Democratic Platform.

The Democrats of North Carolina submit to the voters of the State the following declaration of principles, viz:

Resolved 1, That we affirm the doctrines of the party as enunciated by the Chicago convention of 1892; and desire to signify as follows what is the construction placed by us upon the section thereof relating to silver viz:

We hold that it is the duty of the lawmaking department of the government, now in the hands of the Democracy, to take immediate steps to restore by legislation the equal privileges of silver with gold at the mints, by the free and unlimited coinage of both gold and silver at the ratio of 16 to 1, such being the ratio of coinage which heretofore has held in the United States.

Resolved 2, That we urge upon the said law-making department of the government the abolition of the unconstitutional and prohibitive tax of 10 per cent. upon the issue of State banks.

Resolved 3, That, in view of the deplorable condition in which the late Republican administration left the Treasury of the United States—presenting as it did, such a lamentable contrast to the overflowing condition in which it was delivered by Mr. Cleveland's first administration to its Republican successor—we urge upon the said law-making department, the immediate enactment of an income tax.

Resolved 4, That we emphatically approve the tariff doctrine enunciated by the Chicago platform.

Resolved 5, That while we are opposed to the slightest qualification, in favor of the Federal Government, of the repeal of the ten per cent. tax on State bank issues we nevertheless advocate as a matter of State policy such a regulation and restriction of the issue of banks chartered by North Carolina as will secure a sound currency.

Resolved 6, That we admire the courage and lofty patriotism of the President; that we most heartily commend his prompt and effective action under the law for the suppression of the efforts of alien anarchists to disturb, by force and violence, the true relations of labor and capital; his sturdy efforts to secure the enactment of tariff reform as called for in the party platform; his prompt approval of the bill repealing the Federal election law; the notable reductions of the expenses of government under his administration, and the freedom from scandal which has been such a marked feature of his return to the head of affairs.

We point with pride to the record of the Democratic party in North Carolina and endorse the present State administration. For eighteen years this party has full control of the State government. It has administered it with the greatest economy and at all times with an eye single to the best interests of all the people. Coming into power at the end of a reign of debauchery and crime, it addressed itself to the work of rehabilitation, and its record is one which challenges public admiration. It has rebuilt our public school system; established asylums for the care of our unfortunate; administered justice; promoted our public works; fostered every public enterprise; reduced taxation and in all respects justified the confidence of those who have trusted it. It has afforded security to life and property; protected both capital and labor in its rights, and done all that government can do for a people. No scandal has attached to its administration of public affairs. We congratulate our citizens upon their well reposed trust in it; we congratulate them upon the friendly relations existing between the races; upon the prospects of bounteous crops and returning prosperity. With the record before them we appeal to them for a vote of confidence this year in the Democratic party.

Resolved, That we favor the abolition of the internal taxes on spirits and tobacco as soon as practicable. If this cannot be done that the harsh and unjust features of the law for its collection be modified.

Summer Excursion Rates.

FOOD FOR REFLECTION.

A Chinaman at Beaufort, S. C., Charles Chin Sang, has written a letter to the New York Herald, complaining of the treatment received by his countrymen in the United States. We were specially impressed with one idea brought out by this Chinaman and we think there is in it food for reflection for all earnest Christians who hold religion paramount to sectarianism. He says:

"You remember that some Roman Catholic missionaries, some Baptists, some Presbyterian, Episcopal, Methodist, Unitarian, Lutheran and some Huguenot ministers go to China, and each minister tries to make the Chinese believe in their religion, and that makes the Chinese all mixed up and they do not know who to believe, and that makes them fight. Chinese don't believe in one God in heaven and no more; something like the Jews, who believe in one God."

It is no wonder that these heathen become confused under the preaching of extreme sectarian creeds. A new religion is carried to them and if interest they are told, perhaps, that in order to reap the benefits of the glad tidings and to secure the salvation of their souls they must, after embracing christianity, subscribe to the peculiar tenets of this or that creed, many of which appear conflicting to the unenlightened, and confusion follows:

Now, the point is this: If the zeal of christian missionaries of all denominations was concentrated upon the one great essential principle that salvation depends upon acceptance of christ and not upon what church one joins, there would probably be less confusion and larger harvests for christ in the foreign field.

It is well enough to have different denominations and every christian should ally himself with the creed that suits him best and through which he can get the most good and do the most good; but denomination is wrong whenever it is exalted above christianity.

Preach to the heathen "Christ and Him crucified," basing individual salvation upon repentance and acceptance of Christ and not upon the prominent, differing, non-essential feature of any denomination. Teach him that he should connect himself with some branch of Christian church; that he can be a better man in the church than out of it, but that his choice is a matter of individual preference and not of prime importance in the plan of salvation.—Winston Sentinel.

Just so, Bro. Senticoe have seen it, you have seen it, you have seen it, and what you say will in too many cases apply to home preachers. Yes we have seen the effects of a good sermon lost by the preacher right in the midst of a revival opening the doors of the church and in a long winded talk such as most of his congregation had listened to ten or fifteen times urge the three or four who had professed the importance of joining "the church" of course his church making the impression on the congregation that adding numbers in his church was of more importance with him than getting sinners to put their whole soul mind and thoughts into the subject of escaping the horrors of hell, church passers see this and if they will not speak on it the similar press must, agreeable to the way we see it there is too much church membership and too little bible religion at this day.

HOW THEY CATCH MONKEYS.

A gentleman who has spent some time at Panama tells a St. Louis man how they catch the little monkeys down there, which are so useful to the itinerant organ grinders. They take a coconut and cut a hole in it large enough to admit a monkey's paw. A string is then attached to the nut. The monkey is a very inquisitive little animal, and when he sees one of these nuts he inserts his paw through the hole to find out what is inside. When the paw is closed it cannot be withdrawn, and as the monkey has not sense enough to open his paw, the nut is drawn by the string and the monkey with it to within reach of the captors, who throw a net over the monkey and in that way secure him.—New Orleans Picayune.

HOOD'S Sarsaparilla wins its way into the confidence of the people by the good it is doing. Fair trials guarantee permanent **CURES.**

Read what the "Silver Dollar" says of Hon. Tom Settle then ask yourself whether he is the man you want to hold a place in Congress pretending to represent you.

During the session of Congress just ended there were 308 official roll calls. It is the duty of every member to be present and vote at these calls, and a large number are recorded on most of them as only missing from 12 to 60 times, but it was left to Congressman Settle to answer and vote only 25 times out of the 308 that he called. Mr. Settle failed to answer and vote at Two HUNDRED AND FIFTY-SIX calls, where the most important and vital interests of his constituents were involved.

The people are asking, where was the ring candidates at these numerous roll calls. It has been currently reported that Congressman Settle has occupied his seat only about FORTY days during the entire session, and this seems to account for his miserable failure as a servant people.

No man would keep another in his service and pay him for six days in the week when he only labored one day. Congressman Settle has virtually missed five days out of every week that the people have employed him. He has only performed 16 per cent of the work he was employed to do. He has squandered 84 per cent of the time for which he has drawd full pay. He has claimed and collected full pay for ONE HUNDRED SIXTY-SIX days when he has only worked SIXTY DAYS.

The people will still continue to repeat this question louder, and still louder, until it resounds and reverberates through the whole State of North Carolina. And they will ask again and again, where was Mr. Settle when the roll was called? Was he in New York? Was he in Boston, Massachusetts? Was he on board a Pullman Sleeper? Was he at Greenboro or Reidsville? Where was he? The people will perhaps never know where Congressman Settle was during the session of Congress, but they do know that when he was present, and did vote, it was against their best interest. He voted to destroy silver—the people's money—and helped the gold ring. He watched closely after the interests of the revenue ring, by trying to stop appropriations to prosecute the law breakers.

The people now know the reason he has been renominated again by the revenue ring. It is because he has been their faithful servant, while neglecting the business the people paid him to do. Will the people elect a Congressman who has made such a disgraceful record?

WOMAN SHOULD BE NATURAL.

A woman never loses anything by being real. For a woman to be natural is for her to be an object of respect and love. She was created to sway, not as men sway, by strong physical powers, but in her own way and by her more gentle qualities. A natural woman is the greatest power in the world. By her very nature she coaquers, whether she be the humble clerk or a ten time millionaire.

"She is always so lovable because she is so natural," was the graceful tribute I heard a group of women a few evenings ago pay to a young woman a few evenings ago pay to a young woman who had just left them.

"Men are so fond of her," said another woman in the group, "and yet no one would call her pretty."

Let artifice, sham or pretention enter into the nature of such a woman and she would become at once an unwelcome guest where now she is bidden and eagerly sought for.

Someone may say: "Yes, the one you speak of is probably a rich woman, and she can afford to be lovable."

Not at all, my friend. She is the daughter of a man whose salary is too meagre for him to give his wife a servant, and this daughter helps the mother in her household. She is the very sunshine of that home, simply because she never tries to appear what she is not.—Philadelphia Inquirer.

FOREORDINATION.

Years ago an old hard-shell preacher who lived on the border in the days when the Indians were at war with the whites, was making preparations one morning to go to his church, miles away, through a country infested with savages. He was carefully loading his old flintlock rifle to take along, when a friend present remarked:

"What are you going to take that gun along for, old man? Don't you know that if it were foreordained for the Indians to kill you, the gun won't save you?"

"That's very true," said the old man as he deliberately rammed the ball home, "but suppose it is foreordained that the Indian shall be killed? Now, how would the good Lord carry out his purpose if I didn't have my gun along?" That closed the debate.—(Summersville (Ga.) News.

ANSWER CHILDREN'S QUESTIONS.

New York Ledger.

Education is erroneously supposed only to be had at schools. The most ignorant children often have been constant in their attendance there, and there have been very intelligent ones who never saw inside of a schoolroom. The child who always asks an explanation of term of phrases it cannot understand, who is never willing to repeat, parrot like that which is incomprehensible, will outstrip in "education" the ordinary routine scholar. "Education" goes on with children at home, on the street, at play—everywhere. Do not refuse to answer the proper questions then. Do not check this natural intelligence, for which books can never compensate, though you bestow whole libraries.

Read what Mitchell, Fleming & Co., of the Star Warehouse, Greensboro, N. C., have to say to you in this paper in regard to the sale of leaf tobacco. Then try them with a few hundred pound of your fine Stokes leaf.

IS IN YOUR OWN HAND.

Phylaxia assumes to tell what the lines in your hand indicate. It will answer you, if touching above the above diagram almost any question. The length of the LINE OF LIFE indicates the age to which you will live. Each HAND MARK gives you thirty years. Well marked LINES OF HEAD denotes brain power; CLEAR LINES OF FORTUNE, (name or riches, both combined) denote success in life; but you must learn what the lines mean. You will see a plenty of the same in the Democrat's Family Magazine, an extensively circulated, and every number of the family is illustrated. It is a divine magazine in name. A LIFE LINE OF HEALTH indicates disease; a LIFE LINE OF FATE, personal life; the reverse if crossed. A well defined LINE OF HEART indicates you are ailing; so will the marks show in the Democrat's Family Magazine, an extensively circulated, and every number of the family is illustrated.
