There is one bright spot in the rather dark report concerning the spread of the disease. That is the report that in those counties where whole-time health men are employed, the disease is not as prevalent as in those counties where there is no such public servant at work at all times.

It costs money to keep these all-time health men on the job, but they more than pay for themselves. As The Charlotte News says "the finding is interesting and prophetic as well. The Stockton Commission company of New York, submitted a proposition to operate the mills, under a re ceivership, and finance receivers recti-

In connection with an experience Paul's near Troy Bishop Denny touched year, and the progressive Farmer will be on the modern tendency to be discourteouts and criticised divorce. "When addressed on the boat by a friend," Bishop Denny said, "Paul arose. He arose be cause he was a gentleman. Christianity should not affect our courtesy, but it. seems 'to have done so.

High tribute was paid by Bishop Den ny to women and their influence on the world in connection with an incident in Paul's life when he preached to a crowd Fulton street residence as his homestead near the sea at Athens, when women predominated in the congregation. "I am asked now, "Bishop Denny said, "If I don't preach to more women than men. I of Mr. Norwood. answer yes, and it arouses my anger

This expe perience was used by Bishop Denny to show that a fair and just judicial sys his presence here and sent an officer to tem is the backbone of a country. "This country has been blesed," he said, "be cause we have had a just and strong ju-diciary. This was not true in Paul's later. He was given 195 lashes on his back, which was torn by the leather things which were studded with metal and caught at each end with a wooder ball which was filled with tacks. But the 195 licks did not make him renounce his faith. How many of us could stick to our faith under the same conditions; There are plenty of people now who will quit their Church and denounce their faith if they can't have their way all of the time.

Bishop Denny also criticised tho people who are always looking for the big jobs and big places. "Paul was in many humble places. He was called to preach in lowly communities, yet we do not hear him making complaint. In this day we hear of people quitting their

conference, and sometimes their Church, because they can't get a big job."

In connection with Paul's experience in prison when the prison doors were opened by Divine power and the jailer wanted to commit suicide, Bishop
