

The Open Door
SCIENTIFIC NEW DISCOVERIES.

By the electro-magnetic telegraph an operator can exactly locate a fracture in a submarine cable nearly 3000 miles long. A few fossils sent to an expert geologist enable him to accurately determine the rock formation from which they are taken. This he can describe as perfectly as if the rocky formation was before him on the table.
So also in medical science. Disease has certain unmistakable signs or symptoms. By reason of this fact the physicians and specialists connected with Dr. Pierce's Invalids' Hotel and Surgical Institute at Buffalo, are enabled to accurately determine the nature of many chronic diseases without seeing and personally examining their patients. In recognizing disease without a personal examination of the patient, they do not claim to possess miraculous powers. They obtain their knowledge of the patient's disease by practical and well-established principles of modern science. Certain diseases display certain peculiar traits. Subjected to scientific analysis they furnish abundant data to guide the judgment of the skillful practitioner. This method of treating patients at a distance by mail, has been so successful that there is scarcely a city or a village in the United States that is not represented by one or more cases upon the records of practice at the Invalids' Hotel and Surgical Institute. Such rare cases as cannot be treated in this way, which require surgical operations or careful after-treatment, or electrical therapeutics, receive the services of the most skillful specialists at the institution.
Dr. E. V. Pierce, long ago established this Invalids' Hotel and Surgical Institute with a full Staff of Physicians who were expert in their specialties. These physicians may be consulted, by letter, free and without charge whatever, if you wish a specialist's advice upon any chronic malady. The same system of "specialties" is observed as in the departments of a medical college. The professor who would assume to lecture in all departments with equal ease and proficiency would be severely ridiculed by his colleagues, and it is just as absurd to suppose that the general practitioner can keep himself informed of the many new methods of treatment that are being constantly devised and adopted in the several departments of Medicine and Surgery.
People who have been patients at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., have much to say in regard to this wonderfully equipped Sanitarium, where all the latest electrical apparatus, as well as electric water baths, Turkish baths, static electric machines, high-frequency current, and other most modern and up-to-date apparatus are used for the cure of chronic diseases. The treatment of the chronic diseases that are peculiar to women have for many years been a large factor in the cures effected at the Invalids' Hotel and Surgical Institute.
The violet-ray treatment, which is another interesting proceeding, is carried out by concentrating the light, rich in the violet or chemical rays, from an arc light with a specially prepared carbon, upon any portion of the body that may be the seat of pain. Sufferers from neuralgia, sciatica, rheumatism, strains, sprains, also from those obscure exhausting pains (the origin of which cannot at times be accurately determined) frequently find immediate relief from a single treatment and usually with a little persistence in the use of this aid, comfortable health or perfect recovery is obtained.
Then, there is the incandescence light bath, consisting of a cabinet in which the patient is bathed in the combined rays of many electric lights. It has produced really wonderful results in diabetes, sciatica, rheumatism, obesity, anemia, and some forms of kidney and heart trouble. It has also proven valuable in chronic bronchitis, bronchial asthma and the various skin diseases. As a general hygienic measure its efficiency can scarcely be over-estimated.
In medicine there has been rapid and real progress during recent years, and Dr. Pierce has kept up with the times in that he has had the manufacture and ingredients in his well-known remedies improved in a modern laboratory by skilled chemists, the greatest care being exercised to see that the ingredients entering into his well-known medicines Dr. Pierce's Favorite Prescription as well as the "Golden Medical Discovery" are extracted from the best variety of native medicinal roots, gathered with great care and at the proper season of the year, so that their medicinal properties may be most reliable.
Great care is exercised not to over-encourage those who consult the specialists of this institution that no false hopes may be raised.
Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the cloth-bound.
Write the Invalids' Hotel and Surgical Institute, Dr. E. V. Pierce, President, at Buffalo, N. Y.

EXPOSITION SCHOOL FOR CORN CLUB BOYS.

Plan to Have a School of 1,000 Boys Who are Prize Winners in Boys' Corn Club Contests.
Columbia, May 2.—One thousand boys in school together is not a rare sight but a gathering of one thousand and school boys around a banquet board is unique. And when it is said that these one thousand boys are Corn Club boys, from all the corn growing States, what a sight it will be.
This is the plan of the National Corn Exposition management to have a great Exposition school for prize winners in the county contests of the Boys' Corn Clubs, as conducted throughout the Southern States by the Federal Farm Demonstration bureau, and the city council of Columbia, where the Corn Exposition is to be held next January, has announced that the city will give a banquet to the one thousand or more boys attending the Exposition school.
The school will consist of the two boys in each county winning first and second place in the Boys' Corn Club contests. The school will open on Monday, January 27th, 1913, the opening day of the Exposition, and will continue one week. The faculty will consist of agricultural experts from all parts of the country who will be in attendance on the Exposition, which is much more than a mere corn show. It is a great national agricultural exposition, not being confined to corn alone, and the opportunity which it affords for agricultural education is unexcelled.
The boys attending the Exposition school will be quartered in a large building, near the main exposition buildings, and they will be in charge of representatives of the Farm Demonstration Work. The boys will be organized into a semi-military organization, and while the men of the demonstration department will have close supervision over them, it is planned that the boys themselves will be given certain responsibilities. They will visit the exhibits in the mornings and in the afternoons and will have parades, and will be given special instruction in corn judging, stock judging and the like. The boys will be asked to prepare reports of what they see and the best of these reports will be sent to the home papers for publication.
Then on Saturday night, the last night, comes the banquet, given by the city of Columbia in honor of the Corn Club boys. There will be speeches by some of the most notable men in the country, and in fact it will be a genuine banquet, just like grown-up folks have.
Prof. O. B. Martin, assistant in charge of the Boys' Department of the Farm Demonstration Work, will be in charge of all preliminary arrangements for the Exposition school, and he has entered upon the work with characteristic enthusiasm and energy.

CHURCH BUILT IN DAY; SERVICE IN EVENING.
Is Painted, Papered, Carpeted and Furnished.—Moving Pictures Are Taken.
Spartanburg, S. C., May 2.—A church, not a stone or stick of which was standing at sunrise this morning, is being worshipped in tonight by a great congregation that fills the building and overflows into the street.
It had been announced by the members of Bethel Methodist Church that they would erect a building in one day. The church to be known as El Bethel. There were those who doubted, but when more than two hundred workmen, well organized, gathered at the scene this morning it became apparent that the undertaking might be accomplished.
It is estimated that 5,000 persons visited the building during the day. Motion picture machines played upon the great crowds and upon the building at every stage of its erection. Tonight the building stands completed, painted, papered, carpeted and furnished throughout.

MUST BELIEVE IT
When Well-Known Concord People Tell It So Plainly.
When public endorsement is made by a representative citizen of Concord the proof is positive. You must believe it. Read this testimony. Every man, woman or child with kidney trouble will do well to read the following:
J. W. Patterson, 332 N. Church St., Concord, N. C., says: "When I used Doan's Kidney Pills some years ago, they did me great good and I have not been bothered by my kidneys since. I am glad to confirm all I have previously said about this remedy. I got my supply of Doan's Kidney Pills at Gibson's Drug Store and they did me more good than any other kidney medicine I ever used. I took them for pain and weakness in my back and they corrected the trouble."
For sale by all dealers. Price 50 cents, Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.

Mr. Frank Petrea has purchased Mr. W. A. Stone's house on Church street.

A SUPFRAGETTE TELLS ABOUT THE LONDON ROIT.

Graphic Story of the Smashing of Windows, Etc., in London in March.
London, May 2.—Just what treatment the suffragettes who were convicted of rioting in connection with the great demonstration of the militant element in London last February and March at the hands of the British prison officials was today told the United Press by Miss Alice M. Wright, one of their number. Miss Wright is the daughter of a noted merchant of Albany, N. Y., and is a graduate of Wellesley College. For a number of years Miss Wright was prominent in society in Albany and then she went to Paris where she studied art. As a sculptor she earned by her own efforts a recognized place in the world of art. Volunteering to do what she could for the "cause," Miss Wright went from Paris to London to take part in the Mrs. James B. Duke at English Court, New York World.
Mrs. James B. Duke of No. 1009 avenue, New York, wife of the head of the British-American Tobacco Company, was one of those presented at the third British court by Countess Benckendorff, the wife of the Russian ambassador, who substituted for Mrs. Whitelaw Reid, who was unable to make the presentations owing to an attack of rheumatism.
Mrs. Duke was Mrs. Nanaline Holt Inman, a famous Southern beauty. She married Duke in 1907 soon after his divorce from his first wife, Walter Inman, her son by her first marriage, is now seventeen years old.
She wore a beautiful dress at her presentation, composed of white and gold brocade with pearls and diamonds embroidered upon the corsage. A manteau de cour of geranium red velvet lined with gold tissue made a very striking effect and her ropes of pearls were much admired.
Mrs. Duke had been staying at the Ritz Hotel but toward the end of last week she went to Paris.
The Titanic tragedy not only put an end to all Anglo-American entertainments but sent most of the Americans away from London, either abroad or motoring for a change of scene. The corridors of the leading hotels which are frequented by Americans are marked by an entire absence of the usual gaiety. Instead knots of sad-faced men and women in semi-mourning discuss the heart-rending revelations at the inquiry at Washington. For several nights the bands have been dispensed with, while theatre parties and pleasure arrangements of every kind have been abandoned.

Senate Gives \$6,000,000 to Mississippi River Fund.
Washington, May 2.—Carrying \$8,004,010, in addition to the appropriations provided for by the House, the rivers and harbors appropriation bill, aggregating \$32,126,653, has been agreed to by the Senate committee on commerce and will be reported in a few days.
The largest single increase to the House measure was \$2,500,000 for the Mississippi river, making \$6,000,000 for that waterway.
Among the appropriations as increased by the Senate committee aggregate:
Inland waterway, Norfolk to Beaufort, N. C., for a dredge \$200,000; Cape Lookout harbor of refuge, \$300,000; Cape Fear river, \$300,000.

A Live-Wire Booster Here.
Mr. N. Buckner, the ad. man, head of the Buckner Advertising Agency, of Asheville, is here conducting the advertising campaign of Cannon & Fetzner's big sale. Mr. Buckner has been in the advertising business 14 years. A rather remarkable fact in his work is that he is now furnishing copy for the man he wrote his first "ad" for. Mr. Buckner is also secretary of the board of trade of the mountain city and between lines in writing copy he boasts his town. Asheville has the distinction of being the first town that ever created an advertising tax by direct vote of the people. When it comes to boosting Mr. Buckner is of the 60 h. p. variety and when he starts talking on Asheville's people, progress, business opportunities and advantages he recognizes no speed limit.

Not in the Race.
A number of friends of Mr. A. R. Hoover have expressed themselves as anxious to see him enter the race for sheriff. When asked about the matter last night Mr. Hoover stated to a representative of this paper that he did not intend entering politics and was going to stick strictly to business. From the decisive manner in which he talked about the matter it was plainly apparent that he thought too much of his new spring Stetson to toss it in the ring and let some people practice houn' dog methods on it.

It Pays to Advertise.
"Buyers were waiting for the doors to open Friday morning when the force came to go on duty at Administrator's Sale of the Cannon & Fetzner Co.—a splendid testimonial to the value of printers ink and the columns of The Times and Tribune, especially," says Mr. Aubrey Hoover, who further states this sale includes everything in new spring suits, straw hats, footwear, etc.—nothing reserved.

Titanic Dead Buried.
Halifax, N. S., May 3.—Impressive services were held today over fifty-nine bodies of the Titanic dead, some identified, others unknown. They were buried in two cemeteries here.

Dr. J. T. R. Neal, Prop. Riverside Drug Co., Greenville, S. C., writes recently, "I have been a practicing physician and druggist for over 35 years and have sold and administered many kidney medicines but none to equal Foley's Kidney Pills. They are superior to any I ever used, and give the Sold by Gibson Drug Store.

Other Values added to the ones heretofore mentioned. I will finish out the April Sale now going on. Don't miss them!

THE STRIKE OF THE NEWSPAPER PRESSMEN.

Policemen Guarding Chicago Newspaper Offices.—No General Strike of Pressmen.
Chicago, May 3.—The union pressmen are still out on all newspapers except Socialist. Publishers got out morning editions with strikebreakers, but the union wagon drivers and union news boys struck. The pressmen declare that the publishers want open shops. The allied printing trades are considering a general strike. Policemen are guarding the newspaper offices.
Indianapolis, May 3.—There will be no strike of the union printers and stereotypers in Chicago if the publishers get strike breakers to take place of striking union pressmen, said President James Lynch, of the International Typographical Union, today. He said that the printers would respect their contracts.
Chicago, May 3.—The publishers have secured an injunction ordering the union wagon drivers not to interfere with the distribution of newspapers, following earlier interference when the papers were torn up.

VAPOR TREATMENT For Catarrh, Colds, Coughs, Sore Throat And Bronchitis.

Everybody knows that breathing HYOMEI a few times a day through the little hard rubber pocket inhaler will in a short time drive out catarrh. Many people regularly use the vapor treatment at night in conjunction with the inhaler, claiming that it hastens results.
This is the vapor treatment: Into a bowl three quarts full of boiling water pour a scant teaspoonful of HYOMEI, cover head and bowl with towel and breathe for five minutes the soothing, healing, antiseptic HYOMEI for any nose or throat ailment. HYOMEI is guaranteed by Gibson Drug Store to put an end to catarrh, or money back. A bottle of HYOMEI costs 50 cents; a complete outfit, which includes inhaler, \$1.00.

Tragic Death of a Child.

Kinston, May 2.—An unusual accident caused the death of a 10-month-old son of Dr. and Mrs. W. W. Whittington, prominent people of Snow Hill, according to a long distance message from that town. Mrs. Whittington left the child sitting in a perambulator for a few moments and was horrified upon her return to find the little one hanging, head down from the side of the carriage. It was presumed that the baby made an effort to get out of the carriage, and in so doing was caught by its clothing in the strap of the vehicle and held by the feet, a garment twisted about its neck causing death by strangulation. The mother was frantic with grief.

The Danger After Grip.

Lies often in a run-down system, weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the glorious tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore to health and good spirits after an attack of grip. If suffering, try them Only 50 cents Sold and perfect satisfaction guaranteed by all druggists.

Liners to Sail in Couples?

London, May 2.—In the House of Commons today Sydney Buxton, the president of the board of trade, promised to consider a suggestion that Great Britain should arrange with the United States that during danger periods and the time when icebergs were about great liners should travel two together within easy reach of each other. He added, however, that he thought the plan was hardly feasible.

W. T. Gilly, a prominent dealer in Pennington Gap, Va., was so bothered with kidney and bladder trouble that could not attend to business. He says: "I had severe pains in my back and kidneys and had to get up ten to fifteen times each night. Saw Foley's Kidney Pills advertised and bought two bottles, and soon felt great relief, and was entirely cured. No longer disturbed at night but slept till morning." Sold by Gibson Drug Store.
