DEMOCRATIC PLATFORM. Adopted at Raleigh, June 26th, 1884.

We again congratulate the people of North Carolina on the career of peace, prosperity and good government on which she entered after the inauguration of a Democratic State administration and which has been unbroken for s many years since; upon the just and impartial enforcement of the laws ; upor the efficiency of our common school system, and the great progress made in popular education ; and upon the generimprovement and enterprise manifested in every portion of the state. And we again challenge a comparison beween this state of things and the crimes outrages and scandals which attended Republican ascendancy in our borders and we pledge ourselves to exert in the future, as we have done in the past, our pest efforts to promote the material in erests of all sections of the State.

Affirming our adherence to Demoratic principles as heretofore enunciated in the platforms of the party, it is

Resolved, That we regard a free and fair expression of the public will at the ballotbox as the only sure means of preerving our free American institutions and that the corrupt and corrupting use of Federal patronage, in influencing and controlling elections is dangerous to the liberties of the State and the Union.

Resolved, That we are in favor of the inconditional and immediate abolition of the whole internal revenue system as an intolerable burden, a standing meance to the freedom of elections, and a source of great annoyance and corruption in its practical operation.

Resolved, That no government has a right to burden its people with taxes beyond the amount required to pay its ecessary expenses and gradually extinguish its public debt. And that whenever the revenues, however, derived exceed this amount, they should be reduced so as to avoid a surplus in the treasury. We therefore urge upon our Senators and Representatives in Congress to exert themselves in favor of

uch legislation as will secure this end. Resolved, that with respect to the tariff we reaffirm the life long and fundamental principles of the party as declared in the National Democratic platforms and that the details of the method by which the constitutional revenue tariff shall be gradually reached, are subjects which the party's representatives at the federal capital must be trusted to adjust; but in our opinion the duties on foreign importations should be levied for the production of public revenue, and the discriminations in its adjustment should be such as would place the highest rates on luxuries and the lowest on the necessaries of life, distribute as equally as possible the burdens of taxation and confer the great-

AND WHERAS, There is now more from the pockets of the people by unjust taxation on the part of the Republican trying to get a board bill out of him.
