### A REMARKABLE ADMIRER.

Charity and Children.

Mr. N. Glenn Williams, in his open letter to the legislature, begging them not to destroy his business, made the statement that he had never touched a drop of whiskey in his life nor allowed any of his employees to drink. Coming from a distiller this temperance argument gains tremendous force. Mr. Williams needs a clear head to run a business like that which has had 137 years to grow, and his men need steady hands. They make an article to befuddle brains and tangle legs, but their own must be unclouded and reliable. We have heard that the railroads and big business houses are becoming our best temperance societies, but this is the first time we have had a liquor manufacturer to discredit and condemn his own business. We think more of Mr. Williams because of the frankness of his letter, but he made the best speech of all for the Ward bill, without intending to do it. We hope Mr. Williams, who is evidently a man of sense, will follow out his own logic and be glad in his heart the Legislature has forbidden him to inflict upon others the evil he so carefully shunned himself. No man ought to be a better judge of the devilment there is in whiskey than the man who makes it, and we gladly accept Mr. Williams' testimony that he even refused a little for his stomach's sake, and his often infirmities. Let the paid attorney and played out politician prate as much as they please about the necessity of having a little liquor about the house, here is a man who has lived forty years with never a drop going down his throat, and he in the business of making and selling it at that!

### Southern Alleged to Have Lost \$50,000 at Charlotte.

The Southern Railway has lost thousands of dollars recently on account of cars being broken open and robbed of merchandise in transit while the trains were yet in Charlotte.

Last Wednesday night, the police of that city succeeded in locating and arresting two negroes who are thought to be the leaders of the gang of thieves.

In the possession of one of these negroes, John Harris, was 48 quart bottles of corn whiskey. Ernest Crawford, the other negro under arrest, had numerous articles concealed in his home that had been taken from cars passing through Charlotte.

It is conservatively estimated that the Southern has lost fifty thousand dollars by car thieves within the city limits of Charlotte since the first of last December.

**3,000,000 Deaths by Plague.**

Plague mortality in India is at present slightly decreasing, but 3,000,000 people have perished since the beginning of the epidemic.

Thirty thousand cases—90 per cent. of which are fatal—are still occurring weekly. Burma has become infected, and the labor supply for Indian manufacturing centres is seriously interfered with.

The sufferers are callous, and the evil is everywhere regarded as being too widespread to eradicate.

**A Safe Cough Medicine for Children.**

In buying a cough medicine for children never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it and relief is always sure to follow. It is especially valuable for colds, croup and whooping cough. For sale by M. L. Marsh and D. D. Johnson.

The "operation mania" has not yet reached New York, according to physicians and surgeons best qualified to judge. Anglomania has not reached the stage where the removal of a vermiform appendix is an essential requirement for admission to smart society, as it is in the West End of London. According to reports from three physicians are sending patients every day to sanitariums to be operated on for imaginary appendicitis.—New York Times.

**Get Out Cheap.**

He may well think, he has got off cheap, who, after having contracted occupation or indigestion, is still able to perfectly restore his health. Nothing will do this but Dr. King's New Life Pills. A quick, pleasant and certain cure for headache, constipation, etc. 25c at all druggists; guaranteed.

### SAM JONES' LETTER.

Atlanta Journal.

What promises to be a general reform wave has struck the country and in many states it is almost equal to a moral revolution. Grafters, bootlickers, rascals and demagogues are taking to the woods, and it is a self-evident proposition that when sentiment is aroused and the good people become awakened that the gang is out of business, whether they are out of the penitentiary or not.

President Roosevelt heads the procession and with his big stick in hand he is calling for a fair deal—nothing less, nothing more—and a fair deal will put many a trust and combine out of business also.

I find in my travels that Roosevelt and Rooseveltism are growing in popular favor every day. The people believe in him and believe in what he believes in. I notice in a reply to a congratulatory telegram sent to Mr. Roosevelt from the Baptist pastors of Philadelphia this week, he answered back as follows:

"God giving me grace and strength, I will to the right as He gives me grace to see it."

Martin Luther never gave forth a more courageous utterance or manifested a braver spirit.

Just as Mr. Roosevelt is leading a national reform we find states, one after another are falling into line. Wisconsin with Governor LaFollette, Missouri with her peerless young Governor Joseph W. Folk, Indiana, whose governor, the other day talked to a friend who was urging the interest of an applicant for an appointive office. He spoke of his friend's work for the party, his liberality in campaigns and his local influence. The governor heard him through and said: "I should like to appoint your friend. I have no doubt of the merits of his services to the party or his ability to do the work if he did his best. But I have noticed that railroads and other large interests of recent years have ruled against men who drink. This is a good policy, I think, and so long as I am governor of Indiana, I shall pursue the same policy." That has the ring and puts him in line of a great moral reform worthy of imitation.

In spite of the signal defeat of the Russian arms at Mukden there is no disposition to talk of peace. The Russian Government stands committed to the war, and the people have not yet found the voice bestowed on them by the Czar's receipt.

It is learned on the best authority that Japan has twice approached Russia through informal channels on the subject of peace negotiations, but in each case the proposal failed because Japan demanded an indemnity and a pledge from Russia not to keep warships in the Pacific for twenty-five years.

The Japanese insistence on an indemnity convinced the Russian Government that Japan's pecuniary resources were exhausted and that by continuing the war only a few months longer Russia would be able to compel Japan to accept better terms.

**Comprehensive Glimpse.**

Mr. and Mrs. Ferguson were passengers on an elevated train.

It whizzed by a house that was brilliantly lighted.

"I wonder what was going on there?" ejaculated Mr. Ferguson.

"It was a wedding," replied his wife. "Didn't you see them standing before the preacher? He was in a white gown. The groom was in full evening suit. The bride wore a robe of chiffon cloth, with bertha and yoke of duchesse lace on the bodice and lace flounce on the skirt. She had a full length tulle veil and carried a bouquet of lilies of the valley. Where were your eyes?"

Mr. Ferguson, realizing his utter worthlessness, resumed the reading of his paper and said nothing.

Barber—I think you'd better call a butcher.

Reggy Fickle—A butchah! What's for?

**For an Impaired Appetite.**

Loss of appetite always results from faulty digestion. All that is needed is a few doses of Chamberlain's Stomach and Liver Tablets. They will invigorate the stomach, strengthen the digestion and give you an appetite like a wolf. These Tablets also act as a gentle laxative. For sale by M. L. Marsh and D. D. Johnson.

Senator Morgan of Alabama is a friend whose house was recently visited by the stork, on which occasion it left a little girl. Ralph, aged five, didn't take kindly to the new arrival, and asked why he did not exchange it for a boy, replied:

"It's too late; we've used her four days already."

When a woman says her husband is at a political dinner it is a sign she wishes she knew where he was.

vell, the brave, brawny Rough Rider, went in with a majority that took the breath of the opposition and pulled his enemies into the current of his victory. Who is the man of destiny for Georgia at the epoch-making period? I can't name him, but if anybody can, I pledge a labor and a loyalty to him that I've never given to a candidate in all my life. We have a year to hunt for him, and if we have one we can by diligent search find him. I know the good people of Georgia are sick and tired of "our sort of folks" running the state, and we want a change, and intend to have it. I want to be on hand more closely this session of the legislature coming, so I can see clearly who is "our sort of folks" and who ain't."

I received a large registered envelope last week by mail. When I opened it I found a kindly and urgent request signed by the members of senate and lower house of the the legislature of Missouri, (a roll of names two feet long on foolscap), that I address the legislature of Missouri in the capital building. I will be glad to do so if I can get around there before they adjourn.

It will give me pleasure to say a few things in commendation of all the proposed good laws and how essential it is that the three great powers, the executive, legislative and judicial combine and co-operate in all movements that tend to elevate the citizens and put down the rascals.

I would enjoy the privilege of saying a few things to our Georgia legislature if "our sort of folks" don't object.

I am touring Ohio and Pennsylvania this week and will be next week filling engagements in Iowa, Nebraska and Colorado.

Yours truly,  
SAM P. JONES.

### GOV. GLENN FOR A VIGOROUS INDUSTRIAL POLICY.

News and Observer.

Governor R. B. Glenn declares that he is in the fight to a finish for the industrial development of North Carolina, and that despite all obstacles he will bend every energy to the accomplishment of this purpose.

Talking yesterday of his position in the matter he said that while disappointed that the General Assembly had not provided for an immigration bureau he is not discouraged but will endeavor to put other factors into operation in order to achieve his purpose.

He says that it is his purpose to meet with the Board of Agriculture and seek the co-operation of that body in his effort to induce to come to this State a high order of immigrants, not the riff-raff of the world, but small farmers, tenants, laborers, men who will "do things" in the State. "If the Board will work with me I believe that we can accomplish great good for the State," exclaimed the Governor.

"And here is another thing I want to do, he continued, "and that is to break up the vagrancy in the State. I will at once ask the judges of the State to charge the grand juries and the sheriffs at their various courts upon the splendid vagrant law that we have. I want to see it so enforced that able bodied men, now idlers, who are living on the work of their children and wives be forced to engage in some useful occupation and be made to become bread winners."

Governor Glenn, in referring again to his industrial views, lets it be plainly understood that he is determined not to let his industrial policy flag, but that he will use every exertion in his power to push it forward. In this work for the betterment of North Carolina he desires it to be understood that he asks the aid of all the people, and that as time affords he will urge this upon them.

Attacked by a Mob

and beaten, in a labor riot, until covered with sores, a Chicago street car conductor applied Bucklen's Arnica Salve, and was soon sound and well. "I use it in my family," writes G. J. Welch, of Tekonsha, Mich., "and find it perfect." Simply great for cuts and burns. Only 25c at all druggists.

### ITCHING ECZEMA

In July, 1883, I began to break out with Eczema on my head, legs and arms, and began treatment with local doctors, but did not get much relief. They said the disease had become chronic. I then quit them and tried various ointments and soaps for another two years, but as soon as cold weather came I was as bad off as ever, so I finally decided to let medicine alone, and for twelve or thirteen years did nothing towards curing the Eczema, except bathing. This seemed to do about as much good as anything I had tried.

During the time I lost about one-half of my hair. I began S. S. S. doubtful of a cure, because the disease had run so long, but soon discovered your medicine was doing me good, and continued to take it. I used seven bottles, when I was completely cured, not having a single spot on my body, which before was almost completely covered. F. C. NORFOLK, 1077 Hackberry St., Ottumwa, Ia.

The head, feet and hands are usually the parts affected, though the disease appears on other parts of the body. While external applications allay the itching and burning temporarily, it is the acids thrown off by the blood that cause the irritation and eruptions upon the skin. The acids must be neutralized and the system cleansed of all humors and poisons before the cure is permanent. S. S. S. is guaranteed entirely free of Potash, Arsenic and other minerals. Book on the skin and its diseases sent free. Medical advice furnished free.
