A severe storm visited the Hard Bank section, four miles north of Danbury, Tuesday afternoon. Mr. W. R. Bennett's store building was almost turned over by the hard wind, which moved the building about three feet from its foundation. Mr. Bennett's corn crib was also blown down, and the stable of Mr. Jas. Bennett was demolished.

Mr. Geo. Smith, of Campbell Route 2, spent several days here the past week. Mr. Smith has been in bad health recently and is being treated by Drs. W. V. and W. L. McCanness.

Mr. D. J. Easley and Miss Claudia Elizabeth Davis were happily married at Mt. Tabor Baptist church Thursday, April 11, at 8 o'clock, p. m. The groom is the son of Mr. and Mrs. J. M. Easley, and the bride the daughter of Mr. and Mrs. T. E. Davis. The ceremony was beautifully performed by Rev. R. Crews, the pastor of Germanton. Miss Martha Hampton being maid of honor and Mr. T. C. Cresson best man. Many friends were present wishing them much happiness in future life.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO. Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

**MEADOWS.**  
Meadows, April 23.

Mr. Editor:  
I don't agree with Mr. Alvin Blair in his last piece. Why, just let the people laugh and smile and grin, because it was so ordained from and before the foundation of the Danbury baseball team.

Messrs. John Covington and Carlis Davis just returned from the North Pole last Sunday night, and I think it will take them until the last of August to thaw. They may get over it, but they won't look "puty" any more.

Mr. R. W. Hill must be getting afraid of water as he hasn't been seen crossing the river lately. Squire, I thought you was a Baptist?

Well, it is a common thing for people to take hay rides, but Miss Frances was seen riding the frame last Sunday. Now, grin at that.

Mr. Geo. Warren called on the widow one night last week but she failed to come in. Later he was wondering how he could catch the widow. Some one told him that they thought it would be easy to catch her when she was asleep. Come again, George, you will see her next time.

Mr. Bony Glidewell purchased him a derby hat. Lookout Alexander, he's tracking you. Trouble, oh, I look for trouble. Next jump and he will have the grip.

Mrs. Roxana Tuttle is visiting her daughter at High Point this week.

I saw something in the Reporter about the downtrodden farmer. I don't wonder at it if that is a true picture of Mr. Trust that I see in the Reporter, for he has got as many feet as a thousand legs and he kicks every way.

Well, if this don't hit the trash box, I may come again; but just let the people laugh broad or narrow and see if I care.

**BAD SAM.**

**FRANCISCO.**  
Francisco, April 19.—The people are about done plowing corn land in this section.

Most people think there will not be a half crop of tobacco planted as the flies are destroying the plants.

Messrs. Jimmie and Herbert Nunn have purchased a new talking machine.

Whooping cough and mumps are all the go in this country now.

Mrs. T. C. Hill, who has been ill for some time, is no better, we are sorry to learn.

Misses Millie Ward and Bettie Francis visited their aunt, Mrs. Mary Ward, Sunday.

Mr. Buck Francis is very low, we are sorry to note.

Mrs. Ambrose Flippin, who has been in Oklahoma Territory for some time, returned to her home Tuesday.

**A Correction.**

Mr. Editor:  
In the last week's issue of your paper, I tried to correct some of the mistakes which occurred in my letter you published the week before; I notice, however, that a mistake of the same kind occurs in my attempted correction. So again, I will try to correct by saying that I wrote the fertilizer analysis with hypbens between the figures, and not as "8 22" as occurs in the print. Please make the correction.

Respectfully,  
D. K.
