WHO GROWS MOST CORN?

Money to Be Made by Three Young North Carolina Farmers.

There is money to be made by three young farmers in North Carolina the contest being one that the North Carolina Department of Agriculture has started in a corn growing proposition. For this contest the State Board of Agriculture has made an appropriation of \$100 to be divided into amounts for three prizes, first, \$50; second, \$30.00; third, \$20.00, these amounts to be given to the three boys in the state growing the most corn each on one acre of land, under the regulations sent out by the Department, which are:

(1) The contestant must be between 12 and 17 years of age, and live on the farm.

(2) He must cultivate one acre in corn, doing all the work himself, except he may have help in gathering the crop.

(3) The acre may be in any part of the field; but preferably the roadside.

(4) The acre must be land that would not make more than 35 bushels of corn without the use of commercial fertilizers or other manure. Though in this contest commercial fertilizer, including cottonseed and cottonseed meal, may be used up to \$10.00 worth; and lot, stable manure wood mold, etc., without limit.

(5) A record must be kept of all fertilizers used, kind and amount, work done on the acre, and everything of the kind. Also of the weather, rains, droughts, etc., and the condition of the soil when the crop is worked, the time of planting, cultivation, etc.

(6) The land must be measured, the crop gathered and weighed or measured in the presence of witnesses as the Department of Agriculture or its agent may select.

(7) The crop must be gathered and the report sent into my office before November 15, 1909.

(8) The Superintendent of Public Instruction in your county will co-operate with me in these boys' corn club contests, and will be the representative of the department of Agriculture, and as such, will appoint committees, give further information, etc.

Provisions of the New State Automobile Law.

Raleigh Dispatch.

North Carolina's new law for the regulation of automobiles, passed in the last days of the legislative session and applicable to all the counties except New Hanover and after July 1, is one of wide interest. It imposes a license or registration tax of \$5 on each owner of an automobile, annual renewals to entail a fee of \$1. The county in which the owner lives is to receive \$3 of the initial \$5 payment for the benefit of the road fund, the Secretary of State being required to certify this proportion of the fund to the clerk of the county court. The act requires that the metal registration tag be carried conspicuously on the machine and the registry number suspended under the rear. Speed is limited to 25 miles an hour on rural roads and 12 miles in incorporated towns except in business portions, where eight miles is the limit. There are regulations as to precaution in passing frightened horses and a lot of machinery in detail on the application of the law. Violators are punishable by fine or imprisonment, and the third offense in addition to any other punishment forfeits the registration certificate and the right of the offender to operate a motor car in the State.

Would Use Chloroform.

General Clement A. Evans, commander in chief of the United Confederate Veterans, and chairman of the Prison Committee of Georgia, advocates chloroforming criminals who have received the death sentence. "I believe the law has no right to do more than take a man's life," said General Evans. "No living man should witness it. The death cell should be air-tight and the man who is to die should inhale the very breath of death itself and should die painlessly and alone. Any other death punishment is nothing short of barbarism. Even this is bad enough."

General Evans had already qualified this statement by declaring himself opposed to capital punishment for any crime save that of attack upon women.

Foley's Kidney Remedy will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. Cures backache and irregularities that if neglected might result in Bright's disease or diabetes. Gibson Drug Store.

THE END OF THE WORLD.

Speculations of Scientists as to How It Will Come About.

Cassell's Saturday Journal.

The terrible catastrophe in Italy which caused the inhabitants of the ill-fated city of Messina to believe that the end of the world had come is only a foretaste on a small scale of what many eminent scientists believe will be the end of the world. That eternal problem of how the world will end is in the opinion of many a matter for scientific investigation, and it is curious that the majority believe that the earth will open up and fly to pieces in the most gigantic earthquake ever known, an earthquake that will wipe all life from the globe before the actual destruction of the earth is complete.

The late Grant Allen firmly believed that the world would end by the crust of the earth eventually giving way beneath the colossal weight above it; and Abe Dupin, one of the greatest scientists of France, believes that the world will be broken up by the most violent earthquake that will wipe all life from the globe before the actual destruction of the earth is complete.

Mr. H. G. Wells, whose scientific prophecies are well known, is, however, of a different opinion. He believes the world will end, he declares, by the earth becoming entirely frozen over. It is a well known fact that every year more ice accumulates around the poles; in short, many millions of tons of ice in excess of that of the year previous settle about the earth's extremities each year, and in Mr. Wells' opinion this will gradually extend until the whole world is frozen over and everything is thus destroyed.

Several scientists are of opinion that we shall perish by fire, and this old world of ours with us, Nikola Tesla, the great American, is convinced that the atmosphere of the world being so fully charged with electricity, the result will be a gigantic explosion by spontaneous combustion, when the world will be entirely encircled with flame which in the space of a few seconds will destroy all life.

Two of the world's greatest scientists firmly aver that the end of the world will be brought about by astronomical conditions. Take Professor Marienberg, the noted Austrian student. In his opinion the earth will fly from its orbit, and come in contact with one of the other planets that may chance to be in a direct line. The earth being comparatively small, will, of course, get the worst of it, and split into fragments at the collision. But, of course, directly the world swerved from the orbit all living things would die, and such an earthquake take place as would completely put the Italian catastrophe in the shade. Just as interesting is the prognosis of M. Camille Flammarion, one of the greatest living scientists. After many years of study he has arrived at the conclusion that the world will in the twenty-fifth century come across the path of the comet Belia, which crossed our line a few years ago. On this occasion, however, a collision will take place, and Belia will be infinitely greater than the earth, a shock may be expected which, he calculates, will be 365 times greater than the shock caused by the collision between two trains, each traveling at 65 miles an hour.

Gasoline Plow on the Biltmore Farm.

Asheville Gazette-News.

The farm department of the Biltmore estate, which is always on the lookout for something new and better in the way of stock and farm implements, has concluded to purchase a gasoline plow. It is a composite piece of machinery, used mainly on the flat lands in the West and, drawn or propelled by a gasoline engine, plows, cultivates and seeds the ground. A great wagon has also been purchased, it is said, and this will be drawn by the same engine. In this wagon it will be possible to haul a car load of coal or anything else from the station to any part of the estate in two loads.

As Advertised.

I purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and found it to be all claimed for it in the advertisement. Three of the family have used it with good results in summer complaints.—H. E. Howe, publisher of the Press, Highland, Wis. For sale by All Druggists.

"Teddy" wants to use the paper he works for as a "Big Stick" on his rivals. It was sure to come: The press is now to get the "Big Stick."

CREDIT SYSTEM BAD FOR BOTH FARMER AND MERCHANT.

Wadesboro Ansonian.

What promises to be the largest water power at the minimum cost of development has been discovered at the Richardson place on Rocky River near Wharftown in Ansonville township. The property belongs to Mr. A. H. Richardson, who lives in Charlotte, and he is making arrangements to survey the spot at once. A canal one-half a mile in length will probably give a fall of 150 feet and the situation is one of an unusual nature.

The immense fall will be secured at a point where the river makes a horse-shoe bend and the canal will be dug so as to connect the river again. It is five or six miles from the point where the canal will be made to the end of the bend and it is believed that the two points of the river, not more than one mile and a quarter apart, differ in altitude at least 150 feet. It so happens that a natural canal at both points in the river will make it possible to secure the fall by digging only about one-half mile, thus connecting the two natural canals and turning the water from the first point of the river into that below.

Mr. A. F. Lyman will survey the distance between the points of the river next week and calculate the fall, and Mr. Richardson expects to push the matter forward at once. If this project pans out as expected, it will develop the greatest water power in this section of the State and will mean more for the industrial progress of this entire section than anything now in sight. There is a splendid rock quarry in the line with the canal and enough hard wood timber to justify the starting of many wood working plants.

Mr. A. F. Lyman will survey the distance between the points of the river next week and calculate the fall, and Mr. Richardson expects to push the matter forward at once. If this project pans out as expected, it will develop the greatest water power in this section of the State and will mean more for the industrial progress of this entire section than anything now in sight. There is a splendid rock quarry in the line with the canal and enough hard wood timber to justify the starting of many wood working plants.

SICK-HEADACHE.

Sour Stomach, Heartburn, Canker Sores Mouth, Cured by Mi-o-na.

Such headaches are caused by indigestion and a general disturbed condition of the stomach.

Cure the indigestion and the headache, nausea, heartburn, sour stomach, and that "all in" feeling will vanish.

Mi-o-na tablets will cure indigestion or any other stomach trouble. They will relieve almost instantly. Gibson Drug Store has so much faith in them that they will give you your money back if they don't.

Mi-o-na cures by making the stomach strong enough to produce enough gastric juices to digest all the food you want to eat. It promptly puts new life and energy into the overworked and play-acted walls of the stomach.

Use Mi-o-na for a week, and you can eat what you want any time you want it, and take pleasure in doing it. Your blood will be richer, rodder, purer after taking Mi-o-na, and it only costs 50 cents a large box.

"I was speedily cured of stomach complaint by Mi-o-na. Anything I can say in favor of Mi-o-na is not too strong."—William Hoos, Benton Harbor, Mich.

Twenty-one of the barber shops in Atlanta belong to "the union," and they are opening the way for an influx of new barbers. They have raised the price of a hair cut to 35 cents, and charge 25 cents for trimming whiskers. The price of a shave remains at 15 cents, "on account of the competition by safety razors."

There is no safety hair cutter, they say, and the Atlanta man can pay 35 cents or be Elbert Hubbards. If it keeps on Atlanta people will have to go to Chattanooga for their hair cuts, as they go for their drinks.—Charlotte Chronicle.

BIG WATER POWER ON ROCKY RIVER.

Wadesboro Ansonian.

What promises to be the largest water power at the minimum cost of development has been discovered at the Richardson place on Rocky River near Wharftown in Ansonville township. The property belongs to Mr. A. H. Richardson, who lives in Charlotte, and he is making arrangements to survey the spot at once. A canal one-half a mile in length will probably give a fall of 150 feet and the situation is one of an unusual nature.

No Need of a Veterinary.

"We run a Livery, Feed and Sale Stable, have a city transfer and handle hard and soft coal, and consequently we need a good many horses," says Bodell Bros., of Mount Carmel, Ill. We have used Sloan's Liniment and Veterinary Remedy for years and find they give perfect satisfaction. As long as Sloan's remedies are in our barn we do not need a veterinary surgeon. We are never without them and conscientiously recommend them to all horsemen.

Colby Bros., of the Mineral City Livery, Port Dodge, Ia., writes:—"I have used Sloan's Colic Cure, Liniment and Fever and Distemper Remedy for the past ten years, and since I have been using them, I have never had a veterinary in my barn, and have not lost a horse from either colic or distemper, and will say that any man with a horse or horses who keeps Sloan's Liniment and Veterinary Remedies in his barn will never have occasion to call a veterinary."

Sloan's Treatise on the Horse, sent free to any horseman. Address Dr. Earl S. Sloan, Boston, Mass.

PARAGRAPHS.

Corporations carrying on interstate business must be good-like the rest of us.

Mrs. Taft is going to parade right straight into the hearts of the American people.

Smile, but don't show your teeth.

But for the inventive faculty of man in the matter of feminine clothing, how would fair women exist or enjoy life?

After all, Mr. Roosevelt has given the country the first really funny administration that it has had.

Generally speaking, the country was probably never readier for an inauguration.

Oyster Bay is making a desperate effort to stay on the map.

Undismayed, Uncle Joe is preparing to cut that House committee melon.

American armor plate for the British navy? Send the glad tidings to the London Saturday Review.

Harriman's vacation is explained. He was simply getting in shape to digest another great railway system.

Bourke Cockran censures the press for too great leniency to public men. What a clever thrust at the muckrakers.

Perhaps the Democratic minority in the House will discover that they have grabbed the tarred end of Uncle Joe's big stick.

Pay High for Opera Stars.

In arranging for a private entertainment recently the prices of a dozen or more grand opera stars for singing at such an entertainment were obtained.

Star	Price
Enrico Caruso	\$3,000
Geraldine Farrar	1,500
Emmy Destinn	1,500
Olive Fremstad	1,500
Johanna Gadski	1,500
Berta Morava	1,000
Marie Rappold	600
Alexandro Bonel	1,500
Carl Jarn	750
Pasquale Amato	600
Antonlo Scotti	400
Giuseppe Campanari	400
Hugo Goritz	400
Robert Blasi	400
Allen Hickley	300
Louise Homer	300
Ricardo Marten	600

Floating Lumber 17 Miles in Three Hours.

North Wilkesboro Hustler.

The Giant Lumber Company is now extending the flume from the Whittington mill six miles further into the Blue Ridge timber. It will then be the longest flume in North Carolina, if there be no mistake—a flume in the extreme western part of the State, Haywood county, being 15 miles long, while this will be about 17. This flume is a fine and extensive piece of work. The men at the head of the flume now begin work at about 6 o'clock in the morning putting in the lumber, while the men at the end here in town do not begin until three hours later, it requiring this much time for the plank to float down.

It Saved His Leg.

"All thought I'd lose my leg," writes J. A. Svenson, Watertown, Wis., "Ten years of pneumonia, that 15 doctors could not cure, had at last laid me up. Then the Bucklen's Arnica Salve cured it sound and well." "Infallible for skin eruptions, eczema, salt rheum, boils, fever sores, burns, scalds, cuts and piles. 25c at All Druggists."

Announcement is made that J. M. Maupin, for 12 years a well known real estate and insurance broker in Salisbury, will move to Oklahoma to engage in business.

A little erra of good humor will do this country lots of good.

Simple Remedy for La Grippe.

La grippe coughs are dangerous as they frequently develop into pneumonia. Foley's Honey and Tar not only stops the cough but heals and strengthens the lungs so that no serious results need be feared. The genuine Foley's Honey and Tar contains no harmful drugs and is in a yellow package. Refuse substitutes. Gibson Drug Store.

Cloud Hotel.

Quick service, best quality of work. Collar, Cuff and Flat Work unexcelled.

W. S. BINGHAM, Manager

Aug. 4.

Cedar Park for a Cotton Station.

Wadesboro Post.

Professor J. N. Ingram, of Cabarrus county, is in the city. He has explored many lands and sailed over many oceans, having visited Australia, New Zealand, Alaska, Mexico, and many isles of the sea. His illustrated work on the Australian and Polynesian countries and races have appeared in numerous American magazines and national daily publications. He has a retreat on Rocky River, near Concord, to which he retires occasionally to read, and ruminate on his observations of the world. He is now negotiating with the National Government for the sale of his farm at Cedar Park to the Agricultural Department for a Federal cotton experiment station.

Cotton cultivation and fertilization he says, is best suited to the Piedmont section where it can be tested and proven. The professor claims that the territory parallel to Cabarrus latitude will traverse parts of North Carolina, South Carolina, Georgia, Tennessee, Alabama, Mississippi and Arkansas, covering the cotton growing region from Fannin County to the Cherokee nation; that an experiment station so located would educate a large area of cotton producers in the knowledge of how to best select and cultivate the fleecy staple, and be of great value to the cotton industry, and to cotton planters throughout the Piedmont and upper Mississippi river sections. Who he will be, he appoints himself as manager of the station he has not divulged.

The Farmer's Wife

Is very careful about her husband. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churning is sour it will taint the butter that is made in it. The stomach is churned in the stomach, and digestive and nutritive forces are applied to it. The churning of butter is, it is not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churning—absolutely removes every tainting or corrupting element. In this way it cures swellings, pimples, eruptions, scrofulous blotches, sores, or open eating ulcers and all humors or diseases arising from bad food.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and depondent, have frequent headaches, dizziness, nervousness, or distress of stomach, such complaints or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness or indigestion. Buy the usual accompanying testimonial literature, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptoms are Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Kidney and Bladder Remedy. All the several medicinal and surgical preparations have been carefully analyzed and approved by the United States Dispensary, New York City. This is absolutely true and will be readily proven to your satisfaction if you will but mail a postal card, enclosing 3¢, to Dr. J. C. Rouse, for a free copy of his book of extracts from the standard medical authorities, giving the names, uses and directions of every remedy in his world-famed medicines and showing what the most eminent medical men of the age say of them.

Repeats and That Settles It.

Gowan's Pneumonia Preparation repeats because it is a remedy of merit and will do all claimed for it. Being external it cannot form the drug habit. Containing its curative agents in a vehicle of animal fats, it penetrates quickly, scatters inflammation and congestions and reduces fever. It gives instant relief in croup, coughs, colds, sore throat and pains in the lungs. Absolute proof from high test authority that it will prevent and cure pneumonia in worst stages. For burns it relieves the pain and heals at once. For rheumatism, sprains, bruises, aches, muscular sores and stiffness, it gives quick relief. These statements are verified by thousands of letters by users. A trial bottle will convince. Once a customer, always a customer. You cannot afford to risk imitations in the face of croup or pneumonia. Gowan's is in a class by itself. There are no just as goods. Your money back if used as directed without results. Sold by all druggists, from \$1 to 25c.
