A New Seed Discovery for

## FORAGE POULTRY POPPING

A subscriber to the Southern Agriculturist secured, the seed from an old indian in Northwest Texas. After experimenting with it sev en years he wrote that paper : "With good ground and care it will make from 50 to 100, bushels, to the acre, and planted tinek and cut stalk and it will make more feed and better feed than anything I ever saw. The old Indian said poultry fed on it would never have the cholera. I have not lost a fowl with cholera since I have been raising it. It also pops beautifully." This article brought hundreds of requests for seed, and now only a few bushels are left. Send for a 3 months' trial subscription to Southern Agriculturist, and, P. Bldg , Nashville, Tenn., and you will get 100 seed by
