A Child Burned to Death—News From Gideon.

Gideon, Jan. 24.

There are several attending court this week, from this section. Several of our good farmers in this vicinity are done burning plant beds, and others are burning.

There is lots of bad colds in this neighborhood, but strangest of all Uncle Gid says he has been bothered less this winter than ever before with colds. What's going to happen?

W. M. Peobles and son, Charlie, are both suffering with lots of pain from their sore hands. Both of them have the same disease something like blood poison in their right hand. They are both in such a condition that it requires the attention of a physician. We hope they will soon recover.

P. H. Carter, of Dillard, who has been suffering for several weeks, died yesterday morning. He was thought to be improving up till Sunday evening when he was stricken speechless and never spoke any more. His remains will be laid to rest this afternoon at Bethesda church. Funeral to be preached by Rev. Robins, of Madison. He was a good honest, upright hardworking citizen and will be greatly missed, but we hope our loss is his eternal gain. He leaves a host of relatives and friends to mourn his death.

Yesterday while Mr. Wirt Mitchell, of Dillard, was out burning some straw and grass, one of his little step sons, (Andrew), went where he was and got too close to the fire and his clothes caught on fire and no one being near enough to extinguish the flames. His clothes were completely burned off of him. And he was so badly burned that he died last night between ten and eleven o'clock. He lived about 6 hours after he was burned. His mother especially has our heart felt sympathy. His suffering was as sad a scene as I ever witnessed.

MOORE'S SPRINGS.

Moore's Springs, Jan. 23.

Christmas times have been very quiet in our section. There has been but very little drinking with us, and I am glad it's so, where there is liquor there is disturbance and misery, agitation, confusion and tumult.

It seems that the mountain people round about here are trying to draw nearer their God than they have in the past. God says draw nigh unto Him and will draw nigh unto you.

We learn that Mr. J. T. Moore has been fortunate enough to fill his ice house with ice to await the future summer season.

An Enterprising Firm of Winston.

Davis, Boyles & Co., of Winston, N. C. have just closed their first year in the mercantile business, and have made a complete success. Their trade has been steadily increasing since they began business, January the 1st, 1904, which is due largely to the quality of goods they handle and courteous treatment to all. They are now planning to increase their sales by increasing their stock of goods, so they will handle most everything in a general line of merchandise. A great part of the trade of this new firm comes from Stokes county's farmers, and the farmers of Stokes county would do well to make their store headquarters while in Winston. You will always find their ad in the Reporter.

THE above picture of the man and fish is the trademark of Scott's Emulsion, and is the synonym for strength and purity. It is sold in almost all the civilized countries of the globe. If the cod fish became extinct it would be a world-wide calamity, because the oil that comes from its liver surpasses all other fats in nourishing and life-giving properties. Thirty years ago the proprietors of Scott's Emulsion found a way of preparing cod liver oil so that everyone can take it and get the full value of the oil without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, backward children, thin, delicate people, and all conditions of wasting and lost strength.
