THE KINGS DAUGHTERS

Many Interesting Reports Heard at the Last Regular Meeting. The King's Daughters at their regular meeting Monday evening, at the home of Mrs. Ernest Hicks, heard many interesting reports from the visiting committee for the month of August. This committee visited several homes wherein there was sickness and carried the necessities as the cases required for the relief of the suffering ones.

The reports included the location of several feeble minded children who needed the aid of the King's Daughters, but on account of the crowded condition of the Caswell Training School, admission not being possible, the circle was helpless in rendering such aid as it desired. Nothing tangible can be done for these little afflicted ones until the capacity of the institution at Kingston will admit them.

The County Highway Commission, crowding out the County Welfare officer, Mr. Brown, from the office formerly used for the headquarters of this officer, the matter of properly locating this office so he may more efficiently carry on, was discussed by the King's Daughters. It was suggested that if this matter were brought to the attention of the county commissioners and the importance of the work and the necessity of suitable and permanent quarters being provided, that the county fathers would be only too glad to make provisions for a permanent location for this officer in keeping with the dignity and character of the work.

The circle was pleased to have with it at this meeting Miss Gazette, the new county all-time health nurse, and hopes to be able to co-operate with her in her work in the county.

The following were selected as delegates to the annual convention of the State King's Daughters, which meets in Rockingham during the first part of October: Messdames G. B. Lewis, Ernest Hicks, R. M. King, Zeb Moore, J. A. Cannon, A. K. Howard, W. A. Foil and Misses Fannie Hill and Rosa Mand.

The visiting committee for the ensuing month is as follows: Misses Mary King, Janie Klutz and Mrs. A. E. Davis.

The circle adjourned to meet with Mrs. G. B. Lewis the first Monday evening in October.

Gets Letter From Governor Trinkle. Mr. B. L. Umberger writes that he has received a personal letter from Governor Trinkle, of Virginia, who visited Concord recently with the Roanoke Boosters. Mr. Umberger's letter follows: Mr. Editor:

I have a personal letter from E. Lee Trinkle, Governor of Virginia, dated August 24th. He visited Concord last week with the Roanoke Boosters. He says he enjoyed the trip and especially the short stop-over in Concord, and rejoices to know of the progress we are making. The Governor also enclosed a splendid photo of himself. I teased him last summer about the horrid cut of the papers of North Carolina were carrying of him. He is a handsome "fat man" and promised to call in the "three chin" cuts. He is from my home town of Wytheville, as is Mrs. Edith Bolling Wilson, Governor Trinkle was born with a silver spoon in his mouth, figuratively speaking, but it made no fool of him. He controlled circumstances and is headed for the U. S. Senate. Bascom Slomp, secretary Coolidge, is also from an adjoining county.

VALUATION OF RAILROADS IN THE STATE DECREASED

Raleigh, Sept. 4.—Valuation of railroads operating in the state were announced here tonight by the state board of assessment. The new valuation figures will supersede those of 1920.

According to Commissioner of Revenue R. A. Doughton, a member of the board, some of the railroads contemplated that their properties were covered but very few changes were made. In the case of some of the shorter lines the commissioner stated that they actually were being operated at a loss, a few being in the hands of receivers.

Valuation of the Atlantic Coast Line resulted in an increase but the Norfolk-Southern, Seaboard Air Line and Southern railroads were allowed decreases. The new valuation will form the basis for taxation by the state. Figures for the larger system are as follows: Atlantic Coast Line, \$51,592,436; Norfolk-Southern, \$20,191,619; Seaboard Air Line, \$31,641,192; Southern Railway, \$94,375,874; Norfolk & Western, \$4,613,604; Atlantic & Yadkin, \$2,013,500; Carolina & Northwestern, \$1,290,000; Winston-Salem Southbound, \$4,792,120.

No divorces were granted in 1922 in nine counties of North Carolina, according to the report of the Bureau of the Census, which is subject to correction, the report being only preliminary. These counties are Clay, Dare, Davie, Hoke, Onslow, Perdue, Polk, and Tyrrell. Numbering 93, Buncombe county had the largest number of divorces, according to the report, which places Forsyth county second in this list with 89 divorces and Mecklenburg county third with 88 divorces.

The statistics for the report on marriages and divorces in 1922 were furnished the Bureau of the Census by the clerk of the superior court of each county. (This report shows that in Cabarrus county there were 28 marriages in 1922, and 17 divorces.—Editor.)

SOAP WILL EXTERMINATE LEPROSY, SAYS SCIENTIST

If All People Would Keep Clean the Disease Would Be Extinct. Chicago, Sept. 5.—Soap is the greatest enemy of leprosy and if economic conditions could be changed so that every one could afford to be clean, and education create in them a desire and knowledge of hygiene, leprosy would soon cease to be a great scourge and become one of the rarest diseases. Dr. Arthur W. Stillians, professor of dermatology at Northwestern University, announced in an article just published.

The author arrives at the conclusion that to eradicate leprosy in this country the first object of the attack must be on the popular fear of the disease. "It seems the greatest difficulty in the isolation of lepers in the United States is finding them, their fear of being branded as lepers being so great that those who suspect the nature of their disease will hide, at any sacrifice, rather than come into the open," says Dr. Stillians.

"As for the victims of the malady, occupational therapy is of benefit, it has been found. Kindness and encouragement put hope into their hearts and their condition improves as a consequence. Because leprosy in its early stages is not recognizable in part of entry examinations of immigrants, the problem of its control is a problem for the whole world."

He concludes by saying: "Could the nations cease wasting wealth and energy in wars against one another and present a united front against the common enemies of the human race, leprosy would certainly be conquered."
