CREEDMOOR TIMES-NEWS

AN INDEPENDENT DEMOCRATIC NEWSPAPER DEVOTED TO THE EXPOUNDING OF SOUND DOCTRINE IN BEHALF OF GOOD GOVERNMENT.

VOLUME 3 NUMBER 36

CREEDMOOR, NORTH CAROLINA, WEDNESDAY JUNE 2, 1915.

ONE DOLLAR PER YEAR

FACTS IN SCHOOL HOUSE BOND ISSUE SET FORTH

Mr. John W. Hester Says There Will Be No Increase In Taxes, That Money, Will Be Judiciously Expended, Good For Creedmoor.

The proposed school building bond issue is eliciting much interest pro and con, principally con. I regret to say, for, in my humble judgment, it is an exceedingly good thing. And, Mr. Editor, with your permission, will try to tell your patrons why I think it is a good thing.

In the first place, I want to say that it is a proposition, submitted in a regular and open way, to the people of the county, as a whole, say whether it wants to anticipate certain funds annually accruing for the purpose of making available now funds in sufficient amount to place every school district in the county on a parity with every other with respect to building facilities.

However, we should be able to disagree without abuse, and to argue without insult. If we can't do that, we must confess that there is something wrong with our citizen ship. Now to the nature of the proposition. We have available annually for educational purposes, from all sources, approximately \$45,000.00. Of that sum the law says 7 and 1/2 per cent may be set aside annually for the purpose of building school houses, which means practically \$3,400.00 is available each year for building purposes.

CAN BRING LIQUOR INTO THE STATE FOR OWN USE

Superior Court Judge, James L. Webb, Places New Construction Liquor Law

That there is nothing in the recently enacted anti-liquor act to prevent a resident of North Carolina from going from this state to one where in whiskey is legally sold and bringing back as much as he desires for his own use was the declaration of Judge James L. Webb in the Superior court of Buncomb county on Monday of last week.

The ruling came in the case J. J. Combs, who was charged with bringing 11 gallons of whiskey into this state. Judge Webb's statement was made after Combs had agreed to pay the costs of the action and the solicitor had recommended that the prisoner be discharged upon the payment of the costs.

An acre of bananas will produce more than one and a third times as much food as an acre of corn, almost three times as much as an acre of wheat or potatoes, and four times as much as an acre of rye.

By making public announcement that she has never been kissed a woman never gains anything. The women don't believe her and the men don't care.

many times that indebtedness. However, if the entire county was indebted for school buildings as is your district, the aggregate would be \$150,000.00 instead of \$15,000.00. But individual district interests should not determine a proposition that is of county-wide interest. Furthermore, the county as a whole should be the beneficiary of its corporate property.

Just another aspect of the matter and I am through. It is said that the special registration is required as a scheme to put something over the people. That is not the case, but the contrary. All special bond issues require usually a new registration. This sort of an election differs the regular election in that to carry the issue there must be a majority of the qualified vote cast, not a majority of those voting in the election.

A CONFEDERATE VETERAN'S DREAM

BY LANCE HENDRIX, AMERICA, ALA.

He marches away in his slumbers, With a gay, romantic heart, And thinks of the coming battles, In which he will soon take part. He thinks of a mother he is leaving, And a sister so bonny and gay, But his thoughts are most of another, His beautiful, dark eyed May.

GARR CHAIN OF MILLS TO USE ALL DOMESTIC DYES

Close A Contract For Dye-stuff Which Insures Operation Of The Six Mills.

Durham, May 27.—Julian S. Carr, Jr., president of the Durham hosiery mills, one of the biggest users of dyestuff in the state, said this afternoon that he had closed contracts for the dyestuff which removed that problem for the next 12 or 18 months.

Mr. Carr has been experimenting with a dye from a Buffalo, N. Y., concern, and has finally decided after giving the dye a thorough test that it will meet all the requirements of his business, will hold just as well as the German dyes and will work with just as great rapidity.

The solution of this problem will take one of the biggest handicaps from the manufacturing concerns in the state that has come about as a result of the war.

There has been a great deal of talk about the Durham hosiery mills having to close down on account of the lack of dyestuff. All of this has been talk, for while the mill only today closed the contract for the coming year, Mr. Carr has been prepared to run from month to month and was never in any particular danger from that standpoint.

Mr. Harvey G. Sanderford who has been in the school of Osteopathy, at Kirksville, Mo., returned home Sunday morning for his vacation. He was met in Durham by his father, Dr. Sanderford, in his automobile and brought from there through the county. He will return in September.

COFFIN LOADED WITH BOOZE.

Evidently the prohibition law is being enforced in West Virginia with diligence and effect. The shifts resorted to by the thirsty of that commonwealth prove the officials are vigilant and that booze has become very, very scarce. We read that a few days ago a funeral party arrived at a West Virginia railway station with coffin, pallbearers, flowers, two women in somber mourning, citizens in deep grief, tears and crepe, all complete and impressive. A grave had been dug and awaited the supposed remains.

SERVICE HELD IN NEW CHURCH

Service was conducted last Sunday in the new Methodist church here, but owing to the inclemency of the weather the crowd was not what was expected. However a goodly number braved the storm, and were well repaid for their trouble in the sermon delivered by Prof. Peele, Headmaster of Trinity Park School.

At Rowan Superior Court, the past week, Jim Cooper, col., murderer of Lucinda Price, col., whom he killed with a shot gun, was sentenced to die in the State prison, at Raleigh, in the electric chair, July 23.

YEGOMEN CRACK SAFE FOR SUM OF 55 CENTS

Experts Give Time to Difficult Task and Are Disgusted With Their Find

The safe in the establishment of Ballance and Company, wholesale confectionary dealers, located on South Davie street in the heart of the wholesale district, was blown open about 2:30 o'clock yesterday morning but the burglars got absolutely nothing, other than practice and excitement, for their pains.

When the proprietors arrived to open the establishment yesterday morning, the front door was standing ajar and there was a hole in the glass in the door, the intruder or intruders evidently breaking this in order to gain entrance to the store.

There was one locked compartment in the safe, in which were the papers. The burglars never stopped to open this box in the store. It was pried out and taken about 100 yards away, where it was found badly battered yesterday morning and with the papers missing. The 55 cents, all the money in the safe, was left in the office. The burglars, not knowing that Ballance and Company never leave money in the safe, wasted quite a bit of "soup" and soap, and some time. The cracks around the door of the safe had been soaped and the explosive poured in.

IN MEMORIAM

Mr. Z. T. Perry, passed away at his home on April 9th, 1915. He was of a high character courteous and kind always considerate of the feeling of others he endeared himself to all with whom he came in contact.

Mere human energy shall faint And youthful vigor cease, But those who wait upon the Lord, In strength shall still increase.

They with unwearied step shall tread, The path of life divine with growing onward more, With growing brightness shine, On eagles' wings they mount, On wings of faith and love, Till, past the sphere of earth and sin They rise to heaven above."

BOY RUN OVER

The 12-year-old son of Mr. and Mrs. W. L. Sheppard, who reside on Church street, near Summit avenue, was run over by an automobile Monday afternoon, but fortunately was not seriously hurt. The boy was crossing the street when he was knocked down by the machine, which passed over his body.

Mr. Sheppard is a popular traveling salesman and is well known to a number of our merchants. He was in Creedmoor about three weeks ago. His friends hope that boy may not suffer any permanent injury.—Ed.

BODY OF NEGRO BABY WAS FOUND IN GALLON BUCKET

Infant Not Yet Cold; Bucket Was Placed in Running Water of Rocky Branch in Raleigh.

Raleigh, May 31.—A new born negro baby boy, not yet cold in death, was found in a gallon tin bucket in Rocky Branch yesterday afternoon. The discovery was made by Mr. W. L. Collins, who happened to be passing the private bridge over this stream on the pathway leading to Dix Hill, who immediately reported his find to the police. It was 2:55 when Mr. Collins saw the bucket and at 3:30 Officers Duncan and Council were on the scene. They found the infant's head shoved downward into the bucket, over which a cloth had been tied and set in the run of the water, only about three or four inches deep.

Two officers were sent to the scene late yesterday afternoon to make a search for any clue that might lead to a discovery of the secret mother, and possibly murderer. From all appearance the infant was a strong one and well formed, being a particularly large, healthy looking child, and almost white. However, contained distinctive marks of its race by which the Branch woman was able to identify it.

A GOOD IDEA.

We note that the voters of Granville county will vote June 19th on the question of issuing bonds to the amount of thirty thousand dollars, payable in twenty years, for the purpose of building, rebuilding and repairing the school houses of the County and furnishing the same with suitable equipment. This is a good idea for it gives the weaker school districts a chance to make improvements etc.—Norma Headlight.

THANK YOU BROTHER?

Through the kindness of Mrs. J. L. Kirkpatrick we have on our desk a copy of the Creedmoor, Times-News published at Creedmoor, N. C., and edited by Mr. John E. Hart, who formerly published a paper at this place. The sheet shows a spirit of progress and ability, and his many friends will no doubt be glad to know he is making a success in his chosen profession of journalism.—Pilot Mountain Citizen.

The close relation between Cupid and the culinary art was illustrated by three marital suits lately in New Jersey, one woman leaving her husband because he refused to give her turkey at New Year's, a husband accusing his wife of monotony in the kidney stew, while still another complained that his wife cooked his pork chops in soap. Domestic happiness has been known before to be spoiled by broils and stews, but not so literally, while domestic friction has never before been made so tense by the use of soap.

Irvin Hillebeitel has filed a claim of \$400 against the estate of the late Mary E. Fritz, of Pottstown, Pa., for services in nursing her during her last illness. Inasmuch as Irvin was engaged to Miss Fritz, the executors of her estate refuse to pay on the ground that his services were contributed as a labor of love.
