### "STAND BY YOUR GUNS."

President Jordan Addresses Letter to Southern Cotton Growers, Calling on Them to Stand to the Minimum Price of 11 Cents, Fixed by the Asheville Convention.

The following address to the cotton growers of the South has been sent out by Mr. Harvis Jordan, president of the Southern Cotton Growers' Association:

The executive committee of the Southern Cotton Association held its meeting at Asheville, N. C., last week, and the question of fixing a minimum price of this crop was the matter of greatest interest to the people and the country at large. The eyes of the whole cotton world were centered on Asheville during the 6th and 7th days of September, while the executive committee was in session.

The price finally agreed upon after long and tedious deliberation was 11 cents, basis middling, at all interior points in the South. The condition of the crop up to August 25th was found to be 73.08 per cent, as compared with a condition of 84 per cent. for the same period a year ago. The estimated yield of the crop as reported by over 15,000 correspondents from all the cotton growing countries indicated a yield this season of 9,588,138 bales, as compared with a crop of 18,000,000 bales last year. Letters from farmers all over the belt advised a minimum price all the way from 10 cents to 12 cents, some figuring as high as 15 cents. But the final result was 11 cents, and farmers all over the South will be expected to stand firmly together this fall and winter to maintain that price.

By determined effort prices can be forced up above 11 cents later on, and farmers should determine now to move their crops slowly and not rush the market. The only way we can secure and maintain our price is to refuse to sell for less and make the buyers come to our figures. If cotton is thrown on the market and sold anyway, it will be difficult to force prices up until much later in the season. Let those who are able and can hold back do so, and thereby help those who are forced to sell to meet their maturing debts and obligations with the supply merchants and guano dealers. Bankers will be glad to advance from 8 to 9 cents a pound on cotton in storage and thus assist in financing the situation. We are up against a hard fight, but it will be easier to get 11 cents for a small crop than 10 cents for a 13,600,000 bale crop.

We are now well entrenched with plenty of ammunition in the shape of corn and meat, our banks have plenty of money, the enemy is in retreat, and if we don't whip this fight and force the price of cotton to above 11 cents, then the farmers of the South ought to have a guardian appointed to look after their business interests. The mills of the world have taken a crop of 13,600,000 bales of American cotton during the last twelve months. The price of cotton goods is very high and going still higher. The whole civilized world is in a prosperous condition and it is unreasonable to say that the farmers should not this season receive an average of 11 cents per pound for a crop of cotton now estimated to be under ten million bales. All you have got to do is to stand pat for your price, refuse to sell under 11 cents and the market will soon advance to that figure. If much cotton is offered under 11 cents, as a matter of course, the market can be depressed and held down.

The cotton agent of the Farmers' Educational and Co-operative Union of Texas was present with us at Asheville and took part in the secret sessions of the executive committee. He came as the representative of the union and assisted in fixing the price at 11 cents, stating that such a price would be acceptable to the 300,000 members of the union. We can now depend upon the effective co-operation of all the members of the union, as the new president of the union, Mr. Calvin, of Paris, Texas, has written me encouraging co-operation to more completely win out in the fight ahead. We also have pledged the active co-operation of the membership of the American Society of Equity and the Farmers' Alliance, of North Carolina, in enforcing the demand for the minimum price of 11 cents. This makes the position of the producers almost impregnable, and with all of these powerful farmers' organizations working in harmony for mutual protection, I feel safe in saying that the fight can and will be easily whipped. There will be no misunderstanding among these organizations this season on this matter. We will all work in harmony together, and a knowledge of that fact ought to be most encouraging. If the Farmers' Union wanted one price and the Southern Cotton Association another, there would be difficulty ahead, but both organizations are now together and will

work together to win out on the price agreed upon.

Sell but little cotton in September and October. Give the mills a chance to exhaust present supplies, which can be done in six weeks, and then we can easily dictate terms and win another big victory. Sell no middling cotton for less than 11 cents.

### Ever Tried Coffee This Way?

It is a well-known fact that even the best of housekeepers cannot make really good coffee without the proper materials.

They will never make it with coffee of doubtful origin, adulterated, queerly blended, and possibly dirty coffee that has, perhaps, been mixed up with all kinds of other things on the counter.

But let them take a package of Lion Coffee—the purest and cleanest—and the brand universally used throughout the United States for over twenty-five years. Millions drink it daily, and get the best results if it is made in the following way:

Try it once and you will never want to try any other brand of coffee.

### HOW TO MAKE GOOD COFFEE

Use Lion Coffee, because to get best results you must use the best coffee.

Grind your Lion Coffee rather fine. Use a "tablespoonful to each cup, and one extra for the pot." First mix it with a little cold water, enough to make a thick paste, and add white of an egg (if egg is to be used as a settler), then follow one of the following rules:

1st. With boiling water. Add boiling water, and let it boil three minutes only. Add a little cold water and set aside five minutes to settle. Serve promptly.

2d. With cold water. Add your cold water to the paste and bring it to a boil. Then set aside, add a little cold water, and in five minutes it's ready to serve.

Three Don'ts—Don't boil too long. Don't let it stand more than ten minutes before serving. Don't use water that has been boiled before.

### TWO WAYS TO SETTLE COFFEE

1st. With an egg, mixing it with the ground Lion Coffee before boiling.

2d. With cold water—instead of eggs. After boiling add a dash of cold water, and set aside for eight or ten minutes, then serve through a strainer.

### Witnessed Biblical Tragedy.

Pittsburg Dispatch.

Senator Tillman, of South Carolina, tells of a little girl whose statements were always exaggerated until she became known in school and Sunday-school as "a little liar." Her parents were dreadfully worried about her and made strenuous efforts to correct the bad habit. One afternoon her mother overheard an argument with her playmate, Willie Bangs, who seemed to finish the discussion by saying emphatically: "I'm older than you 'cause my birthday comes first, in May, and yours don't come until September."

"Oh, of course your birthday comes first," sneeringly answered little Nellie; "but that is 'cause you came down first; I remember looking at the angels when they were making you."

"Come here, Nellie, come here instantly," cried her mother.

"It is breaking mother's heart to hear you tell such awful stories. Remember what happened to Ananias and Sapphira, don't you?"

"Oh, yes, mamma, I know. They were struck dead for lying. I saw them carried into the corner drug store."

### A YEAR OF PLENTY.

Charlotte Chronicle.

The cotton crop this year is conceded by all authorities to be short—something in the neighborhood of ten million bales—but corn, wheat and other products are anything but short. The government figures, as The Chronicle stated a few days ago, puts the yield of corn for this year at 2,717,000,000 bushels. The wheat crop is estimated at 704,000,000 bushels; rye 30,000,000 bushels; potatoes 283,000,000 bushels; barley 185,000,000 bushels. Of these crops it is said that it is the largest production of corn ever known. The highest previous yield was in 1902, which was 2,523,000,000 bushels. Only in 1901, when it was 748,000,000 bushels, did the wheat crop go above the 1905 yield. Oats never beat this year's figures except in 1902, when the output was 988,000,000 bushels. In 1901 and 1902 rye went a little above this year's level. In 1904 barley beat the 1905 output by about 4,000,000 bushels. Potatoes have several times scored higher totals than they did this year. The aggregate of the cereal crops for 1905 is much above that of any previous year. And while cotton may be short, the prices the farmers get will average as good as that of the previous year. Taking all things into consideration, it is reasonable to say that the present year is a year of plenty, and let it go at that.

### The Life of a Bride.

Minneapolis Tribune.

A woman may know that she has ceased to be a bride only—

When she finds herself saying saying uncomplimentary things to her husband.

The first time her husband criticizes her frocks.

When she discovers she is jealous.

When she grows economical with his kisses.

When she begins to nag.

When he becomes sarcastic about the food.

When she does not mind coming to breakfast in curl papers.

When he tells her how pretty some other woman looks.

When he begins to eulogize his mother.

When a meal becomes so quiet that she can plan a whole frock between the courses.

When he begins to go to his club.

When she begins to hunt up her old friends and enjoys calling on them.

When she forgets to come home from the matinee in time to greet him before dinner.

### FRIENDLY WARNING.

No Need to be Alarmed About Stomach Troubles if You Use Mi-o-na—Cure Guaranteed by Gibson Drug Store.

The most frequent affection of the stomach is catarrh, or the delicate membrane which lines the stomach is easily irritated by harmful food or overeating. Keep a strict watch for the first symptoms of stomach trouble. Take this friendly warning in the spirit in which it is given and profit by it.

Shortness of breath, black specks before the eyes, furred tongue, dizziness, belching of gases or sour food, weakness and debility are all signs of catarrh of the stomach. There is no need to be unduly alarmed, for this disease can be cured by Mi-o-na. It is the only remedy that strikes at the root of the evil and actually cures the disease.

It does not contain opium in any form, acids, alcohol, or any other harmful drug or chemical. It is a pure remedy that heals the irritated mucous membrane, stimulates the solar plexus, and aids digestion.

Ask Gibson Drug Store to show you the guarantee under which they sell Mi-o-na. It costs but 50 cents a box, and your money is returned if it does not help you.

### Cured of Lame Back After 15 Years of Suffering.
