The students of the University of Missouri disliked Prof. Lowry and asked for his removal. This request was refused, as they gave no good reason why it should be granted. Three hundred of them burned the Professor in effigy, and then marched round his residence singing, "Hang Tom Lowry on a sour apple tree."

Two jokers told L. W. Olinger of Louisville, Ohio, that his wife and daughter were dead. They were alive and well, but Olinger had once played a trick on the jokers, and they told him a lie in retaliation. He was so shocked that when he found them safe at home he would not believe that they were not dead, and has since been insane.

The wife of Mr. Murat Halstead, who is a very beautiful woman, is said to have the finest hair in the world. The accounts say that in color and texture it is a miracle of beauty. It is of that tint Titan loved to paint—a mixture of brown and spun gold that is rare to human sight. It is wonderfully thick, and when uncoiled and combed out, it covers her like a sheet of a water-fall.

Cornelius J. Vanderbilt, son of "Commodore" Vanderbilt, and brother of William H. Vanderbilt, committed suicide at Glenham hotel, in New York, on Sunday, 2nd inst., by shooting himself through the head with a pistol while in bed. He has always been considered as something of a "crank," and been addicted to dissipated habits, which was probably the reason why his father left him so small a share of his immense fortune. He was subject to epilepsy.

Is the Republican party breaking more more bitter feeling to-day between the two wings of that party than between the Republican and Democratic parties. The defeat of the Stalwarts in the last convention, Conkling's disaffection, and the use of the patronage in New York, excited the most active animosities. Now President Arthur comes in and reverses things. The Stalwarts are called to the front. No others need apply. The Stalwarts exult, and the Half Breeds are very angry. We see no reason to expect the Republican party to hang together much longer. It has done its work. On real questions of importance, as well as in regard to the "spoils," it is divided.

There were seventy-five men and only three women at a ball in Glauert Hall, Louisville; but the absence of the fair sex did not interfere with the interest of the occasion. About one-half of the men were from Smoketown and the rest from Germantown, both parties having gone there for the avowed purpose of having a fight, which was begun without delay. The owner of the hall entered with a gun to force a peace, but was quickly disarmed and thrown out of the window. Then the door was locked and fighting resumed. Several of the musicians, in order to save their instruments, dropped from the windows ten feet to the ground, but the others were compelled to play lively airs until the battle was over.

It is a common belief that oil has some mechanical effect on the action of the waves which stills their boisterous motion. An interesting experiment for testing this oft-asserted efficacy of oil was tried a short time ago at Peterhead, Scotland. About a month previous an apparatus consisting of 1,200 feet of piping, with three conical valves, 75 feet apart, which prevents the oil from escaping except when the force pump is in operation, was laid down. The day was most suitable for the efficacy of the oil in stilling the troubled waters being tried—the sea coming in and breaking right across the bar. The pipe was charged with oil at high water, and shortly afterward it rose to the surface, covering the sea for a considerable distance; and what previously was broken water was transformed into a glassy and undulating ocean.

STATE NEWS.
There are now nine daily papers published in this State.
Judge Sehenek will soon become a citizen of Greensboro.

On the 26th inst., the press of North Carolina will, by appointment, meet in Elizabeth City.
Charlotte Observer: It is fact, that North Carolina produces more hay per acre than any State along the line of the coast from Maine to Texas, with the single exception of the Empire State. This speaks well for our agricultural facilities.

A fire Wednesday night destroyed the residence of J. A. Thomas, near Sanford, Moore county, N. C., and his mother was burned to death. She became bewildered from fright and was unable to find her way out of the burning house, and the roof soon fell upon her.

Greensboro Patriot: The author of the Estes canard is one Cabel Campbell, of Patrick county, Va. The festive Virginian happened in the neighborhood of Danbury and heard the report which he wired to the Danville Register. This is rather attenuated, but we are assured that Campbell is not a "readjuster."

Sheriff Estes of Stokes, a worthy citizen and official, must have been provoked greatly when he saw what a use had been made of his good name for the sake of a practical All Fool's Day joke. There ought to be a liant somewhere and it ought to be short of making ire with reputation.—Wil. Star.

The Salisbury Watchman says the jail of Rowan is now full, containing 18 prisoners, of whom 2 are white and 16 are negroes, mostly committed for larceny. This is a fine commentary on the Goldsboro negro convention which met last week to demand greater political and social rights and higher consideration from the white people. Their clamor for negro jurors and negro magistrates is easily explained.

There are before Congress bills to erect United States public buildings in North Carolina as follows: Newbern, marine hospital, \$15,000; Statesville, court house, post-office, &c., \$80,000; Charlotte, court house, &c., \$100,000; Asheville, postoffice, &c., \$75,000; Greensboro, postoffice, &c., \$150,000; Durham, postoffice, &c., \$100,000. Total \$575,000. The States is \$17,337,000.

POLITICAL POINTS.
The South is now calling for Tilden.—Boston Post. It will soon be epidemic.—Cincinnati Enquirer, Dem.
It was cruel of Senator Ingalls to refer to Mr. R. B. Hayes as "our alleged and late lamented President."

President Arthur in vetoing the Chinese bill has dealt his party a staggering blow.—Baltimore Gazette.
The Democrats are in high spirits at Washington over the victories in the Ohio and Indiana municipal elections.

Completed returns from municipal elections in Ohio, Illinois, Michigan, Connecticut and several other States, indicate very general Democratic gains.
Teller and Chandler will go into the Arthur Cabinet. Two narrow-minded, incapable Stalwarts. Arthur fails to please. He takes too much Grant "in his'n".—Wilmington Star.

The State Credit Democratic Executive Committee of Tennessee has instructed their chairman to call the Gubernatorial Convention, in conjunction with the call by the chairman of the other wing of the party, in order to unite the two parties.

The Savannah News suggests as a first-class Republican ticket in 1884 the following: For President, Charles J. Guiteau, of Illinois; for Vice-President, ex-Governor Franklin J. Moses, of South Carolina. Both these parties, it asserts, are prominent and pronounced Republicans.

The utterances of the Pacific coast newspapers on the veto of the Chinese bill indicate a strong feeling against the President, and the Republican managers in California practically give up the State as not worth contesting. At several places on the Pacific coast the President was burned in effigy.

There are six million miles of fencing in the United States, the total cost of which has been more than two thousand millions. The census reports show that during the census year there were expended \$78,629,000 alone. Of this amount the largest contribution was from Illinois; the second from Pennsylvania.

STEALING A REPUTATION.—Would you trust one dishonest enough to steal the reputation of another, to make for you anything,—especially your physic,—not knowing of what it may be compounded? How to tell the genuine Simmons Liver Regulator?—Look for the clean White Wrapper having a large red Z in the centre and the signature of J. H. Zeilin & Co. on the side. All others are worthless and injurious imitations. Don't tamper with them, however plausibly recommended, health and life are too precious to endanger.

CANCER CURED.—Dr. J. W. Thomas of Red Shoals, P. O., Stokes co., N. C., offers his services to the public for the treatment of Cancers, Tumors, &c. We do not hesitate to say that, notwithstanding the medical fraternity assert it almost impossible to arrest the disease, that we can guarantee a speedy cure, and remove the Cancer in from three to nine days, with comparatively little pain, and leaving scarcely a scar when the cavity is healed up, which takes from twelve to fifteen days after the Cancer is removed. Tumors, Ulcers, Wens and Moles cured by the same process; and all done without performing any surgical treatment.
Blood purifiers are sometimes used after the Cancer is removed, which frees the system from all virus, and the patient is cured for life.
Because of the money pressure we have been very liberal in our charges, and in some instances where the afflicted were really poor we have cured them without charge. We will take one case in States and counties where we have not operated, without charge simply to show the effectual and speedy cure of the disease. Address, J. W. THOMAS, Red Shoals, N. C. Feb. 16, '82-ly.
