

# THE CONCORD TIMES

John B. Sherrill, Editor and Owner.

PUBLISHED TWICE A WEEK.

\$1.00 a Year, in Advance.

VOLUME XXII.

CONCORD, N. C., AUGUST 9, 1904.

NUMBER 12.

### Wood's Seeds.

## Crimson Clover

Sown at the last working of the Corn or Cotton Crop, can be plowed under the following April or May in time to plant corn or other crops the same season. Crimson Clover prevents winter leaching of the soil, is equal in fertilizing value to a good application of stable manure and will wonderfully increase the yield and quality of corn or other crops which follow it. It also makes splendid winter and spring grazing, fine early green feed, or a good hay crop. Even if the crop is cut off, the action of the roots and stubble improve the land to a marked degree.

Write for price and special circular telling about seed etc.

**T. W. Wood & Sons, Seedsmen,**  
RICHMOND, VIRGINIA.

Wood's Descriptive Fall Catalog, ready about August 1st, will show all about Farm and Vegetable Seeds for Fall planting. Mailed free on request.

**CAPITAL \$50,000**  
Surplus and Undivided Profits,  
**\$28,000.00.**

## CABARRUS SAVINGS BANK

Removed to new office in the Morris Building nearly opposite the Postoffice.

### CALL TO SEE US.

### THE TEMPERANCE OUTLOOK.

Statement issued by Chairman Bailey of the Work Done in Past and Prospects for Future.

Mr. J. W. Bailey, president of the Anti-Saloon League, has made up the following statement of the work of the temperance advocates of the State and the aims of the association for the immediate future:

"The present local option campaign opened in North Carolina in March, 1903, with the election at Statesville. Since that time elections have been carried for prohibition at the following places:

"Elizabeth City, New Bern, Goldsboro, Nashville, Benson, Hillsboro, Wadesboro, Greensboro, Durham, Roanoke Rapids, Charlotte and Statesville.

"In the following places dispensaries have been established by popular vote:

"Wilson, Greenville, Kinston, Henderson, Oxford and Raleigh, together with several minor points.

"Elections have been lost in the following places:

"Washington, Wilmington, Rocky Mount, Tarboro, Weldon, Scotland Neck, Spring Hope, Reidsville, Roxboro, Salisbury, Marion and Morganton.

"Rutherford and Beaufort voted the dispensary out for prohibition.

"Washington and Edenton have greatly restricted their saloons, closing them early and taking away their screens.

"Graham, N. C., refused to exchange prohibition for bar-rooms, and I believe, Morganton is the only town in the State which has done this within the last two years.

"We carried the election at Jacksonville, Onslow county, but on account of some irregularity, it did not count.

"The commissioners have ordered Camden county dry. It is understood, I believe, by agreement, that the bars at Scotland Neck will close in 1905. This is a result of the election held there.

"In this hurried glance over the map of the State I may have omitted one or two points, but the statement above is fairly accurate.

"Three-fourths of the bar-towns of North Carolina are now east of Goldsboro and north of the A. and N. C. Railroad.

"It becomes every friend of temperance to resist the effort to overthrow the Watta Act. The Republican party has thrust this issue upon us. It has made its choice and it must accept the consequences. The Watta Act is a prohibition measure so far as the unpoliced districts are concerned; and it is a fair and liberal local option measure so far as the police districts are concerned, and, it should, therefore, command the support of all genuine friends of prohibition and local option. I have no sympathy whatever with the cry of certain politicians that this act is a partisan act. There is nothing partisan about it. It is no more partisan than any other good piece of legislation would be when enacted by the North Carolina General Assembly. The men who seek to injure it by speaking of it as partisan are simply evading the issue. Let the act stand on its merits and it will commend itself to every friend of temperance. If this act should be repealed, the temperance cause would not recover from its loss in this generation.

"This may not be the paramount issue, but it is an issue, and it is a vital issue and I hope there shall be no doubt about how every candidate in North Carolina stands with regard to it.

"We shall have no more elections this year, but will concentrate our forces in support of the Watta Law. We must assist the political attack upon this legislation so vital to our progress. Next spring I expect elections will be called in many places, and with a view to this we shall have a Temperance Convention in the not distant future."

### Violent Attack of Diarrhoea Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy and Perhaps a Life Saved.

"A short time ago I was taken with a violent attack of diarrhoea and believe I would have died if I had not gotten relief," says John J. Patton, a leading citizen of Patton, Ala. "A friend recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. I bought a twenty-five cent bottle and after taking three doses of it was entirely cured. I consider it the best remedy in the world for bowel complaints. For sale by M. L. Marsh.

We become conscious of our hearts at the same time that we do our teeth when they begin to ache.—Judge.

Woman will never be able to possess such a comforter as a man's pipe is to him in all sorts of trouble.

### LAST OF THE ALLIANCE.

Charlotte Observer.

The fate of the Farmers' Alliance in South Carolina is about the same as that which has been visited upon the organization in every Southern State—it was done to death by the politicians. The Richmond News-Leader says that it has dwindled to a dozen weak and scattered sub-alliances and the alliance corporation is in the hands of a receiver. A vast row is in progress over the distribution of a remaining fund of \$17,000 cash among the 40,000 men who contributed it to free the farmers "from the tyranny of the middle man." Yet, ten years ago, says the News-Leader, the alliance in that State was the controlling political and commercial power. Everybody was in deadly fear of its wrath and humbly suppliant of its favor. Business men were deathly afraid of it and it threatened to revolutionize the commercial life of the State. It died of too much politics. The politicians used it, broke it down and abandoned it. Its membership dropped away as political results were secured or hopes disappointed through it. The organization, ostensibly formed for business purposes, forgot, forgot or ignored business principles. It became saturated and poisoned with politics and died of the poison.

The Richmond paper quoted from a farmer who says that "some time the farmers will form a real business organization for their own protection and improvement." They need it. They will do away with the secrecy and mummy and oaths and will keep clear of politics and refuse to be the tools of politicians. Then they will accomplish results. "We doubt it. The politician is the farmer's greatest enemy. At the time of its organization, the Grange was purely a farmer's institution, but it had scarcely got on its feet before the politicians had captured it. They led it into broader fields and out of its material organized the Farmers' Alliance. From the very beginning they owned it body and soul and fine work they did through it in wrecking established institutions of the State. We would be glad to see the hopes of our Richmond contemporary for a purely farmers, organization realized, but we fear it is not to be. No duck ever kept an eye on a June bug more relentlessly than the politician does on the organized farmer.

### He Did the Talking.

A lively-looking porter stood on the rear platform of a sleeping-car in the Pennsylvania station, says the Cleveland Plain Dealer, when a fussy and choleric cold man clambered up the steps. He stopped at the door, puffed for a moment and then turned to the man in uniform.

"Porter," he said, "I'm going to St. Louis, to the fair. I want to be well taken care of. I pay for it. Do you understand?"

"Yes, sir, but—"

"Never mind any 'buts.' You listen to what I say. Keep the train-boys away from me. Give me extra blanket, and if there is any one in the berth over me, slide him into another. I want you to—"

"But, say, boss, I—"

"Young man, when I'm giving instructions I prefer to do the talking myself. You do as I say. Here is a two-dollar bill. I want to get the good of it. Not a word, sir."

The train was starting. The porter pocketed the bill with a grin and swung himself to the ground.

"All right, boss!" he shouted. "You can do the talking if you want to. I'm powerful sorry you wouldn't let me tell you—but I ain't going out on that train."

### Cholera Infantum.

This disease has lost its terrors since Chamberlain's Colic, Cholera and Diarrhoea Remedy came into general use. The uniform success which attend the use of this remedy in all cases of bowel complaints in children has made it a favorite wherever its value has become known. For sale by M. L. Marsh.

### Highland Park Shut Down.

CHARLOTTE, Aug. 6.—The Highland Park mills shut down Saturday evening for an indefinite period. When approached by a reporter today an officer of the company said the plant had been closed temporarily because there was no excuse for running longer. Full time has been made until the present and the company has on hand a good stock of goods. As soon as the market conditions show sufficient improvement to warrant it, the plant will be put in operation again.

### Riggers of Lent.

"Pa, what is the penitential season?"  
"I hate to go into this subject with you, Fred; but it is when your mother steps out of society for 40 days and nights to regulate her hitherto abandoned family."

The fact that some men can gain a foothold but can make no headway is frequently due to their physical construction.

### CHILD LABOR.

Washington Post.

Referring to an intimation in the New York Herald that the Democratic party needs a dictatorial man for its leader, the Atlanta Constitution says:

"Once upon a time a man who had been given the highest gift in its power undertook to dictate to the Democratic party. He was elected to the Presidency, but repudiated by his party. No other Democrat is likely to undertake the dictatorship experiment—least of all Alton B. Parker."

Evidently the "man" referred to is ex-President Cleveland, the only living ex-President and the only Democrat who has been inducted into the Presidential office since March 4, 1857—a date that will be forty-eight years old on next inauguration day. What the Constitution calls "dictating to his party" began a long time—eight or nine years—before President Cleveland was "repudiated by his party." It began when he was President-elect, some days or weeks before his first inauguration. Has the Constitution forgotten that famous anti-silver letter which Mr. Cleveland in 1885 sent to the House of Representatives? That was quite as original and unique, and as courageous an act as Judge Parker's gold standard telegram to the St. Louis convention. It was intended as a solemn warning to the Democrats in Congress and their constituents of the danger of tampering with the currency. If Mr. Cleveland ever "undertook to dictate to the Democratic party," he did it then. But, in spite of all that, his party renominated and tried to elect him in 1888.

### A Puzzle.

At an examination in an English school the teacher was so pleased with his class that he said they could ask him any question they liked.

Some were asked and replied to. Seeing one little fellow in deep thought, the teacher asked him for a question. The boy answered, with a grave face:

"Please, sir, if you was in a soft mud heap up to your neck and I was to throw a brick at your head, would you duck?"

The answer is not recorded.

### Asked Cleveland to Speak.

CHICAGO, Aug. 6.—An invitation was forwarded to-day by western democratic leaders to ex-President Grover Cleveland to take the stump for Judge Parker in Illinois in the coming presidential campaign. It is understood Mr. Cleveland will take the matter under consideration in conference with Judge Parker at an early date. This action of the western managers is in accordance with a general plan of campaign decided upon by them.

### Nearly Forgets His Life.

A runaway almost ending fatally, started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklen's Arnica Salve had no trouble to cure him. Equally good for burns, bruises, skin eruptions and piles. 50c at all druggists.

### Inflammation of Bowels and Bladder.

Cedar Hill, N. C.

My trouble was inflammation of bowels and bladder. Was unable to eat or retain anything on my stomach. In three days the same results. In three weeks I was entirely cured.

MRS. EUGENIA DENLAP.

### Dyspepsia and Rheumatism.

Little's Little, N. C.

Myself and members of my family have visited these Springs about every year since 1891, and I know of no water its equal. We have derived great benefits from its use. I have known cases of Dyspepsia, Rheumatism and general debility greatly benefited by the use of this water. The climate is delightful and hotel beautifully located on a high hill.

JOHN P. LITTLE, Franter.

### Mysterious Circumstances.

One was pale and sallow and the other fresh and rosy. Whence the difference? She who is blushing with health uses Dr. King's New Life Pills to maintain it. By gently arousing the lazy organs they compel good digestion and head off constipation. Try them, Only 25c. at all druggists.

### Sam Small, who is on a prohibition tour of the North, figures it out that "the whole South, with its 27,000,000 population, has fewer saloons by nearly 30,000 than the single State of New York, with its 7,200,000 of people. Six States of the North—New York, Pennsylvania, New Jersey, Ohio, Illinois and California—have more saloons than the rest of the country combined."

Small is attracting attention in the North by the statement that he "has drunk enough liquor to float a battleship." People naturally flock to hear that sort of a man talk temperance.

### CLEVELAND AND HIS PARTY.

Washington Post.

Referring to an intimation in the New York Herald that the Democratic party needs a dictatorial man for its leader, the Atlanta Constitution says:

"Once upon a time a man who had been given the highest gift in its power undertook to dictate to the Democratic party. He was elected to the Presidency, but repudiated by his party. No other Democrat is likely to undertake the dictatorship experiment—least of all Alton B. Parker."

Evidently the "man" referred to is ex-President Cleveland, the only living ex-President and the only Democrat who has been inducted into the Presidential office since March 4, 1857—a date that will be forty-eight years old on next inauguration day. What the Constitution calls "dictating to his party" began a long time—eight or nine years—before President Cleveland was "repudiated by his party." It began when he was President-elect, some days or weeks before his first inauguration. Has the Constitution forgotten that famous anti-silver letter which Mr. Cleveland in 1885 sent to the House of Representatives? That was quite as original and unique, and as courageous an act as Judge Parker's gold standard telegram to the St. Louis convention. It was intended as a solemn warning to the Democrats in Congress and their constituents of the danger of tampering with the currency. If Mr. Cleveland ever "undertook to dictate to the Democratic party," he did it then. But, in spite of all that, his party renominated and tried to elect him in 1888.

### Rocky River Springs.

We can say with absolute positiveness that Mineral Water giving equal results cannot be found. A system of four springs—Sulphur, Iron, Magnesia and Arsenic—all in close proximity to each other, in quality of water, cannot be duplicated the world over. The present owners, before acquiring title to this property, were acquainted with the virtues of these Springs, both by reputation and test. Now, a closer familiarity, and actual demonstrations, reveal curative powers hitherto conceivable. Guests during the present season, who have subsisted on milk and cereals for five years, and whose strength and vitality were almost exhausted, have been restored to health, and how eat, with impunity, what their appetites crave. Stomach pumps, drugs and all methods of treatment have been discarded, and now they can walk miles when they were restricted to but a few before. Dyspepsia in all stages, Stomach troubles and Diseases of the Liver, all can be cured in from two to three weeks.

In referring to those who have been restored to health during the present season, it is proper to say, that many of them have visited the springs of this and adjoining States in previous years without visible results. This water cures such as Rheumatism and Blood Diseases of all kinds find a remedy in the Arsenic water.

One guest, who was advised that ulcers of the stomach was the trouble, and that an operation was necessary, used the Arsenic water as a stomach wash, and now the burning sensations have vanished, ability to eat is restored, and the guest rejoices in the restoration to health, and all causes for an operation are removed. General run-down conditions are built up. Malarial symptoms removed. Nothing to equal the water can be found for sick or unhealthy children.

### Dyspepsia and Indigestion.

Marshallville, N. C.

I suffered from a severe attack of acute indigestion that greatly affected my nervous system and I was unable to eat or retain anything on my stomach. In three days the same results. In three weeks I was entirely cured.

MRS. EUGENIA DENLAP.

### Rheumatism.

Monroe, N. C.

I went to the Springs with a severe case of Rheumatism. Could not walk or stand. In five days I threw the cane away, and have not since. I do not know where better water can be found.

T. P. DILLON,  
Undertaker and Furniture Dealer.

### Asthma.

Concord, N. C.

I take great pleasure in recommending the water of these celebrated Springs to the sick and debilitated. It is the waters of the Rocky River Springs water, and I know them to be sound, and in my opinion the superior of any mineral waters in this and adjoining States. In run-down conditions the waters are a superior tonic and appetizer. The Arsenic water for its alterative, the Iron for its tonic, the Sulphur for its laxative and the Magnesia for its diuretic make a combination which is superior to drugs used to obtain the same results. I have known many cases combined with the improved hotel facilities under the new and expanded management, made Rocky River Springs a first class health resort.

Wadesboro, N. C.

I have been afflicted with Asthma for many years, and I know them to be sound, and in my opinion the superior of any mineral waters in this and adjoining States. In run-down conditions the waters are a superior tonic and appetizer. The Arsenic water for its alterative, the Iron for its tonic, the Sulphur for its laxative and the Magnesia for its diuretic make a combination which is superior to drugs used to obtain the same results. I have known many cases combined with the improved hotel facilities under the new and expanded management, made Rocky River Springs a first class health resort.

### Indigestion.

Wadesboro, N. C.

I am just from the Springs and an delight to bear testimony to the virtues of the water. Before going my diet consisted of small portions of light bread and milk. This condition had produced an intense state of nervousness. Was unable to sleep at night. In three days I began to eat what I desired. I gained ten pounds in two weeks. Now, for the first time in several years, I can eat anything that I wish without the least inconvenience or unpleasantness.

CAFFIE GADDY.

### Indigestion.

Wadesboro, N. C.

I have always thought the water of Rocky River Springs the best to be found. I have visited Cleveland, Jackson and Wadesboro Springs, but Rocky River Springs far surpasses them all. I have just returned from Rocky River Springs. I was afflicted with Catarrh of the bowels and in four days was apparently completely cured. As for the health and labile fare I was not found the equal at any resort that I have ever visited.

(Dr. Covington retired from the active practice of medicine some years ago.)

The Springs are now under new management. Every appointment for both health and pleasure have received attention. The hotel has been enlarged, and furnished throughout. Table fare unsurpassed.

In order to familiarize old friends of the present improved conditions, and to acquaint new ones with the rest curative powers of these mineral waters the management announce a weekly rate of \$7.00 for the remainder of the season. This is the lowest rate for the service rendered to be found. Hack line from Wadesboro and Wadesboro to the Springs at the least cost possible.
