THE TIMES Covers

VOLUME XXXIV.

CONCORD, N. C., TUESDAY, NOVEMBER 5, 1907.

Nearly every man has a little money that he would like to have safely invested, but in a way that he might turn it into cash any day that he might need it, and at the same time have it earn him a fair rate of interest.

Our Certificates of Deposit pay you interest at the rate of four per cent. per year if left three months or longer, and are payable on demand without notice any day that they are presented.

Disc Harrows.

Read What Our Customers Say About Them.

R. F. D. No. 1, Concord, N. C., May 24, '07. Messrs D. J. Bost & Co.,

Dear Sirs: Enclosed find check in full payment for Deering Reversible 8-Disc Harrow bought of you. Please receipt this bill and return same. We are well pleased with the Disc Harrow. It is the best I have ever used. It is the finest thing to bed up cotton ridges with, especially on a clover or other sod, that I have ever seen, does this work to perfection, and "a row at one through," no middles to break out, etc. One man and three heavy or four common mules thus will do the work and one 1-horse plows.

Very Respectfully,

JNO. J. Cox. thus will do the work of three men and two 2-horse

NEWSPAPERS UP AGAINST IT.

The newspapers are "up against Joel Chandler Harris in Uncle Remus's Magazinet" in the matter of the cost of issuing their papers. In addition to the upward tendency in the amount paid to starve him to death to do it.

A man wi' plenty of money in by an arbitrary increase in the price pay debts he's forgot about.

of paper has put a tax of from \$10.

I reckon you think that you-all up of paper has put a tax of from \$10,instances forces such close economy as to almost cut to blood. In addition, the railroad companies about senti two years ago changed the classifica-tion of paper used by all weeklies (that is a favorite trick of increasing reight rates by indirection) so that cost of type and metal and every- inginer'lly find it. thing that goes into the production of a newspaper adds to the burden. wi' me whilst I'm a-doin' of it—I of subscription because the advertising field is so limited little increase can come from advertising. In the big cites, some of this expense can rates, but that is very difficult even up to the hundreds of thousands. The penny city papers have always lost money on circulation but recouped in advertising. They are now considering reducing the number of pages of the pager. Those that have been making big money can go ahead without increasing subscription price by reducing the size of the paper and other economies. but those that have had a narrow margin face a hard business prob-

In North Carolina two of the dailsubscription price-the Fayetteville it can. Observer from four to six dollars and the Wilson Times has increased from four to five dollars. In announcing the increase the Observer

For the past few years the cost of everything that enters into the production of the Observer has in-creased at a rate of from 10 per cent to over 100 per cent. In the past two years the cost of the Observer's telegraph service alone has been increased just 100 per cent., and, not counting anything for the editorial and business departments of the paper, the total cost of producing it has increased by a percentage not quite 100. We have held out against an increase as long as possible; but that step now becomes necessary in justice to all concerned."

The Statesville Mascot and Con-CORD TIMES, both semi-weekly papers, have found it necessary to increase their subscription price from one dollar to one dollar and fifty cents. They really ought to get two dollars a year and would get it if they received proper compensa-

These increases are made because public should recognize this and gladly pay the additional amounts charged, knowing that even then there are no such profits as before the prices roared sky-high. Those papers that have large local advertising and can increase the advertise. the publishers find it necessary. The tising and can increase the advertis-ing rates may not increase the sub-scription price but they are compara-tively few in number. The others must increase the price of subscription or reduce expenses. It is hard problem before them.

The weekly publishers of Clare county, Mich., have signed an agreement, effective January 1, 1908, to charge \$1.25 a year in advance for their papers or \$1.50 when not paid in advance. No subscription is to be carried langer than twelve months. carried longer than twelve months.

Of Interest To Women.

To such women as are not seriously out of health but who have exacting duties of health but who have exacting duties to perform either in the way of household cares or in social duties and functions which seriously tax their strength, as well as to pursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nervine. By its timely use, much serious sickness and suffering may be avoided. The operating table and the

serious sickness and suffering may be avoided. The operating table and the surgeons' knife, would, it is believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription of the serious program of the serious tion" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering child-

birth safe, easy, and almost painless. Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a MEDICINE OF KNOWN COMPOSI-TION, a full list of all its ingredients being printed, in plain English, on every bottle printed, in plain English, on every bottle-wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol, in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and allments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of these endorsements will be sent to any address, post-paid, and
