Reporter and Post.

The People's Paper.

Entered at the Danbury N. C., Post-office as Second Class Matter.

THURSDAY MAY 1, 1884.

☞Jefferson Davis is said to be in very poor health.

☞Logan will have the full Illinois vote in the Republican convention.

☞Nearly 1,600 doves were bagged by sportsmen in South Carolina one day recently.

☞It is thought that Archbishop Gibbons, of Baltimore, will be the next Cardinal.

☞A negro was jailed in Charlotte last week for riding a horse 44 miles in 5 hours.

☞Nearly all the bodies have been taken from the Pocahontas mine. Very few of them have been identified.

☞The stockholders of the North Western North Carolina Railroad will meet in Greensboro next Tuesday.

☞The Republican and Liberal State conventions will be held at Raleigh to-day. "And won't that be a happy meeting?"

☞The Newton *Enterprise* itemizes the damage sustained in Catawba by the late cyclone, and finds that the total is $19,525.

☞The Richmond (Va.) Fair for the benefit of the Soldiers' Home will be opened on the 14th of May and continue for some months.

☞The West Virginia and Oregon Democratic State conventions appointed delegates to the Chicago convention and instructed them to vote for Tilden.

☞Blaine is decidedly the favorite Presidential candidate with the Republicans at the North, and Tilden holds the same position with respect to the Democrats.

☞Twenty-one men have been killed in Yancey and seventeen in Mitchell, since the war, and nobody has been punished. But nearly as bad a state of affairs exists in Stokes.

☞The New York *Times*, a leading Republican paper, throws up the sponge. It declares that the Republicans cannot win under the leadership of Arthur or of Logan or of Blaine.

☞It is said there were at least 500 mountain people at the Waynesville railroad celebration who had never seen a locomotive before. They looked at it with awe and wonder.

☞The Wilson *Advance* says that it is a very foolish custom that has obtained among us of puffing every clever man we happen to know in the newspapers, and saying that he would make a good Governor.

☞It will be remembered that some time ago Gen. Joseph E. Johnson was represented by a newspaper interviewer as saying that the South would enthusiastically support Grant or Lincoln if the tariff discussion continued, and that the Democratic party ought to disband. The general pronounces the "interview" a lie out of the whole cloth.

☞Louisiana has just had a State election. The Democratic majority was only 50,000. Mr. Arthur's friends congratulate him on the magical effects of his civil service reform in the South.—He is driving even the negroes out of the Republican party by his judicious manipulation of patronage. North Carolina will pay her respects to the reformer with a nice little Democratic majority of 75,000. Let the good work go on. Hurrah for the "snivel" service!

☞Read the plan of party organization in another column of this paper.—As the *News and Observer* says, all things should be done decently and in order. There must be a certain amount of "red tape" in order to secure harmonious action. The party conferences should be called authoritatively—and when called should be conducted according to definite and known rules so as to facilitate business and secure unity. We therefore commend the plan of organization to the attention of our readers, and hope that they will make themselves familiar with its details. Party organization is of the first consequence—without it no great result can ever be attained, but with it the whole power of the party can be brought to the front and success rendered certain.

THE SUNNY SOUTH.

Wendell Phillips, the late orator, is reported to have said a short while before he died: The handwriting is so plain on the wall that none but a fool need mistake it. New England is doomed just as sure as natural laws will produce fixed results. New England has no soil worth mentioning, and her wealth has all been derived from her manufactures. These are gradually leaving her, and eventually they will all go; some to the West, but most to the South, where the advantages for profitable manufacturing are all located. The coal and iron in the South are easily gotten at in inexhaustible amounts, and the iron mills, foundries, and machine shops can go to them better than they can be carried to the shops. Then the cotton and woolen mills must go there, for the raw materials are, and are to be produced there, most cheaply, uniformly and better. Then look at the advantage of the extra hours of daylight in a year's run. This, of itself, is no small matter. As the South grows stronger, the wealth, culture and power of the country will be centered there, until she become, not only the mistress of America, but the central empire of the world.

THE HONEST REPUBLICANS.

The *honest Republicans* (?) held a primary convention at the Revenue office in Salem on the 23rd of May. The Winston *Republican* gives an account of it, and says that Mr. J. L. Patterson and a few other soreheads of the like description, attempted to break up the convention in a row by withdrawing and leaving only the "honest" element of the party to run the machine.

Mr. Patterson has heretofore been thought by men of all parties, and especially by his party comrades, to be a gentleman of the highest character.—His social position has been second to that of no man in the Republican party, notwithstanding his affiliation in politics with "honest" people. But now, we suppose Mr. Patterson must go the way of all bolters and bought up rascals who dare to oppose the Hon. William H. Wheeler. That the outrageous nature of his offence against "honest" politics may be appreciated, we call the attention of our readers to a letter of the Charlotte *Observer's* Washington correspondent, published in the Winston papers. This letter charges in plain English that "Honest William" has been guilty of personal and official corruption—of bribery, forgery, blackmailing, roguery, peculation—in fine, astounding and universal villainy. We are informed that Mr. Arthur has long been acquainted with the true character of "Honest William." If so, the President has by placing him in the office of collector of this district become a partaker in his merits, and is a bird of the same feather.

If Mr. Patterson should be read out of his party for leaving the company of "christian colored men" and "honest Republicans," like Wheeler and his followers, we shall congratulate him.—If he should get to be United States attorney for this district, and prosecute certain "honest Republicans" upon indictments lately found against them in the Federal court, we shall congratulate the country.

FOR GOVERNOR.

There has been much said about "gubernatorial timber" by certain State papers. All the men spoken of cannot be Governors, unless we have two to a county. If we want but one for the State, Gen. A. M. Scales is the man to nominate. He will carry not only the Democratic strength of the State, but a large portion of the Republicans in his district. He can be elected, and would make a good Governor.

We submit in all earnestness, that if Mr. Wheeler is not guilty of the high crimes charged against him, he owes to himself and to his country to show to the contrary. The way is open. What is he going to do?

J. L. Patterson and C. A. Reynolds are giving the Revenue ring a lively fight. They "raised a cyclone" in the county convention at Winston Saturday.

The Charlotte *Observer's* Washington correspondent says authoritatively that Gen. Scales will accept the Democratic nomination for Governor.

NEWS OF THE WEEK.

CAREFULLY CULLED AND CONDENSED FROM THE REPORTER AND POST'S EXCHANGES.

State News.

Charlotte has a new soap factory.

The sales of tobacco in the Asheville market this season will approximate 3,000,000 pounds, at an average of from 16 to 20 cents per pound.

Capt. R. D. Graham, of Charlotte, has been appointed secretary of the civil service commission, succeeding Mr. W. S. Roulhac, of Durham, resigned.

The two Germans who established a small carpet factory at All-Healing Springs, near King's Mountain, two or three years ago, have been quite successful.

North Carolina will levy no State tax next year. The Western North Carolina Railroad will pay into the treasury $600,600, which sum will carry the State government.

The *Leader* says a colored man carrying a reed cane, walked into a Winston saloon, last Saturday, and called for a pint of whiskey which being given he poured into the cane and walked out.

A man by the name of Maxwell, who lived near Icard and who was subject to epilepsy, was taken with a fit while walking along the track of the Western North Carolina Railroad near that station one night last week, and falling was run over and killed, says the *Piedmont Press*.

The Raleigh *Register* says the amount of money that will come to North Carolina under the Blair school bill, should it become a law, is largely over-estimated. The State will receive each year as much as it expends of its own funds for the payment of teachers. For the eight years this will amount to $2,800,000.

Coneral News.

In the State of Deleware the population is 146,000, and of this 26,000 are negroes.

A decline of 10c. in the price of whiskey has caused a flurry in the market at Cincinnati.

The Mahone leaders are reported as losing heart. They do not hope to carry Virginia for a Republican.

At Monroe, Ga., Jesse Gunn shot and killed his father. Cause jealousy. They were courting the same girl.

The government has abandoned its suits against the white people of South Carolina for alleged frauds in election.

One Dowze, under arrest at Waynesboro, Ga., for the murder of his five children, has confessed the crime. It is believed that he killed them because he was tired supporting them.

There is much suffering for bread in Marion county, S. C. The Pee Dee *Index* reports hundreds as being without a sufficiency of bread, whilst actual starvation in some instances has begun.

The Danville investigating committee has decided not to call any more witnesses. This ends the investigation, out of which Mahone, Sherman and the Republican party have made just nothing.

There was a very preceptible shock of earthquake in London and in the eastern part of England at 9.30 o'clock Tuesday morning. Buildings were rocked, glass broken, plate rattled, bells rung and chimneys toppled over. The event has caused a sensation and a feeling of insecurity throughout England.

Though the main building of the coming world's exposition at New Orleans is the largest ever erected in the country, being nine hundred and seventy-five feet by nine hundred, it is now thought necessary to construct another immense building one thousand feet by four hundred, for the reception of government, State and agricultural exhibits.

Political Points.

The Louisiana friends of the administration have united with the Democrats.

It is said that ninety members of the House are waiting to be heard on the Morrison tariff bill.

Illinois Republican State convention last week nominated ex-Gov. Richard J. Oglesby for Governor and instructed its delegates to the national convention to vote for Senator Logan for the presidential nomination.

The Boston *Herald*, independent, says that if the Democrats should nominate Bayard for President and the Republicans Edmunds, it would go fishing, feeling sure that whoever might be elected the country would be safe.

The Republican State convention of Deleware elected, with one exception, Blaine delegates to the Chicago convention. A delegation in favor of Blaine was also elected to the national convention by the Republican State convention of New Jersey.

FOR RENT OR LEASE.—Pepper & Sons having more business on hand than they can well attend to, will rent for one year or lease for several years, their tanyard at this place. They have in tan about 600 pieces of leather, which is over half tanned, and several packs of hides to work in, which they will either sell or pay for tanning. They will also rent their circular saw-mill near the tanyard.

ELEGANCE AND PURITY.—Ladies who appreciate elegance and purity are using Parker's Hair Balsam. It is the best article sold for restoring gray hair to its original color, beauty and lustre.

TO THE PUBLIC

The Code of North Carolina, section 3341, requires all persons using weights, measures, steelyard and balances in buying or selling, and all millers using weights and measures, at least once in two years to bring forward their measures and weights for adjustment. I am now ready at my office in Danbury to adjust and examine all weights, measures and balances, and advise all persons to bring them in, and thus save cost.—Persons failing to comply with the above law forfeit fifty dollars. This 25th day of February, 1884.
