Pepper & Sons continue to receive new goods every week.

Crops of every kind are better in this part of the county than they were thought to be a few weeks since.

Rattlesnakes are getting scarce, only two killed in this immediate neighborhood last week.

Frown on corruption and act honestly yourself if you would have your neighbors be honest.

Do as we do, look out for the best houses buy from those persons who advertise in the REPORTER.

Good times up here this fall; the grape crop was abundant, just lots of simmons and 'posums are nice and ripe.

Thomas J. Blackburn, Esq., one of Stokes best teachers, is teaching the public school in Dan river district, Patrick co., Va.

The public school for the Danbury District, will commence Monday the 3rd day of October, 1881, to be taught by Rev. Mrs. T. L. Troy, a lady of ability and experience.

The following amount was donated to the American Bible society by the Stokes churches: Danbury Methodist church, \$6.08, Bethel church, \$2.10, Trinity \$1.80, Antioch \$4.40, total \$14.30.

A very interesting protracted meeting is being held at Davis' Chapel, six miles east from Danbury, conducted by Rev. P. L. Groom of the Stokes circuit, and Rev. T. L. Troy, Agent for the American Bible society.

NOTICE—All the committeemen of the several school districts are hereby notified that on Tuesday, the 4th day of October 1881, the county Commissioners will proceed to re-district the school districts with a view to making them as near equal in regards to numbers as possible.

Ex-sheriff Geary was in town Monday, says that he has lost more than half of his hogs by cholera, and that they continue to die; out of 80 hogs that he intended to kill this fall forty two or three have died and several others are sick.

NOTICE—There will be an examination of applicants for certificates to teach the public schools on Thursday the 20th, Friday the 21st, and Saturday the 22nd of October. The first day being devoted to the examination of white male teachers, the second to examining white female teachers, and the last to examining colored teachers.

SILVER COINS—There is a great deal being said about the discount on silver coin with holes in it; we think it a bad order fixing the value so low, and will lead to a great deal of corruption, persons having received the coin at the value fixed on it by the government, will dislike very much to take the price fixed on it by some individual sharper merely on account of a small hole having been punched in it, which had been done innocently in at least nine out of every ten cases, most generally having been punched by some fond mother that she might run a string through it and fasten the precious metal around the neck of her more precious babe, under the not altogether superstitious notion, that by biting the hard silver her precious one would cut teeth easier.

LIQUID OR DRY.—Some people to purchase medicines in the dry state so that they can see for themselves that they are purely vegetable. Others have not the time or desire to prepare the medicine, and wish it already to use.

THE DOCTORS DISAGREE—as to the best methods and remedies for the cure of constipation and disordered liver and kidneys. But those that have used Kidney wort agree that it is by far the best medicine known its action is prompt, thorough and lasting.

Temperance is attracting much attention, showing itself in local option laws, societies, crusades and restrictions upon liquor production; but with all these efforts, the consumption is enormous, and, undoubtedly, the reason is because there is nothing strenuously advocated to relieve and destroy the craving for stimulants.

BEAUTIFIERS.—Ladies, you cannot make fair skin, rosy cheeks and sparkling eyes with all the cosmetics of France or beautifiers of the world while in poor health, and nothing will give you such good health, strength, buoyant spirits and beauty as Hop Bitters.

DWELLING BURNED.—The dwelling house of Joel Snider near Dalton, Stokes county together with a quantity of grain was destroyed by fire on last Friday morning. Loss about \$2,000 and no insurance.

According to the Davenport Democrat there will be an immense corn crop in the State of Iowa, running up into the hundreds of millions of bushels.

Says the Wilmington Review: "For some time past 404 tons of railroad iron, purchased by the Cape Fear and Yadkin Valley Railroad, have been lying in bond on Messrs. worth & worth's steamboat wharf, in front of this office. It was understood that it was awaiting transportation by the river, but now we hear that it has been sold to the Florida western Railroad, and is being shipped to Jacksonville.
