DEMOCRATIC SUPPORT FOR MEL-LON PROPOSAL.

The fact that Senator Walsh, of Massachusetts, is not only Chairman of the Democratic Senatorial Campaign Committee but is a member of the Senate Finance committee is taken by the New York World to mean that the proposal Secretary Mellon to reduce the tax rate on earned incomes will have the support of the Democrats in the next Congress. In view of the high positions he holds, Senator Walsh's "declaration in favor of the tax reduction for immediate effect by the coming Congress is accordingly of great significance" says The World, which adds that "the administration party on this issue will have large support in general if not in detail from the Democratic side of Congress."

These conclusions seem wisely arrived at. Democrats have always favored low taxes on earned incomes and they cannot afford now to oppose these tax reductions just because they are proposed by a Republican Secretary of the Treasury. The Mellon proposal would distinguish between the earned and unearned incomes , and give the former the lower rate, and years by conducting a "diploma mill," as the Democratic party has always catered to the "average" citizen-its leaders in this instance must follow the Mellod lead or start new tactics.

The World thinks it is especially imbetween the two kinds of incomes. It says "to tax the two kinds of income at the same rate, as now has long been recognized as unjust. Earned income or in come from wages, salaries and profes sional services, is, as Secretary Mellon says, 'uncertain and limited in duration; sickness or death destroys it and old age diminishes it.' But an income from business or investment 'continues; it may be disposed of during a man's life

"The distinction between the two is clear. The injustice of treating both alike by the taxing power is equally clear. It is a distinction, moreover, easily determined in the assessment of income taxes. No part of that great work is open to greater certainty. Great Britain corrected this injustice nearly twenty years ago, and Great Britain's experience since has shown the easy practicability of applying the correction."

There may be enough "pull" from certain sources to defeat Mr. Mellon's plan, but at any rate he has stirred up great interest in tax reduction, and the question is certain to be one of the most important before the next session of Congress. And it will be more important after the bonus question comes into it Threre will be a determined fight, especially if it is shown that there can be no tax reduction and a bonus at the

Concord plans to have a real chamber of commerce if the organization is given enough support to be fully organized. The organization will mean great things not only to Concord but to the whole of Cabarrus county and we should support it in every possible manner.

#### HOW COME?

The former German Crown Prince: ac cording to newspaper accounts, is keeping rather well in seclusion since returning to his native land. He is not having much to do with the people who live near his home, so far as entertaining them is concerned, and he is not having much company. But he is giving thousands of pounds of meat and potatoes to the poor, and showing interest in their well-being. This very fact brings out one point the French have stressed all right, even if the working class hasn't any. How is it that the former ciown prince is able to supply so much food when other people can't get it? How is it that he has so much money? He i among he favored few that took every thing in Germany just after the war. They have it now, regardless of the fact that the working people have nothing. If the Germans could get this money from Frederick William, Stinnes and the like there would be enough to pay the indemnity demand by the allies.

It is believed that one of the men who held such a certificate was responsible for the death of seven persons. He cannot be found now.

The leaders and members of this crowd of "doctors" should be hunted to the ends of the earth and published to the full limit of the law.

'Asheyille, Nov. 24.—The home of Mrs. M.C. Stockton, No. 15 Rosewood avenue, was the scene of merriment and when during the afternoon and evening hosis of friends called to wish her many casion of her 82nd birthday. Mrs. Stockton is the mother of eight children, the grandmother of nine and the greatgrandmother of one. All her children except two, M. M. Stockton, of Atlanta, Ga., and Miss Cora Stockton, of Greens boro, were with her on this happy oc casion. They were: Miss Stockton. Miss May Stockton and B. D. Stockton, who live with her: Mr. and Mrs. E. E. Mc Dowell, Mr. and Mrs. J. R. Clements, of Asheville, and and Mr. and Mrs. A. L. Stockton, of Greensboro. During the evening a delicious sa'ad course with coffee was served. A handsome birthday cake with its 82 lighted candlles gleamed on the dining room table.

Mrs. Stockton was born in Greens boro 82 years ago in a house which formerly stood where is now the handsome home of Mr. and Mrs. R. G. Vaughn on Church street. Her mother. Mrs. M. D. McLean, sold the property to the late Rev. Dr. Smith, for so many years the beloved pastor of the First though more than four score years old Mrs. Stockton still retains her mental faculties and reads the Greensboro Daily News as religiously every day as she does her Bible. They will meet Europe and after comparing data, return totheir home stations.

The flight, designed primarily to demonstrate the ability of planes to operate away from their regular supply bases during war times, will be made in comparatively short jumps. The distance between most of the stations will be 500 miles or less, the longest

As laid out at present, the route to be taken would not necessitate any susrevenge. Dr. Townsend, Mr. Hines goes tained flight over open water. For the trip across the Atlantic, alternate routes are available. One itinerary calls for hops from Aberdeen, Scotland, to Faroe Island, to Iceland, to Greenland andto the mainland of North America at Frederikdal-Hamilton, Inlet Canada. The other provides for the time in early January. European take-off at Dunmore Head, Ireland, and the more direct course to Newfoundland and thence to Quebec.

Through continental Asia and Europe the tentative itinerary would carry the aviators to Shanghai, China; Mandalay and Delhi, India: Choribar and Bagdad. June or early in July, officials here believe, because of the fact that in crossing the Pacific and Atlantic, the aviahappy returns of the season on the oc- tors must push far northward where cold weather otherwise might be encountered. No estimate of the time required for the trip has been made.

While most of the stations where tops would be made under present plans, could furnish little other than fuel and food for the aviators, preparations will be made for the overcoming of motor or other mechanical troubles. Probably every third station will have a supply of spare parts of various kinds and severall spare engines will be sent to points where it is deemed possible they may be needed.

## College Coeds Earn Way in Various

Lines of Work. Evanston, Ill., Nov. 22 .- Sis hundred nen and women students at Northwestern University are working their way through school this year, according to figures prepared by university officials. Fifty percent of the men on the campus are employed in part time jobs and 20 percent of this group depend entirely on their own earnings to pay their way through school.

The range of work being done by men students includes clerking and waiting on tables, house work, washing dishes. cleaning windows, serving as chauffeurs. night watchmen, motormen, tutors, hotel lerks and switchboard operators.

The old fashioned college girl who re garded work outside the curriculum as 'demeaning." is disappearing from the university and a new type is taking her place, said officials announcing that maid service in the homes of Evanston families is one of the more popular positions that many Northwestern girls have accepted. Taking care of little hildren during the afternoon hours is another job, in which a number of girls are engaged. Secretarial work also has a strong bid for favor among the young women students and not a few are working in the capacity of clerks and stenographers in Evanston business of-
