PAPOOSE POPCORN

A New Seed Discovery for FORAGE POULTRY POPPING

A subscriber to the Southern Agriculturist secured the seed from an old Indian in Northwest Texas. After experimenting with it seven years he wrote that paper: "With good ground and care it will make from 50 to 100 bushels to the acre, and planted thick and cut walk and it will make more feed and better feed than anything I ever saw. The old Indian said poultry fed on it would never have the cholera. I have not lost a fowl with cholera since I have been raising it. It also grows beautifully." This article brought hundreds of requests for seed, and now only a few bushels are left. Send 10c for a 3 months' subscription to Southern Agriculturist, 29 C. P. Bldg., Nashville, Tenn., and you will get 100 seed by return mail, also details of \$50 prize seed-growing contest.

STRIKERS' FURY UNBOUNDED

NO ONE SAFE ON STREETS OF CHICAGO—SHOOT OR CLUB ON SUSPICION.

Fighting Was Savage, Men Being Shot Down and Beaten or Kicked Nearly to Death in the Heart of the Business Section and in the Presence of Ladies, Who Were Called to Pile for Their Lives and Dying Unmercifully Beaten.

The death of one man and scores of others was the result of to-day's fighting between strikers and teamsters and their sympathizers on the one side, and the police and non-union men on the other. There were riots in all parts of the city. Men were clubbed and stoned almost to death within a square of police headquarters, and five miles away men were shot down in the streets. At a hundred places between these two extremes of distance there were assaults and fights in the streets. Non-union men were pelted with stones, bricks and every other conceivable sort of missiles. They were dragged from their wagons, beaten, clubbed and stamped upon.

The fighting to-day in the streets was even more fierce and savage than that of yesterday. The strikers and their sympathizers attacked the non-union men at every opportunity, assailing them with bricks, stones, clubs, knives and any and every other offensive weapon upon which they could lay their hands. The fighting occurred in the heart of the business section of the city, men being shot down within 200 feet of the retail store of Marshall, Field & Company, and clubbed nearly to death at the corner of the Auditorium Hotel in plain view of hundreds of ladies who were compelled to run from the mob to save their own lives.

In many instances men walking along the streets who had no active connection whatever with the strike were assailed by hoodlums, who beat them first and later accused them of being strike-breakers. A notable instance of the kind was that of Rev. W. K. Wheeler, pastor of the Ninth Presbyterian church, who, while passing the corner of Desplains and Adams streets on his way to the Pennsylvania depot was attacked by three men, who knocked him down and beat him unmercifully, until the timely arrival of the police saved him from further injury. Mr. Wheeler managed to hold one of his assailants until the police could arrest him.

William Miles, a colored waiter, while at work in a lunch room at Adams and Sangamon streets, half a mile from any former scene of rioting during the strike, was also a victim of the strikers' fury, although he had had no connection whatever with the trouble. He was accused of being a strike breaker, was pounded on the head with a billy, knocked down and trampled on. Miles was removed to the hospital, where his injuries were pronounced severe.

As far as known, but one man was struck during the day, Charles Beard, killed on the forehead in a fight near the Auditorium Hotel. He died of a fractured skull at a hospital where he had been taken.

A partial list of the injured foots up thirty-two.

A. S. Utley, floor manager for Montgomery, Ward & Company, who has been active in the interest of Ward & Company since the commencement of the strike, was attacked by three men, who, he thinks, had been following him for several days, while passing a vacant lot in Oakenwald avenue. The men knocked him down and kicked him in a terrific manner about the head and face. He knocked one of them down with a billy, and the others ran.

A crowd of 300 negroes imported from St. Louis were being escorted from the railway depot to a lodging house. At Lake street and Michigan avenue a crowd of 3,000 persons attacked the negroes, many of whom were armed with stones, pieces of coal,

STRIKE-BREAKING AS AN OCCUPATION.

Charlotte Observer.

A new business under the sun is strike-breaking, and Mr. James Farley, who has an office in New York is credited with having originated it. The World's Work for May has an interesting article about him and his business. He has been a hotel clerk, a bar-tender, a policeman, a detective, a street car conductor and motorman, has finally settled down as a strike-breaker, and has been in thirty-five strikes and lost only one. He has 35,000 men enrolled and receives from 25 to 100 applications every day. He is in constant communication with 7,000 or 8,000 men and when a strike occurs and his services are enlisted he calls on so many as he needs to break it. He handled the recent strike on the New York subway and the price of his success was equal to the annual salary of the president of the United States. He takes no case in which he does not believe the employer is right. He has no special liking for employers and no prejudice against unions—his occupation is a cold matter of business with him. In any case he takes he charges \$5 per day per man and pays his men from \$2.50 to \$3.50 per day—the difference represents his profit.

The article upon which we are drawing is interesting of itself, but its chief interest is in the suggestion of how many different ways there are to make a living.

A Trip to a Star.
Philadelphia Bulletin.

"Let us suppose a railway to have been built between the earth and the fixed star Centauri," said the lecturer. "By a consideration of this railway's workings we can get some idea of the enormous distance that intervenes between Centauri and us."

"Suppose that I should decide to take a trip on this new aerial line to the fixed star. I ask the ticket agent what the fare is and he answers: "The fare is very low, sir. It is only a cent each hundred miles."

"And what, at that rate, will the through ticket one way cost?" I ask.

"It will cost just \$2,750,000,000," he answers.

"I pay for my ticket and board the train. We set off at a tremendous rate."

"How fast," I ask the brakeman, "are we going?"

"Sixty miles an hour, sir," says he, "and it's a through train. There are no stoppages."

"We'll soon be there, then, won't we?" I resume.

"We'll make good time, sir," says the brakeman.

"And when will we arrive?"

"In just 48,663,000 years."

Let it Soak in the Ground.
Newton News.

Saturday afternoon the train from Morganton brought in one of our colored citizens accompanied by a valise containing several jugs of the poor man's friend, and as the two hit the ground one of the jugs gave up its liquid bliss. The stuff made a little pool and another thirsty darkey began scooping it up with his hands and drinking thereof. Where upon the man of the grip said unto him, "Hey, dare, nigger, what you doin'?" I paid for dat licker—let hit soak in de groun'." Thus do the arrogant rich lord it over the poor.

How to Ward off Old Age.
The most successful way of warding off the approach of old age is to maintain a vigorous digestion. This can be done by eating only food suited to your age and occupation, and when any disorder of the stomach appears take a dose of Chamberlain's Stomach and Liver Tablets to correct it. If you have a weak stomach or are troubled with indigestion, you will find these Tablets to be just what you want you need. For sale by M. L. Marsh and D. D. Johnson.

Peculiar Bug Said to Be Destroying Boll Weevil.
WACO, TEX., May 2.—Charles Howard, of the Entomological Bureau, Department of Agriculture at Washington, has been notified of the discovery in Falls county, Texas, of a peculiar bug which is destroying the boll weevil. The insect was found on a plantation near Waco.

At a meeting of Mecklenburg farmers in Charlotte Saturday, reports from all the townships of the county save four showed a reduction in cotton acreage of 20 1/2 per cent. and a reduction of \$19-13 per cent. in the use of fertilizer.

The Wilmington Messenger says that people are paying one hundred dollars an acre for trucking land in that section. A few years ago much of that land would not have brought one-tenth of that sum.

Work on the construction of the big tunnel through Lookout Mountain was started Tuesday. The contractors expect to complete it within 18 months. The tunnel will be 3,500 feet long.

Indigestion and Dyspepsia.

Mr. R. E. Jones, buyer for Parker & Bridget, whose large department stores are located at 24th and Penn. Ave., Washington, D. C., writes us, under date of April 14th, 1904, as follows: Last February, one year ago, while in New York on business for my firm, I caught a severe cold which laid me up for several weeks, and left me weak and nervous. My physicians could not get at the cause. Their prescriptions did little or no good. As my appetite was poor and my food did not digest well, I decided to use Rydale's Stomach Tablets. A friend assured me they were a good dyspepsia medicine. After taking a few doses, I began to realize that I was getting better. I have used two boxes of these tablets and have gained 20 pounds and never felt better in my life. Rydale's Stomach Tablets cured me and I recommend them most heartily to sufferers from nervous indigestion and a general run down condition of the system. Rydale's Stomach Tablets are manufactured and guaranteed by the

RAID 2-CENT LODGING HOUSE.

Police Find 15 Women Asleep on the Floor.

New York Times.

Fifteen unkempt, ragged women, whose ages ranged from forty to sixty-five years, were arraigned before Magistrate Moss in the Tombs Court yesterday morning as the result of a raid made by the police of the Oak Street Station on a woman's lodging house at 4 James Slip. All received sentences of three months in the workhouse on charges of vagrancy and disorderly conduct.

The house raided, an old three-story brick, which in times past was a building of consequence, is now run as a two-cent lodging house for women. The lodgers are women who live as best they can. The police say that for two cents each woman received a space allotment for the night on the sudawood-covered floor. Some of the neighbors complained to the police that the women in the place at night became so disorderly that no one could sleep. Acting on these complaints, Captain Hodgins and Detectives McGee and Ray on Saturday night descended on the house.

When the police entered the place they saw a boy of about six years propped up in the corner of the room asleep. During the round-up of the women the boy disappeared. The police got the boy's mother, one of the youngest of the prisoners, who said she was Bridget Finn.

The woman who kept the place was in court. She admitted that sometimes the women drank, but she insisted that a cheap place was needed, and declared that the women who had been arrested were working women.

Is Beauty Only Skin Deep?
Beauty is only skin deep, but the forces that create beauty are as deep as the fountain from which they flow, when the blood is charged with impurities Beauty disappears, when the blood is pure Beauty blossoms in face and form. Rydale's Liver Tablets keeps the Liver healthy and the Bowels regular, prevents the blood becoming laden with bile and waste matter, make the skin, clear, eyes bright and beauty more than skin deep.

Man's Unreasonableness
is often as great as woman's. But Thos. S. Austin, Mgr. of the "Republican" of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife, for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick, she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters, she was perfectly cured, and can now perform all her household duties." Guaranteed by all druggists, price 50c.
