Business Established in 1872.

THE OLD RELIABLE BROWN'S WAREHOUSE WINSTON, N. C.

Sold more Tobacco in 1909 than any previous year.

We not only made a large gain in pounds last year, but lead the market in Highest Average Prices, as the following figures will show:

Other Houses Sold 17,602,085 Pounds for \$1,753,298.02. Average \$9.96
Brown's Sold 6,139,436 Pounds for \$643,358.08. Average \$10.47

Why does Brown's Warehouse lead the market year after year in highest average prices? Why did P. H. Hanes & Co., and later the R. J. Reynolds Co., have John Simpson to buy tobacco for them? Because he was a fine judge of tobacco, and his experience as a buyer prepared him to follow the sales, and his knowing the wants of each buyer and the value of each grade, enables him to get you full market value for every pile of your tobacco. As proof of this he has never failed to make the highest average where he followed the sales. Let him sell your crop this year.

Arch Bennett will assist on the sale and no better man ever followed a sale, and you can make no mistake by selling at Brown's. We are building a large addition which will enable us to take care of our increased trade. New camp and sleeping rooms and new stalls have also been added. Bring your first load to Brown's. It will pay you. Your friends.

COURT NEXT WEEK

JUDGE JONES TO PRESIDE

State Docket Very Light—68 Being Listed. And Only 54 For Trial—Twenty Defendants Under Bond and Not a Prisoner in Jail.

The fall term of Stokes Superior Court will convene next Monday. Judge E. B. Jones, of Winston-Salem, will preside.

The criminal docket is the lightest for years, only 45 cases being listed, while but 34 of these are for trial. Only twenty defendants are under bond, and no one is a prisoner in jail.

The criminal docket is unusually light, and the cases are of the lightest nature. The cases are being heard, which will doubtless draw a big crowd, Monday, Tuesday and Wednesday. The farmers are beginning to catch up with their work, lots of them being through curing tobacco, and while fodder and hay are to be saved, and wheat to be sown, many people will find time to attend court either as a party to a suit, as a witness, or to see the crowd and listen to the squabbles of the lawyers and hear interesting details of the trials.

Among the more important cases which will be tried is that of State v. Lawrence, Ward and Francis, these defendants being indicted in three cases each. The charge is assault with deadly weapon, etc., this being the shooting affair at Francisco last Christmas, which readers of the Reporter will recall—a sort of feud between several families. A large number of witnesses will attend, while the Francisco country will turn out many spectators who will want to hear the testimony. Other cases

of more or less public interest are as follows:

State v. Edward Alfred Shelton.

State v. W. H. ... and wife.

Charge, slander.

There are only two still cases on the docket, which are quite remarkable as formerly under the reign of bar rooms, no still houses the docket at every term was crowded, sometimes more than 100 retail cases being tried at a term.

Court will last for two weeks, the first week being given entirely to the State docket. The civil issue docket will not be taken up until Monday of the second week. A number of important civil cases are booked for trial, as follows:

STILL CAPTURED

NEAR WESTFIELD, IN SURRY CO.

Sheriff Haynes Arrests Riley King, the Operator, and Places Him in the Lock-up. But the Prisoner Escapes to Parts Unknown.

Mt. Airy, Sept. 20.—Sheriff Haynes captured another still last Saturday morning. This time he found his game in the Albion section of Westfield Township. The plant was of a small capacity and the man was making brandy. He had not made anything, but the Sheriff said if he had been two or three hours later he would have been making the moonshine right along. The prisoner, Riley King, was brought to town and placed in the lock-up till Sunday night when he made his escape, and now it is supposed his place of abode is somewhere in Virginia.

BILL HARPER

Tobacco Curing Nearly Over.

Another week will about finish the tobacco curing in the county, though there are several farmers who have not yet cut any. It is reported that the cures are a rule fine. But very little leaf has been marketed, though many primings have been offered, the price being about six cents average.

If you want to buy a small farm it will pay you to see that tract of land known as the "Amer Tilley" land, 100-acre tract, lying on the waters of Big Creek in Quaker Gap township. Good buildings and timber.
