From Mrs. * Claude Brown, Pomona, Mills, N. C., • * VENUS. Fertilizer Makes Wheat Growing HAPPY OF BOSTIAN X ROADS.

Profitable. The health of our folks is pretty That wheat is an important crop to

grow in North Carolina and Virginia is evidenced by the fact that in these two states the farmers sow more than a million acres each year. Although many farmers produce from 25 to 50 bushels of wheat per acre, as a rule, the yields average from 10 to 14 bushels per acre. This fact shows that the food to make the growing of a wheat crop profitable and it seems essential they did not live long. Mr. Overcash

order to gain much profit. To increase the yields of wheat, it is necessary to put into practice the best type of farming. This will in-Mr. Shive's place. He is survived by clude the use of seed of high yielding five little children. Mr. Shive had six qualities suitable to the region; the children. Both were members of Or- treating of seed for smut; careful preparation of the seed bed; sowing the middle of October as possible);

There were between 2500 and 3,000 sowing enough seed and using enough people at this funeral. It was the plant food so that the plants will not largest one we ever saw. We all went be stunned in their growth.

Most farmers, recognize that the lies. This makes five people in this above are all essential for producing a large crop of wheat. The one thing that is probably neglected more than any other is the application of enough plant food to produce a large yield. In North Carolina the Experiment Stattion recommends for wheat from 300 to 500 pounds per acre of a

Davidson and Citadel Evenly Matched. Davidson, Sept. 22 .- Dopesters are finding it difficult to pick a probable winner i he Davidson-Citadel grid-iron cla ..., which is to be played in Gastonia Saturday afternoon. The task of the dopesters is made doubly difficult in view of the fact that this is the initial game of the 1927 season for both elevens, and the first encounter between the two colleges since 1923.

It is significant to note that the Citadel is weak in that department of the game in which Davidson is strongest, and strongest where Davidson is weakest. Reference is here made to the first and second line defensies of the two teams. Coach Carl Prause of The Citadel will have to rely upon a light and inexperienced backfield behind a powerful line in Saturday's game, while Monk Younger's Davidson team will be just the opposite-an experienced and fleetfooted backfield with a line of uncertain strength. Both teams have lost a number of their veterans since last year, David-| son fifteen and Citade' eleven. Coach Tilson, who handles the line at Davidson has been "up a tree" over his lack of experienced tackles, but it seems now that Hampton, Baker, Mc-Connell and Leftwich are the four candidates from whom Saturday's

tack es will be chosen. All four are new to the varsity squad, and more of them tip the scales at more than 185 pounds.' Citadel is strong in her tackles, with Figg and King, two veterans back in harness. Both weigh between 190 and 200 pounds.

Garah Propst, of Sumter, S. C., is spending the week-end in Concord.

lelen Marsh directed the guest o the dining room, where Mrs. A. W. Folkes and Mrs. John Rutledge f Kannapolis, received, assisted by Misses Pink Willeford, Leora Long, Mary McKinley and Mary Flowe, of Kannapolis.
