His Royal Highness the Nawab of Rampur, India, recently paid an English army surgeon £50,000 for a three-months occasional attendance in an ordinary attack of rheumatism. A Russian physician charged a wealthy noble of Odesa \$5,000 for opening an abscess of the hip, the time occupied being about ten minutes. And better still, while on the same visit, he took a chance shot at another patient in the shape of a similarly simple operation, for which he received, nearly \$1,500 more, certainly enough extra to pay the fee of the railway porter on his homeward journey.
