

THE REPORTER.

THURSDAY, MARCH 8, 1877.

A cross-mark on the margin of your paper at any time will indicate that you are due us \$2, for which, with a continuance of patronage, we will be much obliged.

Surry Court is in session this week.

Rev. Mr. Eudaly preached two sermons in Danbury last Sunday.

It is thought that the Legislature will adjourn on the 13th—next Tuesday.

Parties wishing to supply themselves with garden seed, clover or grass seed, will find them in abundance at R. T. Joyce's store.

Hon. A. M. Scales, our courteous and efficient representative in Congress, has placed us under renewed obligations for valuable Congressional documents.

We regret to learn that William Shafer, a much respected citizen of this county, died at his residence near Ayresville, on the 24th ult. Deceased was near 60 years of age. The funeral was preached by Elder R. W. Hill.

A debating society is proposed in Danbury. When it gets in working order there are several questions of local interest that should be investigated—one of which is, "Is not prejudice and sectarianism allowed to run too far, when it denies a school to the community?"

As the privilege of a school-room in the church building has been refused, and as there is no other suitable building in town, there will be no school in Danbury for the present. A school-house will be built in a few weeks, in which the children of the neighborhood may receive educational advantages, without hindrance.

A three-cornered fight took place in Danbury last Monday, in which two of the participants received slight bruises and finger marks. They were arrested and carried before a magistrate, but while waiting the making out of warrants, etc., one of the parties walked out, mounted his horse, drew his pistol, and bidding defiance to the officers of the law, rode away.

The hog chasing season will soon commence hereabouts. When an unfortunate porcine rubs his back against an average Danbury fence its fall is inevitable; and unless he shuts his eyes and walks backward, he cannot miss the gaps that must have been left to tempt stock into forbidden pastures. However, hungry dogs will be let loose upon stock so offending. It seems to us that the owners of such fences are the ones that should suffer.

From here to Patrick C. H., the postal arrangements is entirely out of order. By last mail we received a letter from Presburyville, a distance of twelve miles, that had been two weeks on the way; a paper from Patrick C. H., two weeks after date, and about the same can be said of everything else that comes to us from that direction. It is to be hoped that whoever is responsible for these delays will do better in future, or resign his position.

A very sad occurrence transpired in our county last Saturday. A little son of Alex. Bied, about five years of age, unobserved by any member of the family, found a bottle of whisky in the cupboard, from which he drank very freely. No one knew anything of the circumstance until about 12 o'clock, when the little fellow's absence was noticed. A servant was dispatched to look him up, who soon returned and reported that the child was asleep and could not be aroused. Upon examination the boy was found to be perfectly numb and unconscious. Two physicians were immediately summoned, but their efforts to relieve the little sufferer were of no avail, and he died Sunday morning. The bereaved family will have the sympathy of the public in their affliction.

The petition of forty-seven ladies of Yadkin township, asking that no more retail liquor license be granted, was sent before the Commissioners last Monday, together with a similar one from Meadow township, with thirty signatures. Over one hundred ladies have now appealed to our county guardians in behalf of society and morality, and we cannot believe that their appeals will be ignored. The interests of the county suffer materially through the agency of these licensed houses, and our jail, poor-house and courts are burdened on account of them. There is not a taxpayer in the county who does not pay tribute to them, and it is a fearful tribute they are allowed to wring from the helpless families of their best customers. The Commissioners will act patriotically, as well as humanely, by granting no more license, especially in the townships that have thus appealed to them.

Raleigh News: Dr. Pritchard says that the best behaved congregations to which he preaches are those in the insane asylum, to which the ministers of the city preach regularly by turns. He says they neither whisper during service nor spit tobacco juice on the floor.

Mr. George P. Coleman, of Sandy Ridge, Rowan county, stabbed his son Bingham Coleman in the bowels with a knife a few days ago, inflicting dangerous wounds. The assault was made by George during a state of frenzied anger. Last accounts were that the case was critical but not hopeless.—Concord Register.

On last Thursday night, in the quiet little town of Thomasville, Davidson county, a marriage between Mr. William Thomas and Mrs. Forney, a young widow, the service being performed by Rev. J. W. Lewis, had progressed over half the ceremony, and the friends and acquaintances who had gathered at the bride's residence were filled with joy anxiously awaiting for the minister to pronounce the words man and wife. But such was not the fate, for ere the ceremony was completed the fair bride fell dead at the feet of him who held her hand, but who was not yet her husband. She had fallen a victim to heart disease.

One of the largest droves of cattle ever seen in any place was driven from Texas from Capt. King's rancho to Kansas. The herd numbered 30,000 horned cattle, and was attended by 700 drivers.

Two men shot and killed each other near Okaloosa, Miss. the other day, one of them leaving a wife and fifteen children, the other a wife and four children. Two funerals, two widows and nineteen orphans by the mere touch of a couple of triggers!

POLITICAL NEWS.

The two immortal Judges—Jeffreys, the Butcher, and Bradley, the Bulldozer.

The National Returning Board might do worse than count in Hayes. Suppose they should count in Joe Bradley by a majority of one?

The Baltimore American, a Republican paper, says it has positive information that Mr. Tilden will carry his case into the Supreme Court.

The Albany Argus tells us that Judge Bradley, when a boy, used to peddle charcoal through the streets of that city. Let us hope that we may find nothing blacker than charcoal upon his ermine.

The Republican presidential candidate having been dubbed "Returning Board Hayes," it is proposed by a writer in the New York World that his associate on the ticket be christened "Willie Accomplish Wheeler."

The inauguration of Hayes will fix the doom of Radicalism. No party can live under the enduring infancy which will be stamped upon his administration. In two years the Democrats will in all probability, control the Senate, as well as the House—if the Democrats will avail themselves of the advantages which they now have before the people.
