#### Odd Kind of Fish.

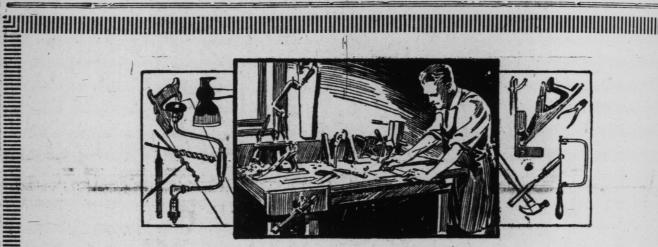

No fish is stranger than the little sea-horse. It has a body encased in rings of bony mail, a horse-shaped head set at right angles and a prebensile tail to grasp seaweed in which it hides. It always floats with its queer head up and erect. Another peculiar thing about the sea-horse is that the mate fish carries the eggs in a pouch situated under his tail until the young are hatched and large enough to look out for themselves.

clocks to get them to the office before the ose starting h In addition to his work as The Tribune and Times, Mr. Sherrill has two other great interests, one is the entral Methodist Church and the other the\_North Carolina Press Association. Ever since coming to Concord Mr. Sherill has been identified with the religious ife of the community, both as regards regular church attendance, liberal concributions to the advancement of the hurch, and in the kind of newspapers he has published. They are distinctly nome papers of a clean type, free from sordid sensationalism which ha tended to degrade journalism in recent ears.

Some publishers work on the maxim hat everything which is news should be printed. But not so with Mr. Sherrill. t has to be news which is fit to be read n the homes of his subscribers before he will acknowledge that he is under any obligation to print it.

As secretary treasurer of the North Carolina Press Association for 32 con ecutive years from 1888 to 1920, Mr. Sherrill saw the press of North Carolina and particularly the press of the smaller ities and towns emerge from a state of pendence to a new era where a news publisher was a man of standing community, respected for the naof his work and regarded as a busiman as well as a writer. No man more towards bringing this condition about and improving the standing of the ewspaper profession than Mr. Sherrill, was elected year after year to an ffice which was a labor of love with im and which he used as an instrument or advancing the interests of every pubsher in the State of North Carolina. was elected president of the Associa in 1921 and re-elected in 1922.
