New York, Nov. 12.—During kets of he war period. Under enormous buying, the market has advanced, with little, if any reaction, well above the twenty-six cent level. Heavy daily realizing sales, particularly around the twenty-five cent 'evel, have been readily absorbed in what has apparently reached proportion of a trade panic. At southern markets reflects this condition in an absence of sellers to fill the demand. The basis has advanced and cotton is difficult to buy. Supplies at many interior points are reaching the point of dep etion, and the south is now financially and psychologically in a state to hold the balance of its crop for higher prices. There is practically no pressure of spots or short selling. Under these to cotton and the trade in a state of has been from heavy realzing sales Bulls are confident, and, fortified with large profits, are prepared to buy on all breaks. Liverpool has shown less enthusiasm than other markets, as English trade has falled to keep slace with ours, but with the can cotton, and well beleow an ex port basis, it is fe't that prices there would be very sensitive to any further improvement in the English trade, Undoubtedly, the situation "in the near east has been a restraining factor abroad.

the census ginning figures of \$,139,under 10 million bales. The world has so small that the market must go to 25.60; May 25.40; July 25.05. ho ding movement and bullish speculation will also continue to be big factors in the market's strength.
