Lelia, the little four year-old daughter of Mr. and Mrs. Elliott Jessup died Friday evening of membranous croup. She had been sick with measles for several days. The funeral services were conducted Saturday evening by Dr. Smith after which the remains were laid to rest in the Baptist graveyard.

We can't understand why Lelia, the light and sunshine of this home should be taken away, but we know God doeth all things well and it is for the best and we know she is at rest. We extend our sympathy to the father and mother and bid them strive some day to be with their girl again. She cannot come back to them but they can go to her and be united again in Heaven where partings come no more and all is joy and gladness.

Mrs. Angel, of Mt. Airy, is visiting friends here.

Sunday evening the angel death entered the home of Mr. Sam Cook and claimed his little granddaughter, Bertha Jessup. The little one was the daughter of Mr. and Mrs. R. M. Jessup. She was one of the brightest children I ever knew. She had membranous croup. The funeral services were conducted by the Friends church. Our hearts go out in sympathy to the bereaved mother and Father for we know they have need of our sympathy for never more will the innocent laughter and talk of little Bertha brighten their lives. We will say don't grieve for her for she is safe in the arms of Jesus.

### For Tobacco Growers.

Specials from Washington says: Representative W. W. Kitchen has again introduced his bill to allow tobacco growers to stem their tobacco without paying special tax and the bill has the support of the entire delegation. The bill reads as follows:

"That growers of tobacco shall have the right free from taxation to stem and hand twist or hand press or in any other way, and in any quantity, form, or shape, make and prepare for market any tobacco of their growth and to sell the same to any person or persons with license and without the payment of any tax thereon, and that said tobacco so prepared by the grower thereof shall not be subject to taxation under the internal revenue laws so long as it remains in the form and condition in which the grower prepared it and, that in such form and condition any person may buy, sell or use the same without tax or license."

A Washington correspondent says: While the Messrs. Kitchen represent possibly the two largest tobacco growing districts in the State, the entire delegation is very much in favor of such legislation, which, it is believed, will afford great relief to tobacco planters. The State delegation will give its earnest support to the measure.

## TAX NOTICE! Fourth and Last Call.

I will meet the tax payers of Stokes County, for the purpose of collecting their taxes for the year 1905, at the following times and places, to-wit:

Germantown,	Sat. Feb. 24, 1906.
King,	Mon. " 26, "

Lawsonville,	Fri. " 16, "
Francisco,	Sat. " 17, "

I trust the people will meet me at the above times and places and settle their taxes promptly. This is my fourth and last round. The law does not require me to make more than two rounds, nor to go to more than one place in a Township at each round, but in order to give the people all the convenience that I could to pay their taxes, I make four rounds, and make from one to four points in a township, instead of one. I have tried to make a call convenient to all the tax payers of the county, and as this is my last call, I respectfully request all those who have not paid to meet me on this round and pay up the taxes that are still due.

Don't forget that this is election year, and that you must pay your poll tax on or by the first day of May, 1906, or you will be disfranchised. Why not meet me on this round and settle this important matter, and get it off your mind, and be ready to vote in the approaching election. It is a good time now to pay, while you have the money, and it will be best to settle before the books go out, and save costs.

This the 7th day of Feb. 1906.  
**R. J. PETREE,**  
Sheriff of Stokes County.
