impoverished blood and how nicely it drives uric acid and rheumatics from the system.

Uncle Jimmie Bostian Has Trouble With a Possum.

The other day uncle Jimmie Bostian thought he had killed a possum but soon found different. He took a nice fat one to the yard for slaughter, put its head under a stick and gave it a yank, thinking he had broken its neck, and threw it aside while he whetted a knife and his appetite. After the knife was well sharpened he returned to finish the work of preparation for the pot, but lo, the possum was absent, gone, departed. Your Uncle then became a trifle vexed, not so much because the opossum had played an old time trick on him, but because he had "got" his mouth for "possum" and there was no "possum." Though diligent search was made and his cherished dream was about to take its flight he finally discovered Billy under a shock of corn. Then the gloom was dispelled and a happy rainbow smile lit up his countenance. Billy was slaughtered your Uncle Jimmie ate opossum and has lived ever after with much contentment.
