Off and On.

A lawyer noted for his success on press-examination found his match in a recent trial, when he asked a longsuffering witness how long he had worked at his business of tin-roofing. The answer was: "I have worked at it off and on, but have worked at it teady for the past twelve years." "How long off and on have you

vorked at it?" "Sixty-five years." "How old are you?" "Sixty-five."

Fetzer.

"Then you have been a tin-roofer rom birth?" "No, sir; of course I haven't." "Then why do you say that you ave worked at your trade sixty-five

ears? "Because you asked how long off nd on I had worked at it. I have worked at it off and on sixty-five years -twenty years on and forty-five off." Here there was a roar in the court oom, but not at the expense of the witness, and his inquisitor hurriedly finished his examination in confu-

sion .- Harper's Bazar.

A Scientific Note. 4 Absent-minded Professor (who has been snowballed by naughty boys on the hillside)-I must send a communication to the academy regarding the phenomenally large snowflakes this winter .- Fliegende Blaetter.

ACUTE DYSPEPSIA.

HEART DISEASE OFTEN ATTENDS IT.

The Modern Treatment Consists in Remov ing the Cause.

From the Republican, Cedar Rapids, Iowa.

"For ten years prior to 1894, T was a constant sufferer from acute stomach trouble. I had all the manifold symptoms of acute dyspepsia, and at times other troubles were present in complication-I did not know what it was to enjoy a meal. No matter how careful I might be as to the quality, quantity and preparation of my food, distress always followed eating. I was despondent and blue. Almost to the point of insanity at times, and would have been glad to die. Often and often I could not sleep. Sympathetic heart trouble set in and tune and again I was obliged to call a doctor in the night to relieve sudden attacks of suffocation which would come on without a moment's warning.

thick-set, bullet-headed black, a year or two older and many pounds heavier My troubles increased as time wore than our hero. . Putting down his on and I spent large sums in doctor bucket and lounging toward the newbills, being compelled to have medical attendance almost constantly. During 1892 and 1893, it was impossible for me comer, who had paused at the cross-"Paul, wat you tell Pink 'about me to retain food, and water brashes plagued me. I was reduced to a skeleton. The doctors gave us as their opin-"Aun' Sarah gra'daater Pink. You ion that the trouble was ulceration of the coats of the stomach and held out no hope of recovery. One doctor said. The above was told our reporter by Mrs. V. Curley, of Clarence, Iowa, and is interesting because thousands are suffering as she did. I am now almost free from trouble.

and if through some error of diet I feel badly, this splendid remedy sets me right again. I have regained my strength and am once more in my usual flesh. I sleep well and eat without dis tress. I have no doubt that I owe my recovery to Dr. Williams' Pink Pills. only wish that I had heard of them years ago, thereby saying myself ten years of suffering and money.

Dr. Williams' Pink Pills contain al the elements necessary to give new life and richness to the blood and restore shattered nerves. They are for sale by all druggists. or may be had by mail from Dr. Williams' Medicine Co., Schenectady, N. Y., for 50c. per box or six oxes for \$2 50.

HOW TO PREVENT CROUP.

me Reading That Will Prove Interesting to Young Mothers. How to

Guard Aganst the Disease.

Croup is a terror to young mothers and to post them concerning the cause, first symptoms and treatment is the object of this item. The origin of croup is a common cold. Children who are subject to it take cold very easily and croup is almost sure to follow. The first symptom is hoarseness; this is soon followed by a peculiar rough cough, which is triumphant face, his "head bloody but easily recognized and will never be torgotten by one who has heard it. The time to act is when the child first be-

len lips as he took up his burden and comes hoarse. If Chamberlain's Cough "N'mine," said he through his swol-Remedy is freely given all tendency to

MR. NOONAN'S BIG NUGGET. It is Worth \$500 and Was Found in

Heap of Tailings. Mr. Martin Noonan, a Coeur d'Alene mining man, arrived in this city from Delta, Idaho, the other day, with a

experience as a placer miner and pros- what they need, take up their paper pector all over the West, and although like the far-famed Reuben Glue, his countenance is ornamented at the lower end by a little bunch of whiskers, there the similitude closes, for, unlike Reuben, Mr. Noonan really knows a thing or two.

Mr. Noonan exhibited his big nugto come to see you." get to several persons. They viewed it with great curiosity, and wondered if it were really possible that so large a sum could represent the value of so small a chunk of quartz and yellow metal. It was about as large, and much resembled in shape 2 fair-sized Bartlett pear. A quantity of dirtylooking quartz was mixed up with it, and its rounded sides betrayed its origin in a bed of gravel.

"There's too much quartz in it to bd worth so much." said a bystander.

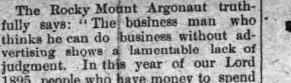

"You can tell nothing by the looks of a nugget how much it is worth," said another bystander, who looked like a miner himself. "You can only tell by hefting it, you see, and, judging by the apparent weight of this, it is worth fully \$500."

"It weighs just 271% ounces," said Mr. Noonan, "and what quartz there is in it won't weigh much. It was rather odd how this here nugget came to be found. It lay in a heap of coarse tailings for five years before some one happened to pick it up. You see, it was forked out of the sluice box along with other rocks usually forked out to keep the box from being obstructed. The man that forked it out probably didn't notice its extra weight, or it would have been found much sooner.' "How often can a man pick up stones like this in the Coeur d'Alene coun-

try?" "Well, I don't know. It isn't exactly like digging potatoes in the Snake River Valley. I have been looking for nuggets of all sizes for thirty-seven years, and this is a good deal the biggest I have found. This one came from Trail Gulch, near Delta. Idaho, and I have worked around that camp eleven years without seeing any others like this."-Morning Oregonian.

Social Gradations.

Pectoral. The first bottle gave me great relief ; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel sure that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's

1895, people who have money to spend read the newspapers, and instead of going around the street hunting for CASIORIA and soon find where they are kept. The man who advertises and does it in a business-like manner will in the end come out ahead of his neighbor who thinks the world ought to hunt him up to find out his business.
