Candidates Beginning To Display Interest In The End Of First Big Vote Period

Still State Library atate Entering May Be Able to Win One of Big Prizes Offered.

NO ONE CAN LOSE IN THIS CAMPAIGN

There Should Be at Least Twenty Active Workers In Each One of the Prize Districts.

The few candidates who are now striving toward one of the big prizes in The Tribune and Times campaign are beginning to display interest relative to the end of the first big vote period which closes at midnight Monday, October 19th, and as a result a little more life has been injected into the contest. This does not mean, however, that a new candidate entering now would be unable to win one of the big prizes for there is plenty of room for any live person who wants one of the four motor cars or his or her share of the thousands of dollars in cash which must be awarded at the end of the few weeks.

Right now, when the campaign is just gaining a little momentum, is the time for you, who have been hesitating, to step in with a handful of subscriptions to The Tribune or the Times and see what they will do for you in the vote columns. Brand new workers have jumped to the lead of their districts within a few days, as you will have noticed if you have been following the daily announcements of the score. You have probably also noticed that there are nine candidates in district No. 1, six in No. 2 and five in No. 3. There should be at least twenty active workers in each one of the district working in a determined way for one of the ten big capital prizes.

When you stop to think that no one can lose, that every one who participates in this great offer must win, it is beyond comprehension why so few are ambitious enough to want to turn their spare moments into cash—cash that they would procure in no other way. All that it takes is, first of all, the desire to make something on the side, even as high as \$2,110, in a few weeks of effort. These who awake to what an opportunity this really is now will have something on their minds who realize after it is over with and the winners are announced that they might as well have had their share.

FRENCH PROPOSAL IS UNACCEPTABLE TO THIS COUNTRY

Secretary Mellon Brands as Fake Reports of An Agreement On French Debt Plan.

FRENCH ADVISED TO THIS EFFECT

President Coolidge Has Not Given Approval or Disapproval to Any Plan Offered.

Washington, Oct. 1.—(P)—The French proposal for settlement of her war debt to the United States has been found unacceptable. After a conference at the White House today between President Coolidge and the American debt commission, a statement was issued by Secretary Mellon for the committee which called on the President and declared that no proposal had been submitted to Mr. Coolidge for his approval or disapproval.

The representation in the press on the supposed authority of a member of the French commission that agreement to give the terms is entirely incorrect. Such a statement obviously did not come from M. Caillaux because before the adjournment of the sub-committee last evening the French members were informed by the American members that their proposals were not likely to be accepted.

There has been no difference of opinion, whatever among the American commission. The visit to the President this morning was to inform him of the position of negotiations. No proposal has been made acceptable to the American commission and none has been submitted to the President for his approval or disapproval.

THE COTTON MARKET

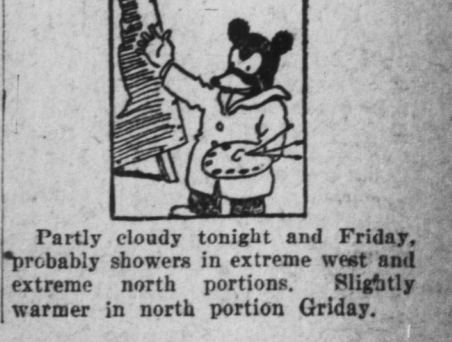

Opened Steady Today at an Advance of Two Points to Decline of Three Points—December Off.

New York, Oct. 1.—(P)—The cotton market opened steady today at an advance of two points to a decline of three points. There was considerable covering on relatively steady futures, but trade buying was again in evidence, but offerings were heavy as prices weakened after the call under Wall Street, local and southern selling. December soon sold off from 23.19 to 23.04, and the market was unsettled at the end of the first hour, active months showing net losses of 8 to 12 points. The early selling was accompanied by rumors of bearish private crop figures.
