Bible Thought For The Day

THE BURDEN BEARER.—Cast thy burden upon the Lord, and he shall sustain thee: he shall never suffer the righteous to be moved.—Psa. 55:22.

AN IMPRESSIVE RECORD.

The health record maintained at the Jackson Training School, the State's home of correction for boys located near here, is one calculated to hold the attention of those persons who think such schools should do more than merely house a boy for a certain number of years.

Carelessness is responsible for many auto accidents. Here are eleven rules that will cut down the number of accidents if followed.

Respect the rights of pedestrians. Cheerfully obey the traffic officers. He protects you as well as pedestrians.

Keep to the right of the road. When turning begin bearing in toward the turn at least a block away.

Give pedestrians plenty of room—if in doubt stop. Mutual forbearance and courtesy make friends.

Read the motor vehicle law and traffic regulations. On slippery roads drive with extreme caution.

Child on the highway is a danger signal. Slow up and if in doubt stop. Reckless drivers are the enemies of all careful motorists.

BECOMING MORE RELIGIOUS. According to reports just made public by Dr. E. O. Watson, statistician of the Federal Council of Churches, America apparently is becoming more religious.

According to Dr. Watson the present membership of all religious bodies, according to the latest available figures, is 47,461,558. This increase is approximately fifty per cent, greater than the average for the preceding five years.

According to these figures, church representatives point out that each day in 1922 an average of 3,345 persons joined the various religious bodies, 42 ministers were ordained or licensed, and 26 congregations were organized.

The shortage in clergy is not as great as the fact that there are 29,007 more congregations than ministers would indicate. Many pastors, especially in rural districts, have charge of two or more congregations.

Opening to different methods adopted by the various bodies in computing their membership it is hard to make comparisons. The Roman Catholic Church shows a membership of 18,104,804 persons.

The thirty bodies related to the Federal Council of Churches report a total membership of 20,721,142 persons. They have 119,436 congregations, served by 119,077 ministers.

Their gain in membership over last year is 869,261. Their total constituency is now 59,021,718 persons.

The total religious constituency of the country is placed at 98,878,867 persons.

Church officials define constituency to mean all baptized persons, all adherents, and all those who, in the supreme test of life or death, turn to a particular communion.

When the figures of the various churches are placed on a comparable basis through methods agreed upon by church and government officials, the constituency of the great bodies is reported as follows:

Protestant 78,113,481. Roman Catholic 18,104,804. Jews 1,600,000.

Eastern Orthodox (Greek and Russian) 456,074.

SHOWS REPUBLICAN TENDENCY. While we believe President Harding presented the matter of American representation on the International Court near the close of Congress because he knew Congress would not act on it before December, and it would give him a good talking point this summer, we also believe that Mr. Harding wants the resolution adopted, because he sees now that our foreign policy has been all wrong.

OUR STATE MADE AN ENVIABLE RECORD

In the Teaching of Agriculture in the Rural High Schools. Raleigh, N. C., March 31.—A recent study of the teaching of agriculture in rural high schools of twelve southern states last year, made by the Federal Board for Vocational Education, shows that North Carolina made an enviable record in the results obtained from the course.

The states included in the study were Alabama, Arkansas, Florida, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas and Virginia.

"Each boy that studies agriculture in the high school must do some kind of practical work at home called a project," said Mr. Thomas. "This state led the south in the number of pupils out of each hundred who completed their school and home work and received credit for it."

"North Carolina stood third in the average income per pupil from the home project or practical work. While going to school the average income made by North Carolina pupils was \$84.00. The average for the south was \$61.28.

"In the number of people not regularly enrolled in school who were given advice and assistance, this state led by a big margin. Over 50,000 people in some way were served by the teachers of the state. The average for the south was below \$30,000.

"In the amount of money secured from the home or practical work of the boys as compared with the money spent for teachers salaries, North Carolina stood second. The teaching of agriculture in this state was self supporting. That is for every dollar that was paid to teachers in the form of salaries there was a return of one dollar from the pupils' work. The average for the south was an income of fifty-eight cents on each dollar paid to teachers.

"The study also shows that the sixty-nine teachers in visiting the homes of boys and farmers for the purpose of giving advice and assistance traveled over 130,000 miles—a little more than five times the distance around the earth," he stated.

LIVED LIKE MILLIONAIRE BUT NEVER HAD MONEY. Former Bell Boy Resided at Vanderbilt Hotel Without Spending Nickel.

New York, March 29.—The only resource a suitcase containing two telephone directories and a bundle of old newspapers, and a thorough knowledge of the ways of hotels, William Liefer, former bell boy, lived the life of a millionaire for a week at the Vanderbilt hotel, without even spending a nickel for tips, it was disclosed today.

Liefer was arrested at the end of his gorgeous week, just as he was about to move on, and admitted in court today that he was a mighty poor rich man. He pleaded guilty of defrauding the hotel and was sentenced to six months in the workhouse in the penitentiary.

Besides his bill for rooms, Liefer ran up accounts for theatre tickets, taxicab, cigars and food—and even had his dining room tips added to his checks and collected by the waiters from the cashier, probation officers reported.

Plane Carries Woman to Doctor, but She Dies. Norfolk, Va., March 29.—Death was held off, but not defeated, in a race with a seaplane Wednesday from Cape Hatteras to Norfolk. Mrs. W. E. Midget, who was a passenger in the plane, died at a hospital here today.

Mrs. Midget was the wife of a coast-guardman stationed on an isolated stretch of beach at Hatteras. When she became desperately ill early in the week, her husband, unable to reach a physician in that vicinity, relayed an appeal for aid through the coast guard stations along the coast to the Hampton Roads naval air station. A plane carrying a member of the medical corps was dispatched to the aid of the stricken woman. She was brought to a Norfolk hospital, where, it was for a time believed that an operation might save her life.

Oakboro Victorious in Debating Contest. The final debating contest between the high schools of the county was held Saturday, March 24th, in the Oakboro graded school building, and Oakboro school was declared winner. This was the second triangle as Oakboro, Palmerville, and Millington schools won out in first. An arrangement under regulations provided at the beginning of the school year each school furnished both an affirmative and negative team and the nine high schools of the county were arranged in three triangles for the first preliminary. The three school above mentioned were thus permitted to come into the final contest for the prize of \$25, offered by the General Seating Company.

Planes Reach Savannah. Savannah, Ga., March 31.—The five army airplanes making their return trip from Fort Rife to Washington, landed here today at 1:35 o'clock, having averaged a speed of over 100 miles an hour this morning from Miami.

Lent, R. K. Stoner, who reached Savannah yesterday left early this morning for Camp Lejeune, North Carolina. The five army airmen will be entertained today and tomorrow by the Savannah Board of Trade.

James H. Farley, the credit man, has a big ad in today's Tribune, showing many special-Easter offerings in ladies' dresses and coats, millinery, women's, men's and boys' suits, shoes, etc. Some exceedingly attractive prices are quoted, and you can get credit there, too.

WOULD ABOLISH ALL DIVORCES. Judge Who Presided Over Stillman Case Says Congress Should Act. New York, March 29.—Complete abolition of divorce is urged by Supreme Court Justice Morschauser, who presided over the Stillman case, in an article in the April number of Columbia, official organ of the Knights of Columbus, made public yesterday.

Declaring that he believed the abolition of divorce should be brought about by congressional legislation, he said: "But that is a long way ahead because there are, unfortunately—so many middle aged and elderly men—and some young ones—who for one reason or another want new wives."

"But one great practical step which should be taken immediately is the passage of legislation making decrees obtained in Paris or elsewhere in Europe invalid. It is all wrong to let rich men or women run off to Paris to get divorced. We should not allow a condition to exist which permits wealthy Americans to escape from the operations of American laws."

Justice Morschauser would have divorce cases tried in the open because he believes publicity has a wholesome effect. He would permit separations and annulments.

20, 450,000 SHORT TONS OF SUGAR THIS YEAR. This is Estimate of Crop for This Year as Made by the Department of Agriculture. Washington, March 31.—In announcing today that it estimates the world production of beet and cane sugar for the crop year 1922-23 at 29,450,000 short tons, the Department of Agriculture said it was not prepared to estimate the probable consumptive demand.

"For lack of definite measures of the extent to which various factors, such as prohibition, business conditions and price may affect consumption of sugar," the statement said, "no estimate of consumption can be made for the year 1922-23."

The department also pointed out that in estimating the world's supply, stocks of sugar on hand should also be taken into consideration and added that statistics of stocks for many countries are incomplete or unreliable.

The Commerce Department on February 9th estimated "world sugar production in long tons of raw sugar" for 1922-23 at 18,308,000 tons.

JENNINGS WILL BE GIVEN TO VIRGINIA. Man, Alleged Leader of Auto Thieves, Wanted in Number of States. Richmond, March 31.—Dennis Jennings, alias Robert Jones, alias Robert Stone, wanted in Virginia, North Carolina and South Carolina and Georgia, the alleged leader of a gang of automobile thieves, will be held in Detroit for the Virginia authorities, Governor Groesbeck, of Michigan, telegraphed Governor Trinkle, of Virginia, today. The Michigan executive asked Governor Trinkle to rush Jennings' papers for Jennings, who is being held without bail and state automobile inspector D. C. Flanigan will leave here this afternoon to bring him back.

CROWDER MAKES 20 POUND GAIN. Declares He Would Not Take \$1,000 For Good Tanlac Did Him. "For twenty-five years," said D. F. Crowder, a well-known merchant of Lawndale, N. C., "I suffered from the worst sort of stomach trouble and got so run-down, nervous and worn-out I thought I would never get well. My appetite was completely gone. I was sick at the stomach much of the time, and nearly everything I would eat hurt me. I finally got so weak I could hardly get around and life was a burden to me. I had lost faith in all medicines, but when I gave Tanlac a trial I felt my strength returning by the time I had finished the first bottle. For I could pick up a two-bushel sack of anything and walk right off with it. So I kept taking Tanlac and getting better and have gained twenty pounds. Now all my stomach trouble is gone, my nerves are steady as a clock, my appetite fine and I am brimful of new life and energy. I wouldn't take a thousand dollars for the good Tanlac has done me. It is impossible for me to recommend it too highly, for it has made a new man of me." Tanlac is for sale by all good druggists. Accept no substitute. Over 37-million bottles sold.

CONCORD COTTON MARKET. MONDAY, APRIL 2, 1923. Cotton 28 3/4. Cotton seed 60.

SELECT COTTON SEED FOR PLANTING FOR SALE. The Agricultural Department recommends only three kind of cotton seed out of the many varieties offered for sale. Out of one of these I selected a short limbed prolific stalk, and for three years selected the same types of stalk, until I thought it was established. It comes with the earliest and stays with the latest and has proven the best yielder I have ever grown. It makes 40 per cent. better which is a big item in the picking expense. The short limbs admits the shearer into the stalk, which helps to clean the boll weevil. I am offering these seed graded at \$1.50 per bushel in 10 bushel lots; \$1.75 per bushel in smaller quantities. JNO. P. ALLISON, Concord, N. C. 26-4-p.

CLUBBING RATES.

You can save money by subscribing for other papers in connection with the Times or Tribune. We will send you The Times and Progressive Farmer both one year for only \$2.50. This is a saving of 50 cents to you, and makes The Times cost you only \$1.50 a year.

We will send The Times and the Atlanta Thrice-a-Week Constitution, both one year, for \$2.75. We will send you The Times and New York Thrice-a-Week World, both one year, for only \$2.75. The Times and McCall's Magazine, both one year for \$4.15.

We will club any of the above papers with The Tribune, adding the prices as follows to The Tribune's subscription rate: Progressive Farmer, 50 cents; Atlanta Constitution, 75 cents; New York World 75; McCall's Magazine 75.

If you have already paid your subscription in advance either to The Times or The Tribune, we will order any of the above papers for you at just what they cost us, as indicated above. We will order them for you at any time.

LENOIR WILL ENTERTAIN THE SPRING PRESBYTERY. Rev. J. L. McBride, of Old Fort, the Retiring Moderator, Will Preach Sermon. Lenoir, March 30.—Lenoir is to have the presbytery this spring. It will meet here April 10 to 12 inclusive. The meeting will begin on Tuesday evening at 7:30 o'clock, and the sermon will be preached by Rev. J. L. McBride, of Old Fort, the retiring moderator. On Tuesday morning at 11 o'clock the regular presbyterial communion will be held, and Rev. C. E. Gregory, of Morganton, has been asked to preach the sermon on this morning. The spring meeting is the time when all reports from the churches are brought in and tabulated, and this part of the meeting is always a very tedious and important one.

There are about 70 churches in this presbytery, and about 45 preachers. Somewhere between 60 and 70 delegates and ministers are expected to attend the spring meeting of the presbytery. They will be entertained in the homes, and those in charge say that they have already been offered plenty of homes to take care of the visitors.

E. D. Brown is the stated clerk of the presbytery now. Rufus L. Gwyn is chairman of the entertainment committee, and all who wish to take delegates will please get in touch with him. The midday meal will be served in the dining room of the Presbyterian Church by the local members of the church. The music will be under the direction of Mrs. M. E. Barnhardt, and a special musical program is being worked up for that time. This program will consist of duets, trios, solos, and anthems.

The Presbyterians are looking forward to this meeting. Just recently they have completed their new Sunday school building and enlarged their main auditorium. It is nicely arranged and tted to take care of and entertain the visitors.

BUSINESS GOOD FOR LUMBER ENTERPRISES

Conditions Indicate That Business is on Sound Basis Now, Report Says. Norfolk, Va., March 29.—That new and numerous signs are sufficiently convincing as to the soundness of underlying business conditions to bring joy to all lumber manufacturers and give abiding confidence, was the substance of reports of officers and committees presented today to the North Carolina Pine Association in annual convention here. The conclusions were summed up in the report of John M. Gibbs, secretary-treasurer of the organization, which was the principal topic of discussion at the opening session.

About 200 lumbermen were present when the convention was called to order by President J. Ross McNeil. Election of officers for the coming year was to be held at an afternoon session.
