DAM JONES WRITES BREEZILY REPUBLICAN CARE IS GROW- TWELVE YEARS IN KLONDIKE.

I returned home from my trip in the southwest last Saturday. I have trav-elled through dust for two months, and

cotton. We have got more dust cotton in North Georgia, to say nothing of corn, potatoes, persimmons, and such was the message that came ing entire Klondile, but know that in Such was the message that came ing entire Klondile, but know that in cotton in North Georgia, to say nothing of corn, potatoes, persimmons, and so on, than I have known, in almost a hundred years. I was rejoiced night from De Lancy Nicoll, of New York, before last to see reports from Weather Forecaster Marbury promising "rain, and much rain." In his weather prognostications he reminds me very much leaders at Democratic congressional nostications he reminds me very much leaders. In the last many has not been as great by far as it was several years ago. The aggregate yield I think did not exceed \$8,000,000, while two years ago that figure was allike the heroine of one of those tearful many who conducts the game should also finally be reduced to penury. There is nostications he reminds me very much of the old negro preacher, when one of his white friends asked him "what he was doing now," and he said he "was licans and he is confident that the was doing now," and he said he "was just prevaricating around over his circuit." I believe that I have got an old negro that can beat the weather burse on rain. He says it won't rain 'fore Christmas. If it does however, to be fore that date, he won't "prevaricate" any worse than Forecaster Marbury did the other day.

There is sure enough joy among Democrate both here and in New York.

There is sure enough joy among Democrates both here and in New York.

The is sure enough joy among Democrates both here and in New York.

The trad towards Democrater which that the influx of prospectors to that country in recent years, Mr. Thompson replied in the negative.

"The extent of the field," declared would charge at the Mr. Thompson, "is not even known until after yet and will not be known until after facilities for working the mines hydraulically shall have been installed.

The trad towards Democrater which

station." What a commentary on a pious barroom. Less taxes and more drunkards. The dispensary is a thing of the devil, and no community will run one and no gang will patronize one long, without belonging to the devil.

Situation interest in the contest is rapidly increasing and feverish anxiety already there."

All amounts already there."

The Girl Bidn't Answer Right and the campaign until the past few days.

Chairman Cortelyou's recent move-

states, are booming. Ten cent cotton

don't know much more about the cotton crop than I did before, or rather I can't guess much better about it, but everywhere I went'it looked like they had cotton "to burn." I am not holding my cotton this time. I have averaged ten cents to date, and a little over, and I am not betting on it being any more than that soon. There is a N. Y. cor. Charlotte Observer. desperate fight going on between the bulls and the bears. I have never known cotton to fluctuate at this time of the year, as it is doing now. Our of the year, as it is doing now. Our buyers had orders this morning that "nine and a quarter is the limit," and before 12 o'clock the fluctuations in before 12 o'clock the fluctuations in something like a spasm of renewed accomething like a spasm that they were paying 9.62. I don't know whether it will be ten tomorrow, or nine. Nobody else knows, unless it cents for his cotton has got no kick

Car Load of Buck's Stoves and Ranges.

There are many good reasons why you should buy a Buck Stove this Fall. Every house-keeper wants not only a stove that is handsome in appearance, but also one economical with fuel. Buck's Stoves are not only handsome in appearance. ance, but are constructed so they save fuel. 58 years of stove experience have been brought to bear to make them in every way perfect.

Don't be a slave to voor range. Range slavery is household drudgery. It's nerve-destroying, health-breaking; it's killing. If your old range is making your life a burden throw it out and get a Buck's Steel Range. A new Buck range will cost less than a new set of nerves. A Buck range is easy to run—obs the kitchen work of half its labors, it robs it of all the worry, it cooks con time, it cooks economically, it uses all the heat for cooking and not for making a hot kitchen. Come in and let us show you

Buck's Ranges are easily distinguished from other makes by their many superior points of construction. They are heavily nickeled and are handsome in appearance. The oven door and oven rack are white enameled, thereby making the oven the cleanest possible. Buck's ranges don't cost money—they save money. Through the many devices used in their construction the fuel is spared, every stick of wood or piece of coal. consumed to the best advantage. This year we have made preparations for the largest sale of Buck's inges ever. If your friends are using a Buck range they will tell you why you should get one.
