OLD PEOPLE

Good Blood is the secret of healthy old age, for it regulates and controls every part of the body, strengthens the nerves, makes the muscles elastic and supple, the bones strong and the flesh firm; but when this life fluid is polluted or poisoned and loses its nutritive, health sustaining elements, then there is a rapid decline of the vital powers, resulting in premature old age and disease. Any derangement of the blood quickly shows itself in an ulcer, sore, wart, tumor or some other troublesome growth upon the body, and rheumatic and neuralgic pains become almost

constant, accompanied with poor digestion and cold extremities. S. S. S. being purely vegetable, is the safest and best blood purifier for old people. It does not shock or hurt the system like the strong mineral remedies, but gently and thoroughly cleanses the blood and stimulates the debilitated organs, when all bodily ailments disappear. S. S. S. is just such a tonic as old people need to improve a weak digestion and tone up the Stomach. If there is any hereditary taint, or the remains of some disease contracted in early life, S. S. S.

will search it out and remove every vestige of it from the system. Write us fully about your case and let our physicians advise and help you. This will cost you nothing, and we will mail free our book on blood and skin diseases. THE SWIFT SPECIFIC COMPANY, Atlanta, Ga.
