#### LIKE ENOCH ARDEN CASE

Concordan's Returns After 10 Years to Find Wife a Widow.

When the Civil War broke out Pittman was one of the most prosperous farmers in Halesworth county. He was 25 years old, and a bridegroom of a week. He took service with company organized by Capt. F. C. Fisher, and fought through several of the bloodiest battles in the early period of the war.

Every week Pittman wrote to his bride, until after the battle of Chickamauga, when his letters suddenly ceased. His last letter before the battle was to the effect that he felt his death was near. He wrote the evening before the battle.

"I have been possessed by a premonition of death for the last three days," wrote Pittman. "I implore you not to be grieved if you receive news that I have fallen. I have tried to get out of this for, but I have failed. I have tried to get out of this for, but I have failed. I have tried to get out of this for, but I have failed. I have tried to get out of this for, but I have failed."

#### TIMELY SUGGESTIONS

Typoid fever is "quarantined" nine times in ten either from the drinking water. And the drinking water comes from the lower regions but from the lower regions of the basin being swept in by rain. The typhoid fever comes from the distant hills.

Now this is not theory. It is fact. It is not to be overlooked. Being someone can prevent fever. If you keep your premises clean and wholesome, using lime freely the flies and the birds will have no germs to carry. Moreover, a decent man will not put a well where filth will wash into it, or filth where it can be carried to his door.

And if your neighbor should report him to the authorities in the name of decency and the Lord. For a man has no more right to kill people by contaminating typhoid fever than one has to pollute a garden with manure.

Malaria fever is not the human system by mosquitoes, almost every case starts with a mosquito. This is a fact, too, not a theory which you may accept or doubt, as you choose. And being true you have only to avoid the mosquito. You can, in many places, kill him before he reaches the water. A little common kerosene will do it. You can see that those are unnecessary suggestions, a within 300 yards of your house. You can avoid a mosquito net, or sleep under it. If one can prevent disease and prevent to do so, he is open for the sickness and death that may result.

#### THE JAMESTOWN EXPOSITION

None of the exhibitions held to mark anniversaries of national events has celebrated a more significant historical date than the fair which is to be opened at Jamestown, Virginia, next year. The recent appropriation by Congress of more than a million dollars for the exhibition serves to remind us that 1607 will be the thirtieth anniversary of the founding of Jamestown, the first permanent English colony in America.

Most American fairs have commemorated events in history, national independence, the landing of Columbus, the purchase of Louisiana, the Lewis and Clark expedition, but they have been exhibitions of modern art and industry, displays of the wonders of the present. The Jamestown fair will be the first to be historical not only in occasion, but in character. It will be designed to afford a study of our national beginnings.

Looking out upon Hampton Roads toward Fortress Mifflin, a group of buildings of finely executed colonial architecture arising from the administration building, which will resemble a colonial or early state Capitol, down to the smaller buildings designed like colonial dwellings.

In the Arts and Crafts Village will be reproduced the industries and home life of early Virginia. Every Southern forefather of the nation is to be placed in orderly collections, and at large, bench and loom, work representing the daily labor of the old colonists will produce wares like those that have survived from olden days.

In the department of education and social economies will be revealed not merely the instructive continuity of Virginia life for two centuries, but the development of the entire nation.

The exhibition will be good in forwarding acquaintance and sympathy between people of widely separated parts of the country. No American, whether or not he is fortunate enough to visit Jamestown, can fail to benefit by the patriotic emblem of a great national story.
