

**Reporter and Post.**

**A PAPER FOR THE PEOPLE.**

Entered at the Danbury N. C., Post-office as Second Class Matter.

THURSDAY, MAY 28, 1885.

President Cleveland has saved the greatest part of his first month's salary—\$3,888.87. No wife to go through his vest pockets.

The President's revoking of the appointment of James Blackburn to be Collector of Internal Revenue because of a bloodthirsty rebel letter which he wrote to his wife in 1861, raises the inquiry: Is the war ended or is it still raging?

The Macon Telegraph puts it this way: The South has voted solidly for twenty years the Democratic ticket in order to rid herself of the Republican harpies who prey upon her peace and retard her progress. If the end to which she has labored be not accomplished after success has crowned her solidity, the States that make up the South will align themselves with the factions that hold out the best offers.

It is said that the mortality among children "brought up on the bottle" is frightfully large. Of 4,510 infants under one year who died of gastro-intestinal troubles in Paris in 1882, it is found by recent investigations that very nearly the whole number were victims of artificial alimentation, wholly or in part, or had been fed prematurely with solid food. At the dispensary of the Societe Philanthropique not a single case of the disease was found in infants fed in conformity with natural laws.

Many children are "brought up on the bottle" so that their mothers can gad about and go in society—poor souls.

One of the keenest things ever said on the bench is attributed to Judge Walton. While holding a term of the Supreme Court at Augusta he sentenced a man to seven years in prison for a grave crime. The respondent's counsel asked for a mitigation of the sentence on the ground that the prisoner's health was very poor. "Your Honor," said he, "I am satisfied that my client cannot live out half that term, and I beg of you to change the sentence."—"Well, under those circumstances," said the judge, "I will change the sentence, and make it for life instead of seven years." It is needless to add that the respondent agreed to abide by the original sentence, which the judge permitted him to elect.

The Warrenton Gazette says the Republican party was defeated because it was no longer thought worthy to fill the offices—administer the government. If this be true, ought not a Democratic administration to be served by its own friends and supporters? "They" say go slow, the President will do his duty in full time; and if the newspapers report them correctly, Senators Vance and Ransom and others say have patience, let the civil service rules be enforced, let the officers of the government be removed as their terms expire. If you heard these gentlemen on the hustings last summer, you remember that they said in substance the Radical party had plundered the government, had squandered its revenue and brought reproach upon it. We think it time the offices were filled by Democrats.

The Cincinnati Enquirer, owned by Mr. John R. McLean, says editorially: "McLean is a candidate for no office, elective or appointive, under the shining stars. He is actively engaged in the publication of the Cincinnati Enquirer, and has no time to waste on public offices. He would not accept one even with a chromo attachment. He asks for nothing but good health and a continuation of business as it exists to-day at the old stand, No. 247 Vine street. At this number, second floor, he has an office which suits him better than any which kings or princes might have to offer. With this he is abundantly satisfied. As affairs are shaped at this present writing, to offer him an office would be to tender a raw turnip to an epicure who had just dined on pigeon pie. Thanks, awfully! No office for Mr. McLean."

The Wilson Advance says a negro had written an insulting letter to Mr. Henry Turnage, of Maysville, Pitt county, and as he passed that gentleman's house, Tuesday of last week, Mr. Turnage inquired of him about it. He repeated the insult contained in the letter and Mr. Turnage fired upon him, inflicting a fatal wound. We have had eighty days of Democratic rule and no darkey has been re-enslaved; no Confederate soldier has been pensioned; no Confederate bonds been redeemed; no slave-holder has been paid for his slaves.

While we will not say that the hopes of the people are doomed to disappointment, yet it is manifest that Mr. Cleveland's policy is a "go slow" one indeed. And it cannot be gainsayed that it has produced widespread discontent, and murmurs are growing loud and deep at his dilatoriousness. Professing to be a non-partisan, Mr. Cleveland refuses to make changes except in the interest of reform. His ideas of reform may be correct, but if they are those of the rank and file of the Democracy are wrong. What was a change of administration wanted for, if not to purify the Government? Can the Government be purified by simply having an honest head? Can a stagnant pool full of filth and slime and corruption, be made pure water simply by the running in of a small stream from a crystal spring?

Fault has been found with President Cleveland for some of his appointments but when the circumstances attending them came to light, it appeared that the mistakes were made through misinformation received from those who should have been the most careful in making recommendations. It is unfortunately too frequently the case that Congressmen urge the appointment not of the most worthy, competent and acceptable to the people, but of those who are the most political service, and can be of help in securing their nomination and re-election. Hence it is not always safe to take their recommendation of applicants for official appointments. The problem is how are suitable and proper persons to be found and selected for appointment to the offices of the Government?

Wealth is the greatest earthly blessing, if properly used, and we believe that some men, (those who abuse their wealth) are only permitted to do so to show us the amount of evil which can be done with that which is intended only as a blessing. The same of talent. Great talent is given men for good, not evil, but it is often converted into evil, as in the case of Bob Ingersoll, for instance. A man who has a contented disposition, means by which he can live comfortable from his labor, and who does good with his money, is a wealthy man indeed.

Political parties were formed, or, as President Cleveland says, were made, for the people, and they who honestly and unselfishly serve their party, so made, surely have a better claim than those who have rendered no service whatever. The Democratic party must be assumed to be a party which was "made," and is continued in existence, for the good of the country. They who serve that party faithfully serve, therefore, the country, and they who serve the country are entitled to that recognition which just and honorable service should always bring.

Mr. Joseph Pulitzer is the editor of the New York World. He is also representative-elect from the ninth congressional district in New York. In the latter capacity he has the disposal of a cadetship in the military academy. Like a good-hearted and sensible man he has arranged for a competitive examination among fatherless boys. Like a generous man he has also set apart \$300 for an outfit for the successful competitor. It takes a newspaper man to do the right thing in the right way.

The memories of Ephraim Brevard and J. McKnitt Alexander went without the usual honors being done them at Charlotte on the 20th. It rained on the celebration and everything had to be postponed except a balloon ascension in the afternoon and the ball at night. The Observer says there were quite a number of visitors in the city.

The Wilson Advance says a negro had written an insulting letter to Mr. Henry Turnage, of Maysville, Pitt county, and as he passed that gentleman's house, Tuesday of last week, Mr. Turnage inquired of him about it. He repeated the insult contained in the letter and Mr. Turnage fired upon him, inflicting a fatal wound.

We have had eighty days of Democratic rule and no darkey has been re-enslaved; no Confederate soldier has been pensioned; no Confederate bonds been redeemed; no slave-holder has been paid for his slaves.

**NEWS OF THE WEEK.**

CAREFULLY CULLED AND CONDENSED FROM THE REPORTER AND POST'S EXCHANGES.

**State News.**

Geo. T. Foust, merchant, Winston, has made an assignment.

Mrs. Hugh Bishop, of Buncombe, dropped dead while attending to her usual duties.

Rev. A. G. McManaway has accepted the call to the Baptist church of Charlotte, but will not take charge until fall.

Gov. Scales issued his first pardon last week. It was to Louis Ruffin, colored, of Orange county, convicted of larceny.

The Davidson Dispatch has entered its fourth year. It is a good paper and getting better. Eldridge knows what he is about.

One mule has been beat at his own game. At Clayton, Johnson county, recently, a horse kicked one of these nimble brutes to death.

Many of the Rowan people have commenced raising and shipping garden stuff. They say they can make much more money at this than they can raising grain.

The Greensboro Workman learns that Mr. John Raney, of Reidsville, a victim of epilepsy and by reason of that fact of unsteady mind, committed suicide by shooting himself in the head with a gun.

The New Berne Journal says it is claimed that the entire Federal patronage in North Carolina (outside of internal revenue service) does not equal the fish and oyster catch of Carteret county.

The Charlotte Observer states that a child of Mr. J. E. Holler, of Huntersville, was killed, Tuesday evening, through the administration by its father of a dose of morphine in mistake for another medicine.

Representative Henderson has secured the appointment of Miss Margaret Jarvis as postmaster at Cross Roads Church Yadin county, and that of W. H. Hunt as postmaster at Lexington vice James Smith, removed.

The Great Falls Manufacturing Company at Rockingham has shut down on account of the low prices of cotton goods. The Roberdell Mills at the same place will close this week. Both mills will start again as soon as the business situation improves.

The Asheboro Courier having remarked that the D. D.'s are getting almost as thick in North Carolina as the "kurnels," the Reidsville Weekly is moved to observe that as soon as the shade gets large enough for them all to loaf in, the fool-killer will take the census.

**General News.**

The wheat and oats crop of Virginia is wretchedly bad.

Iowa contains more persons who can read and write, in proportion to her population, than any other State in the Union.

The protracted struggle in the Illinois Legislature was ended by the election of Gen. John A. Logan to the United States Senate.

A midnight fire in the house of a Minnesota farmer on the night of the 14th burned his five children to death. He and his wife and a hired man escaped.

Director General Burke, of the New Orleans Exposition, has resigned. This seems to foreshadow the dissolution of the enterprise, which has been a good show at a big cost.

Snow to the depth of two feet still remains in the woods of the Adirondack forests about Bownville, N. Y. The ice in the lake is solid and will not break up apparently much before June 1.

The State of Nevada has now but 12,000 inhabitants, and yet is represented by two members in the United States Senate. There ought to be some way of retiring States when they peter out.

The New York World has developed the interesting fact that John Sherman and James G. Blaine have entered into an alliance for the next campaign. Sherman is to be President and Blaine his Secretary of State.

There is an old lady living in Athens, Ga., now 82 years of age, who has never entered a church or spoken on the subject of religion. When this topic is broached she always gets up and leaves the room. No one knows what is her belief.

It is generally understood that Mr. Vilas will be a candidate for the United States Senate if the Wisconsin Legislature is Democratic two years from now. Mr. Vilas is one of the favorites of the President. He is with Mr. Cleveland perhaps more than any other one member of the Cabinet.

The Asheville citizen says the star route service shows no more brilliant instance of expedition and economy than furnished by Jesse Gregory. He takes the mail daily from Franklin, in Macon county, to Forney's creek, in Graham county, a distance of 32 miles, down one day and back the next, and never misses connection. He is paid the munificent sum of \$9 per month.

Washington Gazette: Speaking of jails in North Carolina, Major L. C. Latham said recently that Dare county could boast of the most unique prison in the State. It is built entirely of logs and has no doors or windows, except a trap door in the roof. Prisoners are lowered through this door with a rope and are hauled out with a pair of fish tongs. A patent has been applied for.

**Social Equality Very Near Home.**

The negro-social-equality rules and government at the negro college near this city, known as "Biddle University," under the control of professed white men, is attracting the attention of the public and meriting the disgust of most decent people. The Wilmington Star refers to the disgusting matter in the following manner:

"A Rev. Dr. Allen, a fanatic and negro-philist, we suppose, has charge of Biddle University (colored) near Charlotte. He has so interfered with the arrangements of that institution that the Southern Presbyterians are on a big disgust and will wash their hands clean of it. This man Allen gives notice that social equality is now rampant and that whites and negroes cat and hobnob together, and, we suppose, bunk together. Sambo has the worst of the bargain, for he is a more decent fellow than his white brother, who, in an attempt to destroy the color line, simply degrades himself. The Charlotte Observer says: 'They say it is a fact that the colored people at Biddleville now allow the white folks to eat at their table and also to enter their parlors and mingle with them in social enjoyments.' Thus Dr. Allen gives notice that not only do four white (so called) professors eat and mix socially with the negroes, but 'all visitors, be they white or colored, \* \* \* do the same thing.' We are sorry for the visitors when they are caught in the social fly-trap. Our neighbor the North Carolina Presbyterian, has some healthy remarks on this new departure. We do not know who is more to be watched and despised, a Mormon emissary or a white fellow who is so in love with Sambo and Pompey that he systematically attempts to degrade his own race."—Charlotte Home-Democrat.

**Cause and Effect.**

The acquittal of Joseph H. Martin at Charlottesville, Va., last week, and the lynching of H. W. Terry at Liberty, in the same State, this week stand in the relation of cause and effect to each other. Martin, having perpetrated an atrocious murder, pleaded insanity and escaped the gallows. Terry committed an equally atrocious murder and was preparing to enter the same plea. The people, outraged at the defeat of justice in the Martin case, and realizing that Terry could slip through the meshes of the law just as easily, determined that justice should not be again baffled, and they accordingly administered it in their own rude, informal way. Society has organized courts for its own protection. Whenever they cease to fulfill their mission, then society will seek redress of its grievances by other methods. The great danger is that in doing this it will punish the innocent. The remedy is in the courts. If they will punish the guilty lynch law will cease in the land. It is painful, however, to see that they still refuse to be warned by the low mutterings of public opinion. In Goldsboro only last Saturday, a man named Pearsall, who deliberately slew one Crow, in November last, was acquitted on the ground of insanity. The Messenger criticizes the verdict and reports great indignation in the community. It is to be hoped that the courts and juries will begin to reform their methods before it is too late. Public opinion is becoming aroused on this subject. He is a fool who is not able to see the coming storm. Presently each murder will begin to be followed by a lynching. Then some innocent men, falling under suspicion, will suffer for the guilty. Judges must learn to weep less and juries must learn not to confine their convictions to "niggers" indicted for stealing chickens—Statesville Landmark.

PRETTY MUCH OF A HUMBEO IT IS.—We think the North Carolina Department of Agriculture, at the last meeting, did a good thing in abolishing the office of fish commissioner. The duties of the office of the fish commissioner were devolved upon Commissioner McGehee. We hope the day is not far distant when the board will abolish the whole fish-business humbug, and use the money for the benefit of the farming interests of the State.—Charlotte Home-Democrat.

**CAMACA!**  
To the Weary, Feeble AND PLEASURE SEEKER.

Seeing the need in this section of a place where the weary, feeble and broken down may recruit their health and rest; where they and their families may spend the hot season pleasantly when it is necessary to leave their homes or change air, that the failing health of some loved one may be restored, we have laid out

**A NEW TOWN**

and are now offering for sale lots in probably the healthiest section in North Carolina. The town is located on a beautiful

Flat Mountain Ridge

2 1/2 miles west from Danbury, about 1/4 of a mile from the celebrated Piedmont springs; about the same distance to Pepper's Alum springs; 1/4 of a mile from Smith's Claybeate spring, and two miles from C. E. Moore's Sulphur spring, while the location presents

**The Finest Views**

of Moore's Knob, the Hanging Rock, and other prominent peaks along the Sauratown mountain. The lots are well covered with large and small forest trees, which will afford shade in summer and form

**Beautiful Groves.**

The whole is

**Surrounded by Springs**

of the purest mountain water, entitling it to the Indian name, "Camaca," a land of springs, which, together with the pure mountain air, would bring color to the faded cheek, and strength to weary frame, even if there was no real mineral water within a hundred miles of the place.

The undersigned propose also to erect a saw-mill, planing machine, &c., that they may build cottages or furnish lumber to those who wish to purchase lots in this healthful locality, where no malaria ever comes, and a case of typhoid fever was never known, except it was contracted out of the neighborhood.

The price of lots this season, 50x100 feet, will be \$25 each. For further particulars address,

N. M. & W. R. PEPPER,  
May 20, '85. Danbury, N. C.

**A MARVELOUS**  
TOLD IN TWO LETS

**FROM THE SON:** "28 Coda, York, Oct. 21, 1882. My father resides at Vt. He has been a great sufferer from it, and the enclosed letter will tell you a marvelous effect

**Ayer's Sarsaparilla**

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case.

Yours truly,  
W. M. PHILLIPS.

**FROM THE FATHER:** "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of

**Ayer's Sarsaparilla.**

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the Sarsaparilla in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 73 years of age. Many inquires what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct. 21, 1882.

Yours gratefully,  
HIRSH PHILLIPS."
