INTERESTING ITEMS ABOUT NORTH CAROLINA.

Sixty-five million dollars has been appropriated by the last two general assemblies for road construction and maintenance in the state.

The State Highway Commission, in addition to handling the construction program for roads, has under its jurisdiction a well-organized maintenance department which devotes its entire time to keeping in condition the roads constructed with state funds and those roads which have been removed from county to state jurisdiction.

A plan of the Commission, which is being developed by degrees, is to construct a "Mountain to Sea" hard surfaced highway. Many sections of the proposed route already have been hard surfaced.

The system employed by the commission is to divide the state into districts comprised of several counties each. Every district has a district engineer in general charge of all maintenance and construction work. Coming under his authority and in direct charge of field operations are two engineers, one for maintenance work and the other for construction and the condition of all roads being maitained.

The general headquarters of the Commission is at Raleigh, the state capital. Frank Page is Chairman of the Commission and Charles M. Upham is state highway en-

The court held that the law was designed to protect the public as well as the individual and that the State did have the right to appeal for a change of venue. He announced he would hear the reading of affidavits or oral testimony by which the prosecution hopes to establish that a fair and impartial trial could not be held here.

The State was not ready to proceed however, and as it was then 12 o'clock Judge White recessed court until 1:30 The reading of affidavits was expected to begin immediately upon reconvening to court. Whether oral testimony would be heard was not indicat-

DESERT RAILROAD MADE

pletion in 87 Days.

Salt Lake City, July 25 .- A fortymile railroad over the desert between Lund and Cedar City, rushed to completion in 87 days at a cost of \$1,049,-000, was one of the incidentals in the recent reception by the state of Utah to President Harding.

On April 2, last, the right of way men, acting for the Union Pacific railroad, secured possession of the needed ground for the construction of the railway from the Salt Lake route main line at Lund to the entrance of Zion National Park, and on the same day the first scraperful of earth was turned

The contractor strung his men out in sections and as fast as a section was completed, the track-laying crew took possession and the ties and rails were set in place. Crowding upon their heels was the ballast crew. And so the work was rushed toward Cedar City.

. In the midst of this orgy of toil came word that the President of the United States would visit Zion Park, providing I saw recently, said he would not call a States would visit Zion Park, providing the track was in shape for his big special train upon his arrival in the west. Every man on the system from the highest executive to the lowliest section hand plunged into the work with edoubled energy.

Whereupon there came the announcement that President Harding's trip to southern Utah had been cancelled, and

the work dragged. But again came cheering news, defrnite this time, that the president would Evangelist Strong For Moses Authorship come. Ignoring dust and desert heat, the men plunged into the job again.
