WORLD'S GREATEST DETECTIVE

Notorious Thief Who Became the World's First Great Detective.

Paris, July 23 .- Several of the Paris newspaper today called attention to the fact that this is the 150th anniversary of the birth of Francois Eugene Vidocq, the notorious thief who became the world's greatest detective, and who laid the foundation for the remarkable system of police supervision which still prevai's in Paris.

When Vidocq was a boy at Arras, and in his youth, all France suffered from the lawlessness and crime that resulted for the Revolution. On the night that Vidocq was born there was a terrible tempest and thunder storm, and the old mid-wife who assisted at his birth predicted that the boy would have a life of strange adventure, wild experiences and much hard fortune.

Without being wicked by nature, Francois Vidocq drifted into evil among the bad influences that surrounded him, and his father was unwise in his courses with the boy. Early in youth he desired

to go to America, and thus, breaking away from present associates, be able to begin life afresh under hearthful mor-

al conditions. The elder Vidocq, who was a baker, would not help his son to carry out his Jr., following a brief illness with rabies,
