Freshmen Defeated by Juniors.

Thursday evening the Junior-Freshman game was staged at the Y. The two teams were rather evenly matched, and early in the game it was indicated that the fight would be a hard one. The guarding of both teams was good and therefore, it was hard for either side to score. At the close of the first half the score stood 4-3 with the Freshmen holding the big end.

When the three sounded the whistle for the second half, both teams reappeared on the floor, each determined to win. Era Linker delighted the rooters when he evaded her guard and caged a beautiful field goal. The star work of the Juniors can be laid to Era Linker and Marian Coltrane; but the whole team played grand ball and each one did his bit in bringing the game to a successful conclusion.

This work will be completed today, and patrons of the school will also install the new rostrum during the day. The rostrum was built especially for entertainments and will prove a big feature in the future.

During the wind storm which visited the city several days ago the cross on the steeple of the Forest Hill Methodist Church was blown over. KIWANIS MEETING

Interesting and Illuminating Talk by Dr. Buchanan.

Kiwanians at their regular meeting on Friday evening at the Concord Y. M. C. A. heard the report of the nominating committee on officers for the coming year, discussed ways and means of raising the funds to pay part of the advertising expense in the New York Tribune special edition, and listened to a shop talk by Dr. Sidney Buchanan, county health officer for Cabarrus county.

The nominating committee submitted its report, naming two men for each of the offices in the club. The regular annual election will be held on Friday, December 21st, which will be the next meeting date.

The talk by Dr. Buchanan was most interesting, and brought to the members of the club some facts with which they were unacquainted. He told of the work his department is carrying on, explaining how the State Board of Health rates each of the county health officers, and the credits which they receive for the various kinds of work they perform. Cabarrus county has had the distinction of leading the other counties of the State for each dollar spent, and the figures submitted by Dr. Buchanan last night show that for each dollar spent during the eleven months of this year, his department has received credits for \$210.4.

A comparison was then made, showing what the work performed so far by the Health Department, and required by State law to be performed, would have cost the county of Cabarrus if there had been no Health Officer, and the county had been made to pay doctors to perform the work. These prices were made as low or lower than any physician would have charged, and showed that so far this year the county would have paid out for this work more than \$10,000. With a whole-time Health Officer, the county pays only about \$4,000 per year, which includes the party the county pays on the salaries and expenses of the Health Officer, the Health Nurse, special clinics which were held this year, and other expenses incurred by the department.

The music for the meeting was furnished by Misses Nell Herring and Mary McLaughlin, the latter rendering several original selections which were greatly enjoyed by the Kiwanians.

An enthusiastic greeting was given Major Will Foil, who was present at the meeting for the first time since his recent operation in a Charlotte hospital.

The next meeting which will be held on the 21st of this month, will be in charge of Charles A. Cannon.

STREET MATTERS GET ATTENTION OF ALDERMEN

Practically Every Question Before the Meeting Related to Same Street in the City.

Street matters claimed most of the attention of the aldermen of the city who held their regular December meeting at the city hall Thursday night. A few other matters were presented to the board, but they were few compared to the street questions that came up.

The street committee was authorized to investigate charges that property on Buffalo Street was damaged when sidewalk was repaved.

A committee was appointed to investigate claims that the damage of B. W. Means, on White Street, was damaged when a sidewalk was made.

The matter of extending the sewer line on Academy street was referred to the street committee for investigation.

The city engineer was instructed to remove certain obstacles on Lippe Street so that the street could be used more generally.

The board refused to take action in regard to a cement wall asked by Mr. R. T. Lippard.

An ordinance was presented to the board directing that no additions could be erected to buildings on Church Street between Depot and Corbin Streets where the buildings interfere with widening of the street. The ordinance was not passed and will lay on the table for 30 days.

The board directed that \$1,000 be paid by the city to help in county health work.

The board also directed that the Mayor and Chief of Police adopt a schedule whereby each patrolman in the city will be given one day off each week.

The matter of purchasing a new fire truck was informally discussed at the meeting. No official action was taken, but something definite probably will be done when Mayor Womble and Fire Chief Miller return from Statesville, where they will go to inspect that city's latest fire fighting apparatus.

"Y" Classes Well Attended.

The gymnasium classes at the Y are going great. Lots of good exercise and plenty of recreative fun and games. There is something for everybody who needs to take some kind of exercise and to keep the body in good shape.

Beginning Monday, December 10, the boys will meet in their gymnasium classes on Mondays, Wednesdays and Fridays instead of on Tuesdays and Thursdays. The girls will meet on Tuesdays, Thursdays and Saturdays. This change has been made due to the fact that many of the boys work on Saturdays and therefore cannot attend the classes. By having the boys meet on Mondays, Wednesdays and Fridays they can keep up their work-outs regularly and not interfere with their Saturday jobs.
