

SUBLINE CHECK.

For the sublimest exhibitions of genuine cheek, commend us to The Geo. P. Rowell Advertising Co. of New York. Recently they sent out to various newspapers in North Carolina a proposition to insert the four inch advertisement of Duke's Cigarettes. They offered THE TIMES \$10 gross (equal to \$7.50 net) for this advertisement, and we suppose some advertiser received an offer of even a less sum than that. Strange to say, we see that some newspapers have accepted it at this ridiculously low figure. When newspapers place some estimate on their space themselves, then, and not until then, will the advertising agents and others offer them a price that is equal to its value.

However, the above is a princely offer compared to one we received from this same firm last October. In this they offered us \$12 gross, or \$9 net, for an eight inch advertisement for one year. We replied stating that we would insert the advertisement for just three times the amount offered us, and to this letter we have never received any reply.

This is the same firm that publishes a newspaper directory, for which it solicits advertisements at the rate of \$150 a page from the same newspapers to which it makes the above insulting propositions.

The South Carolina Legislators in the lower house have demonstrated to the country that they are a set of demagogues and weaklings. Listening to a foolish clamor from the ignorant, the prejudiced and the vicious, they have passed a bill which makes a wholesale cut in the pay of all officers in the State from Governor down. The Governor's salary, which heretofore has been \$3,500, is reduced to \$2,200. The salary of the Chief Justice of the Superior Court is cut down just half—from \$4,000 to \$2,000. There is only one redeeming thing about the bill they passed—they reduced their own pay from \$5 to \$3 per day. Even that is more than they are worth; it is evident.

The protecting wing of the Civil Service Commission will hereafter cover the storekeepers, gaugers and clerks in the internal revenue service. The extension of the rules goes into immediate effect. The new extension will embrace 518 storekeepers, 578 gaugers, 1,190 storekeeper-gaugers and 185 clerks in the offices of the collectors, making 2,471 in all. Deputy Collectors, of whom there are 993, are not included in this order, nor are the deputies which will be appointed to assist in the collection of the income tax. Of the latter, there are expected to be 150 for field work and fifty-three for service in the offices of Collectors.

The Washington correspondent of the Baltimore Sun comments at length upon the probable nominees of the Democratic and Republican parties in 1896. These speculations are quite interesting, but they are nevertheless premature. The Sun man thinks Tom Reed will be the Republican candidate, and that the Democrats will certainly go West for their candidate and take Secretary Carlisle or Vice-President Stevenson.

The new cure for diphtheria, anti-toxine, is creating great interest all over the country. In St. Louis last Tuesday it was tried on a child which had been given up to die by the physicians. Within twelve hours all symptoms of diphtheria had disappeared altogether.

Senator-elect Tillman declares he is a "Democrat," if he knows the meaning of the word. That is what is the matter. He doesn't know what the word Democrat means.

The Odell-Durham Wedding. It will be a merry party that will leave here on the night of the 20th for Concord to attend the Odell-Durham wedding. There will be Miss Mary Hartly, Laura Watersworth, Adelle Warkowsky, Addie Williams, Mr. and Mrs. John Leslie, Mr. and Mrs. D. P. Hutchinson, Miss Annie Parks and Mrs. C. C. Cannon and Messrs. J. D. Sene and W. J. Hartly. Miss Adelle Hutchinson will go over Christmas night. Dr. and Mrs. Register, who are also among those invited, will be the advance guard, leaving Monday night in order to spend Christmas day in Concord.

The Chicago Ideal. There are thirty-one points necessary to a beautiful woman. Three things white—the teeth, the skin and the hands. Three black—eyes, the eyebrows and the eyelashes. Three red—the lips, the cheeks and the nails. Three short—the body, the hands, Three long—the teeth the ears and the feet. Three broad—the chest, the bow and the space between the eyebrows. Three narrow—the mouth, the waist and the instep. Three large—the arms, the hips and legs. Three fine—the fingers, the hair and the lips. Three small—the bust, the nose and the head.

His Departure Would be a Loss to Us. Charlotte Observer. There is a rumor afloat that, after the expiration of his present term in Congress, Hon John S. Henderson, of the seventh district, will locate in Washington for the practice of law. His departure from the State would be a great loss to it, as his defeat for re-election last month was something of the nature of a calamity; but Mr. Henderson would doubtless do well in Washington if he should make it his home.

A pert young fellow passed through Raleigh Tuesday on a bicycle. He had with him a folding cot, a pillow, cooking utensils and other paraphernalia, all of which he carried with him on his bicycle with perfect convenience and ease.

MR. EWART'S SCHEME.

Will North Carolina Have Two Republican Senators?—Congress at Work in Earnest.—North Carolina Personal.—No Closure.—No Tariff Legislation.—State Boards of Health.—Civil Service Extension.

WASHINGTON, Dec. 15, '94.

The close of the second week in Congress shows a good record, particularly for the House of Representatives. The House has passed three appropriation bills. Hon. John S. Henderson, chairman of the Post Office Committee has drafted the Post Office Appropriation Bill and it has ready for his committee.

Hon. Sidney Alexander has secured a favorable report on the Charlotte Mint Park Bill. The Railroad Pooling Bill, a measure which was carefully watched by Messrs. Andrews, Galloway, Wilson and other prominent North Carolina railroad men, passed the House by a majority of 175. Every member of our delegation voting for it except Hon. W. T. Crawford.

All the members of our delegation are here now, Messrs. Bunn and Branch having arrived Monday. Mr. Woodard has the largest majority of our delegation. What is better, he richly deserves the compliment paid him. His plurality at the recent election was about 5,300 or something like 3,300 greater than two years ago. It has been generally supposed that the second North Carolina district had a majority of negro voters. That is incorrect. According to the census returns there are fully 1,200 more white voters in the district than colored. It would be "black district," but the confines were changed four years ago. Ex-Congressman Cheatham, who exercised Mr. Woodard's seat, is said to be banking on proving that there are more negroes than whites in the district, and, therefore, he ought to have been elected.

Senator Ransom spent several days at his home recovering from his wounds. Wednesday, Senator Jarvis voted to take up the sugar bill. He wants to strike out the differential. This bill which is the most widely discussed of the "pop-gun" bills was promptly killed. Another effort was made to adopt a protective tariff on sugar. It is impossible. The government cannot afford to reduce revenues unless expenses are cut down in the United States Capitol. This is the proper starting point for economists, but as the alleged "economists" will be the ones who suffer, the Senators and members will continue to squander money on themselves. Failing to get legis mileage money, some of them are now pocketing their stationery allowance.

Expenditures of the Treasury Department for this month exceed the receipts by \$1,000,000 and this difference will also be wiped out by the end of the month. Nearly \$7,000,000 of the \$10,000,000 reserved have been paid for pensions.

Thirty officers of the State boards of health have been in session at the Elberton this week. The North Carolina board is represented by President George Gillet Thomas, of Wilmington, and Secretary R. H. Lewis, of Raleigh. Dr. Thomas says the body is apparently a good working one. Its purpose is to consult together, compare systems and suggest matters having reference to the health of the State. The board meets annually in this city. Dr. Thomas went to Baltimore Friday. The discussion of the first afternoon session was opened by a paper by Dr. Richard H. Lewis of Raleigh.

The President has issued an order putting storekeepers, gaugers and clerks in offices of collectors of internal revenue in the classified civil service. This increases the list of persons who are thus protected by the civil service by about 2,500.

I wish to heartily commend to my people the following wise advice from Chas. A. Dana of the New York Sun. He says: "The best policy for the South is to build large cities, establish and extend the manufacturing industries, give for the enlargement of their trade and commerce, make and use the most improved machinery, develop their mineral resources and diversify their crops. There is no probability that cotton will ever rise to its old price, and there is more than a probability that it will fall below 5 cents a pound. South is full of men of enterprise who are less enterprising than they might be."

Suppose our "Mary Ann" fails to be Senator Butler after all. That sly and able son of the Mountains, Hon. Hamilton Ewart has been here and convinced the National Republican leaders that the Waterloo in North Carolina was a Republican not a Populist victory, that North Carolina wants two straight out Republican Senators, and that Republicans intend to reap all the spoils of the recent election. Ewart left here Saturday for Raleigh where he has opened his campaign on this basis. Bob Douglas, H. C. Cowles, Tom Reed, John Sherman and others agree with Ewart. This state of things means a lively fight in Raleigh when the Legislature meets.

Other Washington Notes.

WASHINGTON, Dec. 17. Once more the Democrats of the House are giving the Democratic Senators a lesson how to legislate. While the majority in the Senate has allowed itself to be practically tied up by the minority, the majority in the House have been doing what they were sent to Washington to do—attending to business. Having heard about everything that could be said for and against the plan of currency reform submitted by Secretary Carlisle, the House committee on Banking and Currency decided that while the plan was not entirely satisfactory to financial extremists, either gold or silver men, it was better as a whole than any other plan yet brought forward, and more likely to be supported by conservative men as a sort of compromise. Having arrived at that conclusion, the committee determined to report the bill prepared by Secretary Carlisle without recommendation, leaving the House free to amend the bill if it sees fit.

The committee on Rules has mapped out a plan for the consideration of the bill, which will be taken up at once and pushed to a vote. It is already announced that the Republicans will offer a bill for the purpose of trying to defeat the bill. The first will be to strike out the State bank feature, which is the feature that is most liked by Southern Democrats. The next amendment offered will be one providing for an immediate issue of bonds large enough to redeem all the greenbacks and treasury notes of 1890, which may now be used to take gold from the treasury. Present indications are, however, that the Democrats will vote together to defeat any and all amendments, and that the bill will pass the

HOUSE AS REPORTED FROM THE COMMITTEE.

Immediately after the late elections a correspondent, more as a joke than for any other reason, sent a story out of Washington to the effect that the negroes intended to demand that one of their preachers be elected Chaplain of the next House. The story was widely quoted in a negro constituency, and it is no reason to suppose that such a thing had ever been thought of before that little story was written. There are numerous reasons why the republicans in the next House may hesitate about trying that negro candidate down.

The Monroe Journal learns that certain Populist newspaper measures by the National Farmers' Alliance will meet in Raleigh in February. The cornerstone of the Polk monument will be laid.

State Treasurer-elect W. H. Worth has resigned as State business agent of the Farmer's Alliance. The Hon. Ivey has been elected to fill the vacancy.

The Democratic Senator and Representative-elect from Halifax county have been served with notice of contest by their late Republican opponents.

The fusion Legislature proposes to gerrymander the cities of North Carolina so as to make Democratic victory in them impossible in the future.

H. G. Ewart last week completed a list of Legislators-elect, which shows that there are from three to five more Republicans than Populists in that body.

Mr. D. A. Tompkins, of Charlotte, surveys the South. He concludes that the South must make up its mind to grow 5 cent cotton hereafter.

Solicitor John E. Woodard, of the third district, who was given the certificate of election by the State canvassers, has written a manly letter to Governor Carr declining to accept it.

Senator Ransom sent the Marion suffrage personal check last Friday for \$50. This is pure charity, and there is no chance of its being returned without reward or hope of reward.

It is probable that Salisbury will soon have a weekly newspaper. He measures by their success in the election last month the Republicans are wanting more papers to represent them and the new journal will be of that political faith.

Kope Elias says that west of the mountains Fritchard and Ewart divide the fusion vote for Senator; east of the ridge Mott is very strong. He thinks the man chosen will come from the east side. In his section there is really not much interest in the matter.

A Mr. Benjamin F. Hunter, of Washington, D. C., has very kindly sent Governor Carr a letter of warning in which he says that every house in Raleigh will be made level with the ground, and no two citizens can be found within less than two years.

The Stanley News says that on Wednesday, the 5th inst., Mr. Lum Hall was standing on the door-step leading his gun when the gun slipped and the hammer struck against the trigger. The entire load was discharged in Mr. Hall's body, inflicting a wound from which he died on Sunday.

The Democrats cast 9,295 votes over the vote of 1893, and the Fusionists cast 4,733 over the combined Republican and Populist vote of 1892. We state this in answer to an inquiry. Incidentally we remark that there is nothing in this to discourage the Democrats for 1896.

Mr. J. C. Keziah, who lives about four miles north of Newbern, planted three ordinary ears of corn on a certain piece of land last spring and a few days ago gathered and carefully measured the corn to see what the yield was. To his astonishment Mr. Keziah found that the yield was nearly seven thousand bushels. The three ears were twenty and three-seventh bushels, says the Journal.

The Manufacturer's Record says that it is authorized by Mr. R. C. Hoffman, president of the Seaboard Air Line, to positively state that there is no truth whatever in the reports that have been circulated to the effect that the Southern Railway Company had or would have been near a receivership. Mr. Hoffman says that such a proposition has not even been broached to his company and that the only recent conference he has had with the Southern officials was about cotton rates when President Spencer, of the Southern, was in Baltimore a few weeks ago.

Some months ago Greenboro aldermen passed an ordinance, levying a tax of \$2 on the retail dealers in cigars. Merchants already pay a general tax, which covers, as they allege, all such things, and a test case was made. It was heard Tuesday by Judge Hoke, R. B. King appearing for the defence, and L. M. Scott for the city. Just before the hearing by Judge Hoke, the aldermen decided to rescind their ordinance, stating that they found no authority in the charter to levy a special tax of \$2 on cigars. The Record understands that Judge Hoke's decision ends the matter and no appeal will be taken.

The Charleston News and Courier quotes as follows from the Augusta Chronicle: "Sixty families of Hollanders, who have been in Michigan for a number of years, are said to be en route from Kalamazoo to Raleigh, N. C. They will settle near Raleigh and engage in the raising of celery. They say that in North Carolina they will be able to raise celery the year round. Three hundred acres will be planted in celery at once, and the acreage will be gradually increased. Another party of 100 immigrants, from Pennsylvania, will shortly colonize a tract of 30,000 in western North Carolina. They will devote themselves to truck farming."

Loula Paris, a girl eighteen years of age, who was sentenced in March last to fifteen years in the State penitentiary for manslaughter, was pardoned by Governor Elias Carr. Miss Paris killed a young man in her native county, Henderson, about twelve months ago, because he circulated reports reflecting upon her character. Her mother heard the reports and sent for the young man. He came and made statements to the mother greatly reflecting upon the character of the girl. The girl received the remarks, and, in a moment of frenzy, rushed upon her accuser and stabbed him to the heart, and he died in a few moments.

The ex-Republican State Chairman, J. J. Mott, who is a prominent candidate for the United States Senate, says that unquestionably Marion Butler will be elected senator for the long term and that there will be no break by Republicans in the Legislature to interfere with this arrangement. There is great division as to who will be the Republican Senator, but he will come from what is known as the western division of the State. Butler is from the east and is naturally the successor to Ransom. Friends of Marion Butler deny positively that he has told any one he would vote with the Republicans in organizing the Senate.

GENERAL NEWS.

The New York Herald states that the syndicate which took the \$5,000,000 loan, will clear thereon a round million dollars.

The Daily Tribune, Kolb's official organ, published in Birmingham, after printing for sixty-six days, went to the wall last week.

The South Carolina House of Representatives passed a bill prohibiting the four-fifths loss clause in fire insurance policies.

Recent Turkish atrocities in Armenia if they do not stop, the Bulgarian massacre of 1877. Thousands of Christians have been ruthlessly slaughtered by the soldiers of the Sultan.

President Eugene V. Debs, of the American Railway Union, leader in the great strike at Chicago last summer, was last week sentenced to six months imprisonment in the county jail. The other strike leaders get a sentence of three months.

There is a terrible state of affairs in the Indian Territory. A gang of murderers and robbers, under the lead of the Cooks, is robbing banks, holding up railroad trains, and terrorizing the whole country. The tribal governments seem quite unable to deal with the situation.

The low price of cotton is the cause of serious alarm to the Egyptian growers. They are unable to pay their taxes, and the price of land in the delta has fallen off considerably. American planters have but to grow corn as well as cotton and they will command the situation.

There is no prospect of any legislation by Congress during the present short session upon the currency or tariff questions. Any measure that the House might pass would almost certainly be hung up in the Senate. Little will be done beyond the passage of the appropriation bills.

The Dwight Manufacturing Company, of Massachusetts, has selected Alabama City, four miles from Gadsden, Ala., as the site for its \$500,000 cotton factory, and the Alabama people want the other Massachusetts company which is looking for a location for its \$600,000 factory to locate there or thereabouts.

At 4 o'clock Friday afternoon all the drivers and conductors of the Metropolitan Street Car Company, of Washington City, went on a strike. Efforts were made to run some of the cars, but they were taken back to the stables and at night a conference between officers and employees—a compromise of \$1.75 for twelve hours' work was made.

The Southern Railway men went on all the lines comprising the Southern Railway the same schedule of pay as was in use on the old Richmond & Danville. The officials, however, agree merely to establish a uniform schedule throughout when they are able to, without fixing any time for doing so. Third Vice President Baldwin says he does not fear a strike.

Internal Revenue Collector Ben Johnson, anticipating the action of the President placing gaugers, storekeepers, etc., under civil service rules, had all the men under him in the Fifth district sign resignations, to take effect when called for. This slick scheme to get around the rules will not work, and there is a chance that Mr. Johnson may lose his job by working it.

The mysterious disappearance of ex-Congressman Butler, of Iowa, has been accounted for. He was in fond of "krazy," got so heavily in debt that he had mortgaged everything he owned, even to the furniture in his house, and rather than face his creditors, skipped, leaving his wife and family in poverty. In the meantime picking up all the loose change he could before lighting out.

Edward Dudley Duncan, representative-elect from Washington county, Tenn., left Johnson City last week to tramp the whole way to Nashville, a distance of 350 miles. He expects to arrive there in time for the first roll call of the new legislature, January 7th. He received a railroad pass, but declares he will not use it, and that he has no intention of any corporation. Mr. Duncan is a Republican, twenty-eight years of age and came from Boston to Tennessee five years ago.

Henry Zink, sentenced to the Jeffersonville, Ind., penitentiary from Louisville last February for sending obscene pictures through the mails, was pardoned by the President last Monday on representation by the Wagon and Prison physician that he was dying of consumption. Zink was around calling on his friends next day, looking well and hearty. The fact that he was not ill reached the President, and he is making an embarrassing investigation of the case.

A Chance to Make Money. I have been selling Dish Washers three weeks, and have cleared \$315. Can any of your readers, without previous experience, beat this? In this woman can make as much as a man. Every family who has a Dish Washer can be got so cheap, and they will have one, no matter who it is that is selling it. I am convinced any one can make from \$5 to \$10 a day in this business anywhere city or country. They all want Dish Washers. You can get them by addressing the Iron City Dish Washer Co., of Pittsburg, Pa., and by beginning at once, you can be enough money by spring to start in most any kind of business. I am going to stick to this Dish Washer business until I make \$10,000.

The reports from Washington are rather squally. The railroad employes and the officers of the Southern can agree on no terms, and strike talk is in the air. The men want the old contract, and they are not to be renewed, and this is refused. The big officers of the organizations are on the scene and conferences are being held. If a strike is ordered it will embrace all the conductors, engineers and firemen on the entire Southern system, which operates lines in seven States, and will be the biggest tie-up in the history of railroading in the United States.

The Modern Mother. Has found that her little ones are irritated more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect of a gentle remedy than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

Capt. S. A. Ashe has resumed the practice of law in Raleigh.

NOTES AND COMMENTS.

Evans, Republican, is elected Governor of Tennessee by 753 plurality. It is said that the Democrats will contest.

The Northern people of this country have not yet ceased to "point with pride" to the fact that they succeeded, with the help of a good portion of the rest of the world, in conquering the Southern States—four to one. Nashville Advocate.

The Union Signal makes these statements: "In this country 2,500 women are practicing medicine, 275 preaching the gospel, more than 6,000 managing postoffices, and over 3,000,000 earning independent incomes. Since 1880 the Patent Office has granted over 2,500 patents to women, and in New York City 27,000 women support their husbands."

Editor Ham, of the Georgia Cracker, says that the President's message "has proved a welcome surprise to all parties. The incorporation of department details makes it very long, but the recommendations to congress are few and couched in very respectful terms. Other matters are touched upon lightly, but the main matter of importance is the treatment of the currency question, and this is approached in a spirit intended to give the people relief."

A WARM BATH WITH CUTICURA SOAP

And a single application of CUTICURA, the great skin cure, will afford instant relief, permit rest and sleep, and point to a speedy, economical, and permanent cure of the most distressing of itching, burning, bleeding, scaly, and crusty skin and scalp diseases, after physicians, hospitals, and all else fail.

Cuticura Remedies. Exert a peculiar, purifying action on the skin, and through it upon the blood. In the treatment of distressing humors they are speedy, permanent, and economical, and in their action are pure, sweet, gentle, and effective. Mothers and children are their warmest friends.
