Three Generations Testify to the Efficacy of-

DR. CALDWELL'S Syrup Pepsin

The Perfect Laxative

in maintaining the family health. A combination of simple laxative herbs with pepsin, free from opiates and narcotic drugs, and pleasant to the taste, it acts easily and naturally, restoring normal regularity. First prescribed by Dr. Caldwell more than twenty-five years ago, it is today the indispensable family remedy in countless homes throughout the United States.

Sold in Drug Stores-50 cts. and \$1.00

A trial bottle can be obtained, free of charge, by writing to Dr. W. B. Caldwell, 457 Washington St., Monticello, Illinois

Stop! Read! Think! Act!

They say, who have come back from Over There, that at night the troubled earth between the lines is carpeted with pain. They say that Death rides whistling in every wind, and that the very mists are charged with awful torment. They say that of all things spent and squandered there young human life is held least dear. It is not the prospect for those of us who yet can feel upon our lips the pressure of our mother's good-bye kiss. But, please God, our love of life is not so prized as love of right. In this renaissance of our country's valor, we who will edge the wedge of her assault make calm acceptance of its hazards. For us, the steel-swept trench, the stiffening cold-weariness, hardship, worse. For you, for whom we go, you millions safe at home-what for you?....We shall need food. We shall need care. We shall need clothes for our bodies and weapons for our hands. We shall need terribly and willbout failure supplies and equipment in a stream that is conshifts and never-ending. From you, who are our resources and re-Hance, who are the heart-and hope of that humanity for which we smite and strive, must come these things." (Signed) CITIZEN SOLDIER NO. 258

ACTION IN SIBERIA SOON.

for Impending Move is Evident. Harbin, Wednesday, Feb. 20.-The Japanese, according to reliable authority, intend to take action in Siberia at an early date, and there are evidences that the Japanese have long

been preparing to carry out this move. The situation in Siberia is considered extremely grave, owing to the inability of the Cossack General Semenoff, head of the anti-bolsheviki movement in that vast territory, to secure allied support for which he has appealed to the Japenese.

ANNUAL REPORT OF THE JACKSON TRAINING SCHOOL

Made to the Trustees by the Superintendent, Mr. Chas. E. Boger.

Superintendent Boger, of the Jackson arathing School, in making his report to the Board in November, 1917, Johnson nad the tollowing to say:

Four years ago, December the oth, we took charge of the work at the Cumberland Jackson 'training School, and 'since Pasquotank that time we have been continually on Union the job without any vacation or let-up Sampson

With you permission, we beg leave to Randolph mount a few facts for your informs. Duplin tion relative to the committons at the Lee time I took charge and now, There McDowell were about 150 bushers of corn in the Cabarrus crib and about 15 bushels of peas in Caldwell the bin; the roughness was not sum- Wake cient to make an impression in our Burke large roomy barn. There was only one Edgecombe ham for the supply of meat for the Beaufort year-no lard and no hogs from which to obtain any more. No coal was in store for winter use. The store room was pretty well supplied with canned goods for winter, but the bill book was equally well filled with bills for same to be paid out of the funds for the next year. No potatoes of either kind were to be found and no vegetables either canned or dried. There were seven head of cattle, six of which were milkers. Six horses belonged to the School, and two were bought at the time the Committee appointed by the Board met at the school to make the transfer.

The school had an enrollment of 62 boys and an appropriation of an \$18,-000.00 maintenance fund. Soon a new cottage was opened, the enrollment was increased to 85 boys. All back accounts were paid and the school was living within its income until the abnormal condition in prices made itself percepibly felt among all classes and conditions of Society and Industry.

Today, there is between 7 and 8 hundred bushels of corn in the bin-a barn full of roughing-so full too, that scarcely could any more be placed in. Soy beans and near 100 bushels of peanuts, 1000 cans of tomatoes, 25 bushels of green beans dried and in sacks, about 100 gallons of kraut, 25 bushels Irish potatoes, about 200 bushels of sweet potatoes, besides fruit and pellies that were canned at the cottages.

We have 15 promising hogs for slaucured in their places. Our farm has steadily increased in productivity until its value is about two thousand dollars more than it was four years ago aside eral sanitary and health conditions, from the natural increase in the value He expresed his great pleasure at seeof the land. Cur old worn out fields ing how well both grounds and buildon which we have sown and never ings were kept. reaped are beginning to take on the appearance of a farm. We hope to get some return from a six acre field sown in wheat, that has been nursed to this prospective hope.

Our Maintenance Fund was increased last year from \$18,000 to \$22,-500.00, but with the price of necessitie on the market today, no one would say that the increase in the maintenance was anything like commensurate with the increased cost in living—with \$5.00 flour selling at \$12.00 per barrel-76 cents meal selling at \$1.80-8 1-3 cent fat back 27 cents; \$2.10 shoes, \$3.98 ficate in the Concord National Bank.

\$5.00 hulls at \$20.00. This difference in cost is not so noticeable until you begin to multiply your items by the multiple of 100. Even stoe strings at this ratio is quite an item.

During this time we have built the Stone Chapel, thanks to the goodness of the King's Daughters, built a power line to Concord-some three miles distant-and installed electric lights, built and equipped a new cottage and ereced a fifty thousand gallon steel tank, installed several pumping outfits and dug a temporary reservoir for immediate water supply.

With all the increased cost, we are through another year and find ourselves in no forse condition financially than we were one year ago. What of every one who is interested in the the next year has in store for us, we work of the Jackson Training School, cannot say. Our financial condition we beg to submit this report. has been greatly helped by increased returns from the work that the boys of the school have done. Had it not One of the soldiers from Camp been for this help we would have been Greene who is visiting in Concord is considerably in debt. Our returns from finding his stay here not the most work, sales, etc., at the school since November the 1st, 1915, have been \$2317.86. We could not find it possible The young fellow, whose name is un- to open our new cottage on the funds

> A detailed report of our boys for the eleven months of the present year is

as follows: Number of boys in charge December 2st, 1916 97 Number admitted during the year 40 Number returned for violation of parole Total number in charge during Discharged Paroled 28 Total number removed from the stitution during the year 43 Number on roll November 15th Average stay at the school of boys, paroled during the year 3 years, 2 months.

Average age of boys on current roll Nov. 1st, 1917: 15.1 qears. Average of boys on roll when admitted 12.8 years.

Number of applications for admisison received during the year 128 Number of boys admitted during the year

There were 46 counties represented at the school during the year. The boys from these counties are distributed as follows: Mecklenburg 14 Guilford 9 Iredell the authorities all the dripping she may Davidson Gaston Craven

Lenoir

Catawia Stanly Wayne Rutherford New Hanover Durham Martin

Wilson

Cleveland

Rockingham

Yancey

The work at the school has been considerably harder than any previous year owing to the unrest and unsettled conditions caused by the war. Several of the officers of the school have been called to the colors and all are under the draft. The changes and prospective changes keeps the mind of the boys in an unsettled condition.

Our School department, Sunday School, farm, wood-shop, etc. have all lived up to their former record and no complaints can be lodged against either for inefficiency

As an example of the character of work being done in our School department we call you attention to the example of one boy. A little over two and a half years ago this boy entered About 75 bushels of peas, 30 bushels of the school from a city that is conceded to have a good city school system. After a half of each day in our school department for two and a half years he returned to his home town with an | honorable parole, entered five grades above where he left off and is standing well in his class. In school he gained two and one half grades during 17 ghter and 8 left for future purposes, his stay with us, grading that he would We have 21 head of cattle, 10 milkers, have made a grade a year at home-4 heifers ready to be fresh, 5 calves which was very doubtful. This is only and one ox. The number of our horses one of the many cases we could menare eight. Some old ones have been tion where a like advancement wac | traded and young ones have been se- made by the boy while at the school, Dr. W. S. Rakin, Secretary of the State Board of Health, recently paid us a visit and graded us high in gen-

> The health of the boys continues good and challenges the whole country for a finer record.

You will note that we have not included a detailed financial statement in our report. This is because our Treasurer has made a fuller report than ever before and our statement agrees with us

We are pleased to report that we have, received a check of \$1000 from the estate of our late friend and benefactor, Mr. Caesar Cone. We have deposited this amount on certi-

We were recently made glad to learn that Mr. Bernard Cone, one of the executors of the estate of Mr. Caesar Cone, will continue to furnish the school the shirting and denims for the boys, work uniforms. This had been furnished by Mr. Caesar Cone

since the beginning of the school. J. G. Parks, of the Parks-Belk Co., called to me on the street and made known his desire to make a donation of \$50.00 to the school. The school has this check in the cash account. Col. Al Fairbrother, of Greens-

boro, recently made the school the possessor of a folding machine for our glad to report that we have come printing office. This machine has a value of several hundred dollars. Craving the loyalty and the prayers

Respectfully. CHAS. E. BOGER. Superintendent.

are lightened when she turns to the right medicine. 10 cents for trial package of the tablets. OBION, TENN.-"I suffered from woman's trouble, congestion, ulceration and a catarrhal condition for three years. I took several different medicines but none of them did me any good. I have taken four bottles of 'Favorite Prescription,' one of 'Golden Medical Discovery' and used the 'Lotion Tablets' and 'Healing Suppositories,' and they have done me more good than all the other remedies.

"I hope this will help some woman who is suffering to find the road to health."—
MRS. M. C. PHIPPS, Box 65, Route 2. PORTERVILLE, MISS.—"During my first expectancy I suffered with a heavy, bearing-down feeling and backache all the time. Before my second baby came the doctors said I could not live. I was in Florida at the time. My mother came and carried me back to Mississippi with her and began giving me 'Favorite Prescription,' and it saved my life. I took six bottles. The 'Prescription' is worth its weight in gold; it saved my life when the doctors had given me up."—Mrs. Eva. Grantham. EVA GRANTHAM.

SPANISH STEAMER ASHORE

Had on Board German Prize Crew From the Pacific Ocean.

Copenhagen, Feb. 26.—The Spanish steamer Igotz Mendi, with a German prins crew from the Pacific ocean on board, is ashore near the Skaw lighthouse. Two of the prisoners abourd are Americans.

The prisoners on the Igota Mendi were taken from six ships which had been sunk. Several of the prisoners have been abound the vessel for eight months, while she cruised the Pacific Twenty-two persons, including nine

women, two children, and two Americans have been landed by a life boat

The Danish authorities have interned the German commander of the Igotz Mendi. The German prize crew refused to leave the ship. There had been an epidemic of deri deri and scurvy abourd the vessel.
