Deputy J. W. Staples made a raid on a moonshine distillery in the mountains about 8 miles west of Stuart last Tuesday night, seizing an 80-gallon still and worm, destroying twelve or fourteen hundred gallons of beer and about fifty gallons of singlins. Sherman Turner, who was caught at the still, was brought to town and gave bond for his appearance before Commissioner Thompson next Saturday.

Mr. J. P. McMichael called us up this morning to report the arrival of another Democrat at his home—five in all. The new arrival is a Bryan Democrat of the strictest sort, a non-scratcher, true blue, and always ready for the fray. His name is Josephus Daniels, which is as good as any boy needs. Both mother and child are doing well.

Miss Annie Olivia Nichols departed this life on Sunday night, February 14th. Her mother and two brothers preceded her to the good world within the past few years. The survivors are her father and one brother, Mr. A. E. Nichols, with whom the entire community sympathize most profoundly. Miss Nichols had been a member of the Presbyterian church 15 years, and was one of the best and most active Christian workers in Madison. Her burial services were conducted by Rev. B. Margeson, pastor of the Methodist church, assisted by Rev. W. H. Wilson, of the Baptist church. "Earth is poorer and Heaven richer by her departure."—Madison Herald.

\$5,445,869 More a Year for Tobacco Farmers

The total value of the tobacco yield for the eight Tobacco States is over \$69,554,131 annually. With the same acreage the tobacco growers in these States could, by improved methods of cultivation and fertilization, undoubtedly increase the total value of the crop to \$65,000,000.

Virginia-Carolina Fertilizers

are compounded with the utmost care, containing only such elements of plant foods as can be taken up and properly assimilated by the plant without causing injury to its quality. Years of investigation of the cultivation and fertilization of tobacco enables the Virginia-Carolina Chemical Company to furnish fertilizers of superior quality for the production of this crop.

Mr. J. W. Rogers, R. F. D. No. 4, Durham, N. C., writes: "I have been using your fertilizers this year and the crops are the best looking I have ever seen—especially the tobacco crop. I have never seen any other fertilizer which acted as quickly as yours does. The leaf is large and waxy, cures bright, and I am satisfied will bring a big price. Also, my neighbors in this district use your fertilizer with the best results."

Is there any reason why you couldn't do as well? Be sure and ask your fertilizer dealer for a copy of the 1909 Virginia-Carolina Year Book or Almanac, or write our nearest sales office and a copy will be sent you free.

The Girls Crazy About R. E. Gibson on Madison Route 3.

Madison Route 3, Feb. 22.—The social given the young people by Mr. and Mrs. O. T. Duggins on the evening of February 20th, was very much enjoyed. We will be glad to hear of another soon.

Misses Minnie and Bettie Roberts, of Dillard, spent Saturday night with Miss Florence Yates.

Mrs. J. C. Yates, son and niece are expected home Monday or Tuesday. They have been spending several days in High Point visiting relatives and friends. We wonder if they were very sick when they crossed the ocean (?)

The girls seem to be very much "struck" on Mr. R. E. Gibson, the young man who is visiting Mr. R. H. Mitchell, Jr. Say, Rober, if you don't look sharp you will lose your schoolmate.

The game of baseball played on "Wall Street" between Case and Wall schools Saturday was very much enjoyed. The score was 18 to 21 in favor of the Stokes boys. There was some good playing by both teams. Several of the crowd were heard to speak of the good playing done by Mr. J. Frank Roberts, pitcher for the home team. They said the Stokes boys would have been defeated if he had not played so well.
