THE COTTON MARKET

First Prices Were 19 to 27 Points Higher, With July Into New High Ground For Movement.

New York, March 9.—Failure of early weather news to show anticipated rains in the southwest combine with relatively firm Liverpool cables led to a good deal of covering and rebuying at the opening of the cotton market today.

The first prices were 19 to 27 points higher, with July selling up to 26.38, or into new high ground for the movement.

While May advanced to 26.16 and October to 25.06. These quotations attracted considerable realizing, however, while the weather map was regarded as pointing to probable showers in Texas.

Prices eased off several points from the best, but still showed net gains of 15 to 20 points at the end of the first hour.

Private cables reported a steady under-tone in Liverpool on Texas weather news and a brisk spot demand.

The opening prices were: March 25.90; May 26.10; July 26.35; Oct. 25.58; Dec. 25.60.

These eggs sold on the market now bring twenty to twenty-two cents. Placed on cold storage for six months they would bring forty to sixty cents, depending upon the market.

TWO BILLIONS IS THE ESTIMATED NEGRO WEALTH

Rapid Progress of Race Revealed in Sociological Survey.

Atlanta, Ga., March 9.—Two billion dollars is the present estimated wealth of Negroes in the United States, according to a recent survey made for the Research Section of the American Sociological Society by Prof. Monroe N. Work of Tuskegee Institute.

The survey reveals great progress also in the matter of Negro education, the amount expended for this purpose by all agencies having been about \$40,000,000 in 1924, as against \$13,576,561 in 1912.

The survey calls attention to the recent heavy movement of Negroes from rural communities to the city and from the South to the North. As a result, there are now almost a million more Negroes living in cities than there were thirteen years ago, and over half a million more living in the North than at that time.

This shift has been accompanied by a large-scale entrance of the Negro into industry, the 1920 census reporting 332,249 Negroes engaged in skilled and semi-skilled work.

The survey points out a decided growth of independence in politics on the part of Negroes and an increasing tendency in many localities toward the Democratic ticket. It calls attention also to the growing tendency, particularly in the South, to deal with the problems of race adjustment on the basis of understanding and co-operation. This policy, according to the survey, has been found of mutual benefit to both groups and to the whole community.

CROSS-WORD PUZZLES HAVE HEALTH BENEFIT

Chicago Department Says They Are Aiding in Better Health and Happiness.

Chicago, March 8.—The Chicago Department of Health weekly health bulletin, issued today, emphasizes the benefit of cross-word puzzles to general health and happiness. It was discussed under title of "Crossworditis."

The causes and effects of "the savage little cross-word puzzle microbe," the bulletin said, "may be largely explained by the fact that part of our lives and much energy must be put into amusement to satisfy the play instinct within us. Therefore, any play or game that thus has a mental 'kick' in it is quickly accepted and eagerly pursued."

United family circles and happiness to convalescents and chronic invalids were listed in the report as among the good purposes served by the cross-word puzzles.

ANOTHER APARTMENT BURK SCENE OF DARING ROBBERY

Jewels Valued at More Than \$50,000 Taken From the Home of Mrs. Fay Perkins by Robbers.

MRS. PERKINS WAS BEATEN ON HEAD

Her Escort Was Gagged With a Pillow and Bound to the Bed While Rooms Were Closely Searched.

New York, March 9.—Three masked men broke into the studio apartment of Mrs. Fay Perkins in West 58th street early today and escaped with jewelry valued at \$50,000 after beating Mrs. Perkins and binding and gagging her escort, Milton Abbott, wealthy cotton broker.

The robbers chopped down the door of the apartment in making their entrance. They are believed by the police to have been members of the same gang that robbed the apartments of several well known persons on Broadway, including Louise Lawson and Dorothy Keenan, who were murdered.

After choking Mrs. Perkins and biting rings from her fingers, and taking bracelets and necklaces from her, the robbers beat her with revolver butts until she revealed the location of the rest of her jewelry.

Mrs. Perkins was a frequenter of Broadway cabarets, as were the victims in the other apartment robberies. She is separated from her husband, Benjamin Perkins, who is a wealthy proprietor of a cafe.

Mrs. Perkins and her companion had just returned to her apartment after dining in one of Broadway's fashionable supper clubs and making the round of other night resorts.

A crowbar and other tools found at the scene were used in breaking into the apartment.

Abbott was seized by the robbers, gagged with a pillow, and bound to a bed with ripped up lengths of sheets. The robbers then attacked Mrs. Perkins and stripped her jewelry from her. The three men wore silk handkerchiefs across their faces, the victims told the police.

The jewelry taken included several diamonds which were collected by her husband from famous lapidaries of the world, Mrs. Perkins told the police.
